

INCIDENT
REPORTER 365

INCIDENTREPORTER365

RAPID REPORTING & RESOLUTION OF INCIDENTS.

Report anything, anywhere, anytime
within 10 seconds.

IS YOUR ORGANISATION STILL DEPENDING

ON TRADITIONAL REPORTING METHODS?

Workers witness issues but no mode available for instant reporting

Reliance on human memory to remember & report incidents

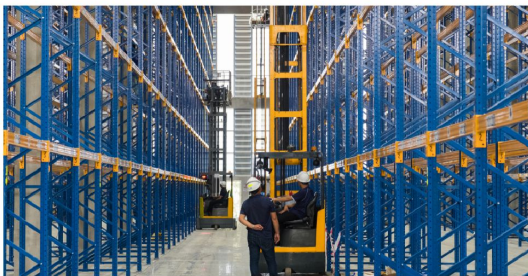

No digital assistance, only physical reporting systems available

Organisations observe a lot of slippage in Incident reporting. With no Analytics or Insights, organisations are left with no data that can be used to help improve overall safety aspects & take proactive measures.

COMMON ISSUES

INDUSTRIAL WAREHOUSES

Pallet Rack Collapse

- ❑ Design Issues
- ❑ Operational Issues
 - Overloading, poor weight,
 - MHE accidents,
- ❑ Ignored minor issues that lead to these collapses
 - Improper or missed fittings
 - Minor damages to stuff like footplate, frame,
 - Missing signs
