Staff Lockers Proposal

Product Deck

eLocker

The Problem

Heavy admin burden

Managing staff lockers causes a heavy administative burden on supervisors and on locker users

Wasted management time

Management waste time on unproductive locker managmenet processes taking them away from thier important tasks

No Analytics

Standard practices give no analytical data and no hard and fast accountability

Staff waiting time

Staff waste time and become frustrated by slow allocatoin times and poor processes

The Solution

A Full Automated Staff Locker Solution

- Fully automate your whole locker managememt process
- Know who has used which locker, and when they used it
- No more audits - the system tracks every single action
- Create full accountability for your locker fleet
- Gain deep analytics into how your lockers are used
- No wires needed making install fast and easy

eLocker

eLocker

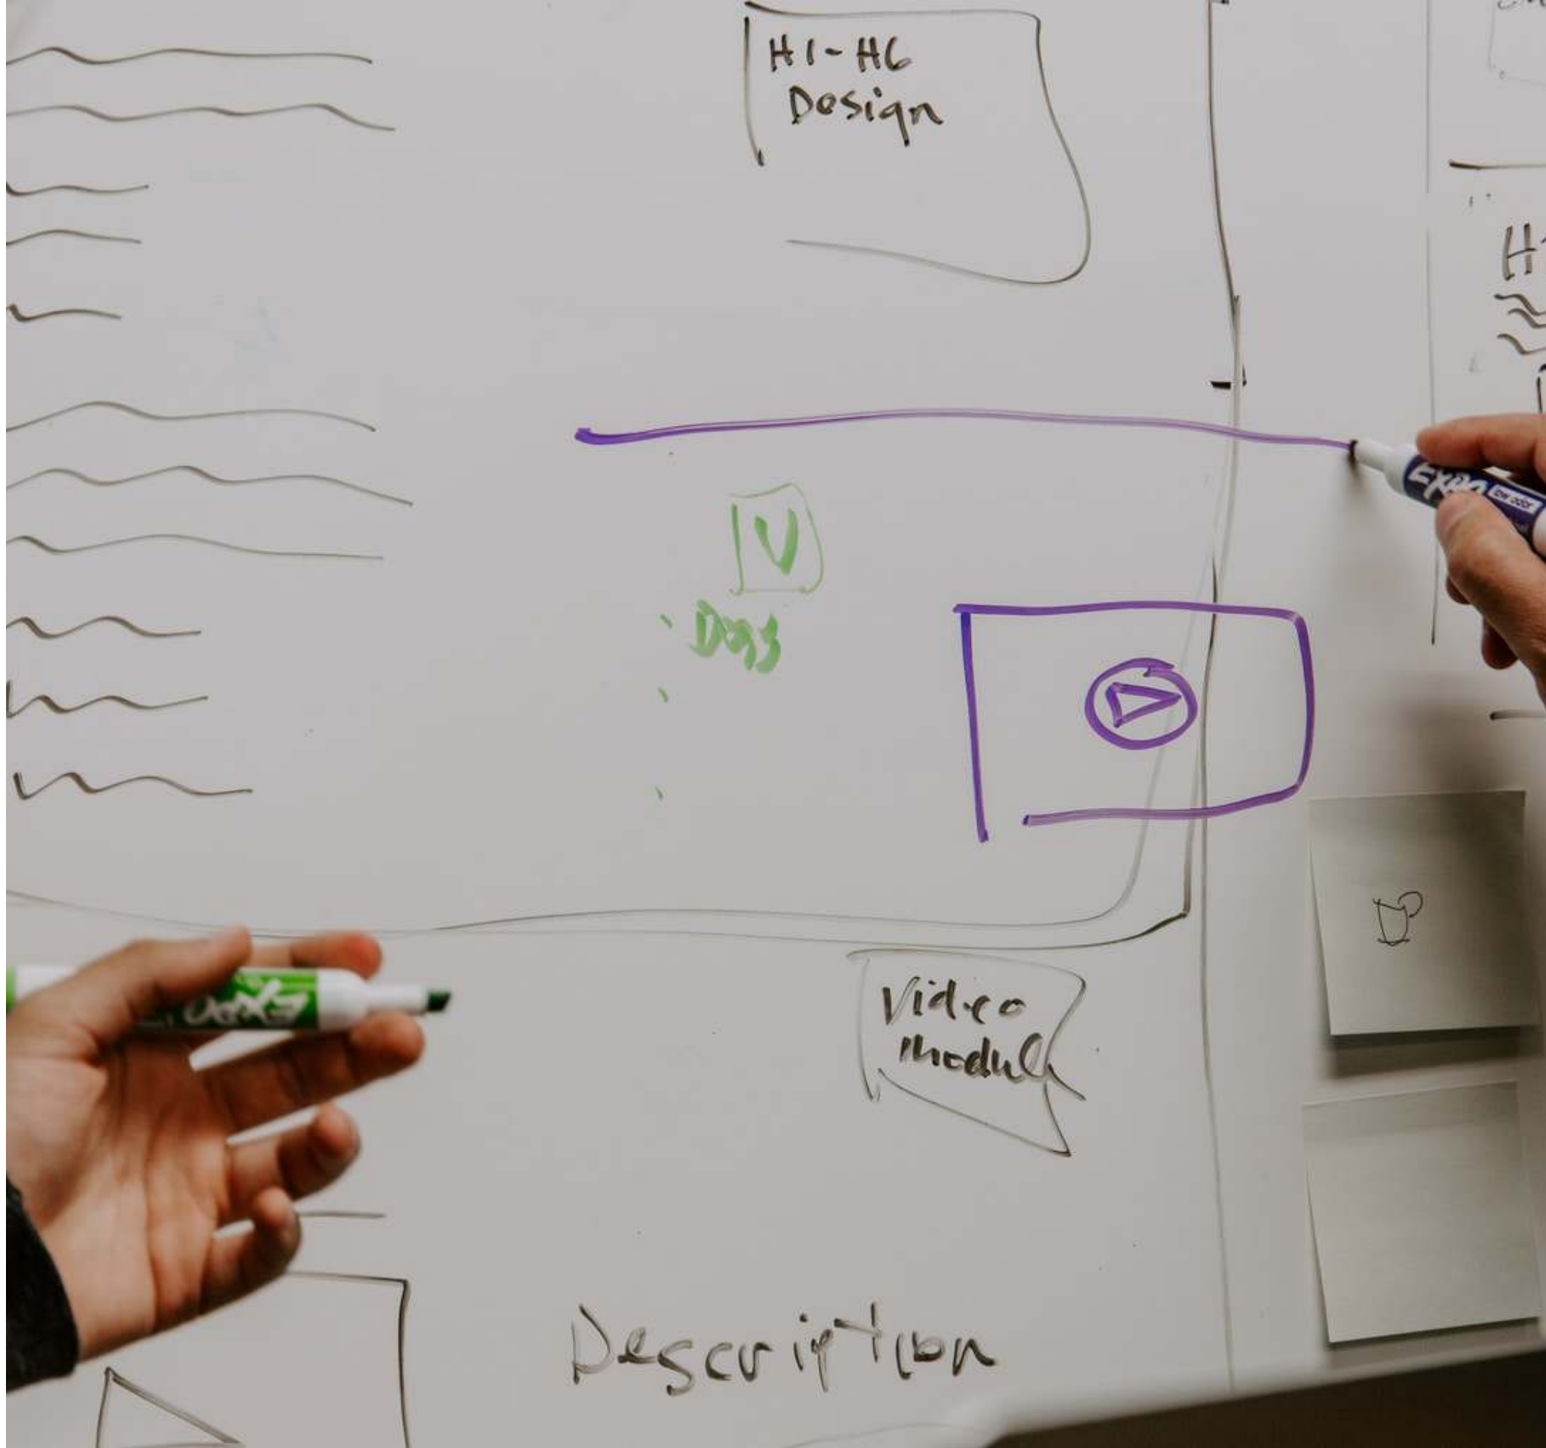
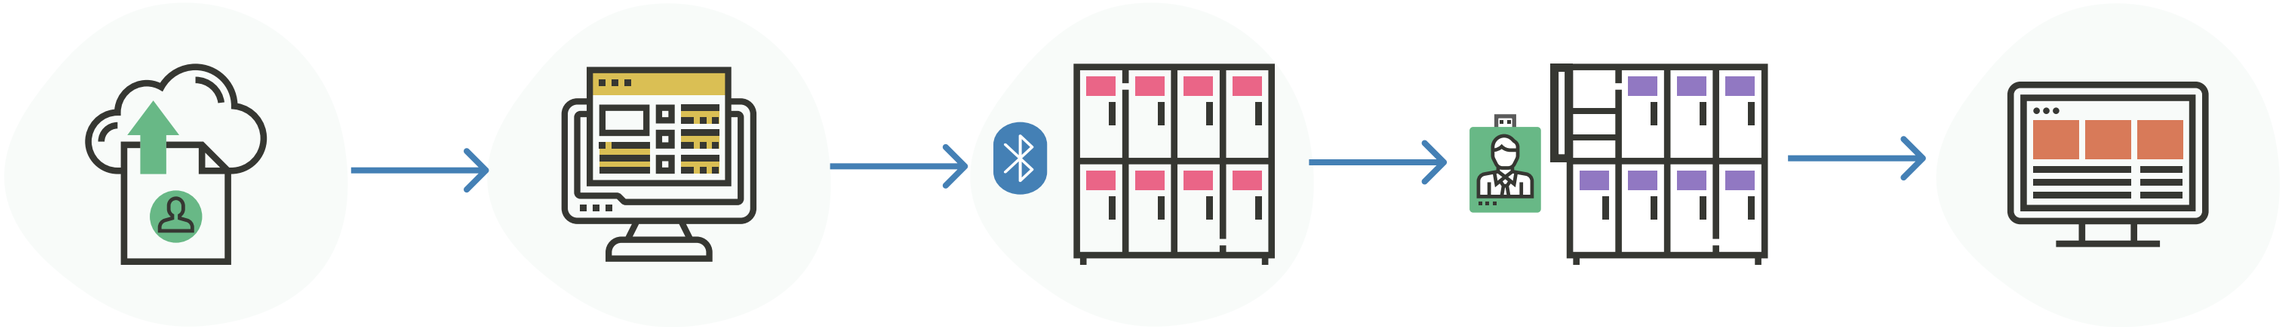
Standard Workflows



Staff locker workflows - Allocated



Upload

Upload Staff into the eLocker online system

Allocate

A free locker is allocated via the online dashboard

Send

The system instantly sends staff ID to the locker by bluetooth

Touch

Staff open lockers with their ID cards, a mobile app or the kiosk

Audit

All actions are recorded on the online system

Single Lockers

Place one person in one locker

Team Lockers

Allow up to 20 people to share

Hot / Agile / Day lockers

Upload

Upload Staff into the eLocker online system

Find

Staff find a free locker in the office by finding one with a green flashing light, or choose a free locker on a mobile app

Touch to Remember

Staff touch their ID card, open the door and put their stuff in, the lock remembers the card

Touch to Forget

Staff touch their ID card to open the door and remove their stuff, the lock forgets the card and is free for next user

Audit

All actions are recorded on the online system

Key Highlights

- Share lockers through your organisation
- Make your lockers fully agile
- Reduce the number of overall lockers, saving cost and space
- Remove the need to manage lockers, saving time and cost

eLocker

Use kiosks to allow staff to check their locker allocatoin if they forget
