WHAT WE DO

DASA finds and funds exploitable innovation to support UK defence and security quickly and effectively, and supports UK prosperity.

We help small and medium-sized enterprises to reach the marketplace quicker, and help larger companies to enhance their offerings.

We unlock innovation potential by offering a unique set of benefits to innovators:

- We do not take any of the Innovators' Intellectual Property or equity
- We usually provide 100% funding
- We don't expect matched funding
- We can provide access to un-paralleled expert government advice

Defence and Security
Accelerator

ENGAGEMENT WITH DASA HELPS YOU:

- Understand the viability of an innovative idea
- Discover the potential wider government application
- Investigate commercial exploitation opportunities
- Explore collaboration prospects
- Access front line users and decision makers across government

APPLYING FOR FUNDING

We fund innovation through two main mechanisms:

Open Call for Innovation – Any innovation relevant to defence and innovation focus areas for security.

Themed Calls – Innovation that meets the needs of specific government areas of interest.

GET IN TOUCH

We want to hear your innovative ideas and have a network of innovation experts ready to talk to you.
