PRACTI-MAN

CPR TRAINING SOLUTIONS

Revolutionary life-like
manikins, for effective CPR
training to help save a life.

Trade & Retail!

Practi-Man Advantages

OP airways insertion/removal!

Practi-Man Advanced and Plus manikins have the advantage of being able to be used to demonstrate and practice inserting and removing OP airways.

Life-like

The manikins are an accurate size and their movements are like the real thing, to ensure you can practise performing correct CPR.

Perform realistic breathing

Exclusive breathing system, including realistic nose function. Their head tilt enables students to learn and practise the correct breathing technique.

Safe and clean

Non-return valve system does not allow you to inhale from the lung bag, helping to avoid contagions. Suitable for defibrillator training and can be easily cleaned.

Bluetooth
electronic
feedback

Practi-Man Plus manikins come with their own **feedback device** that connects to the manikin via bluetooth. **Set up is easy** simply turn on the device and press down on the manikin chest to pair the manikin with the device and you are ready to go. The device provides information on **speed and depth of compression and release**, giving you and your students results that are easy to read.

Jaw
thrust
manoeuvre

Practi-Man Advanced and Plus has the added benefit of being able to use to demonstrate and practice the **jaw-thrust manoeuvre**.
