We believe that technology should fundamentally improve business performance

velrada
AN NRI COMPANY

THAT'S THE POINT

Who are Velrada?

Velrada are a contemporary global technology partner that brings true business context to the Microsoft stack.

Velrada dedicates itself to providing innovative technology solutions to organisations across a variety of industries. They specialise in Field Service, Workforce and Asset Management, Volunteer Management, Artificial Intelligence, Machine Learning and Predictive Analytics, combining these disciplines with the Microsoft Power Platform to create transformative solutions for their customers.

Through their journey with customers that manage large, diverse workforces, Velrada has developed PowerRoster™, their own workforce management solution, as well as EAM Connect, an Enterprise Asset Management solution.

Velrada is a valued Microsoft partner, receiving numerous awards and accolades for their innovative work, including being named a Microsoft Partner of the Year for Dynamics 365 Field Service Award recipient in 2018, 2019, 2021, 2022, and 2023.

With offices in Europe, USA and across Australia, Velrada is committed to continuing to grow and expand its resources and was recently recognised for this by receiving the Microsoft Growth Partner of the Year Award.
