MATTERS
The Independent Voice for Security and Risk Professionals

WELCOME TO INTERNATIONAL SECURITY EXPO AND INTERNATIONAL CYBER EXPO

2 leading events co-located at Olympia London, 28-29 September 2021.

The cyber and physical security threats we continue to face rely on a united front from the entire sector to tackle them effectively and efficiently. After two years of no live events and many products launches delayed due to the pandemic, **International Security Expo** and **International Cyber Expo** will provide you with an unmissable opportunity to see what's new on the market from the world's leading cyber and physical security suppliers. The exhibition will showcase the latest innovation and game-changing solutions and will provide a fundamental platform to unite government and industry.

With innovation at the heart, attendees will be able to network and build strategic relationships with leading suppliers, challenge perceptions and debate the latest on-trend topics. There are 4 fully CPD certified conferences and summits, a series of product innovation presentations and interactive live demonstration areas looking at the full spectrum of security considerations from design through to the technologies to secure, and in the event of an attack, the capabilities to respond.

MESSAGES FROM OUR ADVISORY COUNCIL CHAIRS

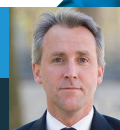

INTERNATIONAL SECURITY EXPO

"This past year has shown us that we live in unprecedented and uncertain times and as such, protecting our security for all eventualities is more important than ever before. International Security Expo continues to go from strength to strength, and I'm delighted to see so many major brands exhibiting and such a high-quality vetted buyer audience of international stakeholders attending."

Admiral the Rt. Hon. Lord West of Spithead GCB DSC PC,
Former UK Security Minister and Chairman of International Security Expo

INTERNATIONAL CYBER EXPO

"In this year of all years, keeping the cyber security community together is more important than ever. Continued engagement across the industry and between industry and Government, and with friends and partners across the world, is what will keep us safer as we grow ever more dependent on technology."

Professor Claran Martin, Cyber Advisory Council Chair,
Former CEO, National Cyber Security Centre, and
Professor at Oxford University

WHY VISIT?

Discover hundreds of the leading, top-level international cyber and physical security brands

Source the latest cyber and security product launches, solution updates and next-generation services vital for protecting your business or organisation

Essential educational content for all levels of cyber and security professionals

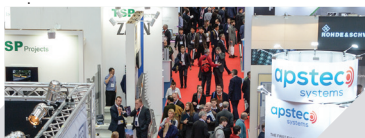

Immersive live demonstrations bringing security to life whilst showcasing end-to-end solutions

Unrivalled networking opportunities helping you make those all-important connections in a safe, face-to-face environment

WHAT'S ON?**EXHIBITION**

Source hundreds of security products from leading suppliers covering IT & cyber security, access control, guarding services, HVM, intruder detection, CCTV & surveillance, perimeter protection, screening & scanning, drone & counter drone and more. See Exhibitor list on page 7

**CONFERENCES & SUMMITS**

Our leading CPD certified educational programme provide accessible, free content focusing on hard-hitting subjects, industry challenges and high-level Government policy. Developed with world-renowned speakers our content gives you the knowledge needed to address the latest and emerging threats in the global security arena. See more on pages 10-13.

GLOBAL COUNTER TERROR & SERIOUS ORGANISED CRIME SUMMIT

INTERNATIONAL SECURITY CONFERENCE

DISASTER & RESILIENCE CONFERENCE

GLOBAL CYBER SUMMIT

UP TO 73 HOURS OF CPD AVAILABLE OVER 2 DAYS

**SPECIALIST ZONES****PERIMETER PROTECTION ZONE**

The widest range of perimeter security suppliers from around the world showcasing the best in security fencing, gates, barriers, bollards, intrusion detection, access control and more.

DISASTER & RESILIENCE ZONE

As a nation, the crisis we have faced and the unbelievable global response we have seen over the past year emphasises the need for this dedicated zone. Highlighting the fundamental aspects of 'Resilience, Recovery, Prevent, Response, and Recover', it will give you a one-stop-shop to expand your knowledge and experience first-hand the products and solutions available on the market.

DRONE & COUNTER UAV ZONE

In association with
DRONE PLATFORM & COUNTER-DRONE

ADS
A Special Interest Group

A dedicated area for world-leading suppliers of drone & counter-UAV capabilities. Providing you a complete package of solutions and technologies ready to tackle every security threat from protecting our transport and critical infrastructures through to securing our major events.

LIVE DEMONSTRATIONS

LIVE CYBER ATTACK DEMONSTRATOR

IN A CRISIS REVERT TO TRAINING

Featuring

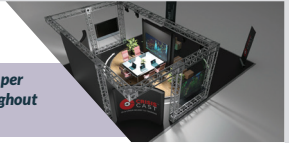

cyberprism

We are thrilled to be working again with CrisisCast who will be providing a live cyber attack. Become part of the real time battle and share the experience of the crushing impact on a fictional Executive Board who live through each excruciating moment of a series of cutting-edge cyber invasions. The added sting of the experience is the opportunity to share the glee of the hacking agent as they orchestrate the attack.

Incorporating a hi-tech stage and film techniques visitors will be engaged in dialogue from both sides of the attack and see and understand the psychology and motivating factors from two perspectives at once – the attackers and the

Sessions running twice per hour continually throughout both days

entity's boardroom. In a highly insightful evolution of normal exhibition methods, CrisisCast will take attendees behind the scenes in a theatrical demonstration, set on a revolving stage, featuring Cyber Prism.

- Uncover insights into the steps taken by hackers
- Witness the response from a boardroom under attack
- Discover the steps businesses can take to protect themselves, detect incoming threats and gain invaluable insights.

Visit the website for more information
www.internationalcyberexpo.com/cyber-demonstrator

IMMERSIVE TRAINING EXPERIENCE - DECISIONS & DISRUPTION

businesses from modern-day threats. Targeted at senior leaders and decision makers but beneficial to other staff with varying levels of technical knowledge. The training will create an interactive experience in which participants have to use their problem solving, collaboration, leadership and communication skills in order to be successful.

Cyber Griffin will provide an immersive training experience through its award-winning tabletop exercise designed to explore the decisions that people make to protect their

Sessions running on the hour every hour from 10:00 - 15:00 each day

Key benefits:

- Be tested on your response to both hacking and malware attacks, in addition to physical security threats
- See first-hand how cyber security can affect an organisation's turnover, reputation and associated regulatory fines
- Especially effective for those who are kinaesthetic and social learners
- Highlight how cyber and physical security can impact each other
- Current NCSC and Cyber Griffin security guidance

COME TO STAND A70

BRITISH TRANSPORT POLICE ON STAND DEMONSTRATIONS

**BRITISH
TRANSPORT
POLICE**

**COME AND SEE
THEM WITHIN THE
GOVERNMENT
ZONE - B85**

We're thrilled to have British Transport Police exhibiting at International Security Expo 2021. Come and see representatives from British Transport Police on stand B85 where they will be demonstrating the 3 core areas of British Transport Police:

Citizens in Policing (CiP)

CiP is about volunteering with BTP; as a Police Support Volunteer, a Cadet Leader or as a Special Constable. Engaging in these roles will give an insider's view of policing and will allow you to be part of a team that values your contribution. Come and speak with the team to find out more.

Explosive Search Dogs

Explosive search dogs engage in high-visibility protective security patrols, providing both people-scanning and pro-active search capabilities in order to deter and disrupt terrorism on the railway network. Over this two day event an experienced BTP dog handler will be present to demonstrate the capability of their Explosive Search Dog, showcasing their search capabilities and effectiveness in responding to any threat.

BTP Firearms Officers and Special Operations

British Transport Police Firearms Officers provide both a proactive and reactive armed policing capability, in order to detect, disrupt and deter terrorist and criminal activity across the railway network. Officers will be present to demonstrate the use of firearms, less lethal devices, door entry apparatus and medical supplies, and to talk about the part the unit plays in policing both London and other major cities across the country.

Visit the website for more information
www.internationalsecurityexpo.com/british-transport-police

BORDER FORCE ON STAND DEMONSTRATIONS

Border Force

Border Force has long been recognised as a world leader in the field of drug detection, keeping pace with the growth of international drug trafficking and increasingly sophisticated smuggling techniques. One of the key reasons behind this success has been the high quality of their training. Border Force has developed an extensive portfolio of practical, skills-based, anti-smuggling training, delivered through its Border Force Skills Academy.

At International Security Expo 2021 Border Force will be showcasing a Ford Kuga that was seized at the border and uses a sophisticated magnet system to open a concealment area within the rear of the vehicle. We are lucky to also have with us the Border Force dogs that are used at the borders to help find concealments built into a wide range of transport from family cars to heavy goods vehicles.

Visit the website for more information www.internationalsecurityexpo.com/border-force

COME AND SEE
THEM WITHIN THE
GOVERNMENT
ZONE - C88

LIVE TESTING LAB

The Live Testing Lab, in partnership with LPCB, will provide visitors with an opportunity to witness a team of professional forced entry specialists pitted against a wide range of physical security products, including security fencing, windows and doorsets.

Visit the website for more information www.internationalsecurityexpo.com/perimeter-protection-zone

PRODUCT INNOVATION THEATRE

The Product Innovation Theatre will provide a vital platform for leading suppliers to launch products, services, and game changing solutions fundamental to the development of the cyber and physical security industry. Experience first-hand as experts discuss real-life applications, key case studies and the latest product innovations and updates essential to mitigating security threats.

UP TO 12 CPD POINTS AVAILABLE OVER 2 DAYS

TUESDAY 28TH SEPTEMBER

10.55-11.15	Safety Flex Barriers Jeremy Tettmar - Sales Manager Dave Rose - Senior Security Sales Consultant <i>The Next generation of Crash rated Street Furniture - Hostile Vehicle Mitigation</i>
11.20-11.40	Exeon Analytics David Gugelman - CEO & Founder Future-proof Network Detection & Response: <i>Replacing traffic mirroring with algorithms for superior visibility and detection.</i>
11.45-12.05	QCyber Michel Berdah - Global VP Sales of the Counter Drones <i>A new era of defense against drone attacks</i>
12.10-12.30	Census Labs Christoforos Papchristou - Strategic Account Manager <i>Sensors, wearables and IoT devices</i>
12.35-12.50	Robin Radar Bob Mall - Business Development Manager Defence & Security <i>Countering the emerging drone threat in perimeter security applications</i>
12.55-13.15	Abloy Steve Wintle - Head of CI <i>How to deliver operational efficiency without compromising physical security</i>
13:45 - 14:05	Smiths Detection Dr Philo Daniel - Global Director of Urban Security <i>Safeguarding people, venues and infrastructure in a Digitally transforming Post-Covid world</i>
14.10-14.30	3M Privacy Solutions Peter Barker - EMEA Business Manager <i>A visual hacker only needs one piece of information to unlock a large-scale data breach</i>
14.35-14.50	Pointwire Barry Johnson - Co-founder <i>The Secret to Cost Reduction in Security</i>
14.55-15.15	Everbridge Simon Jones - Sales Manager <i>Policing and Transportation - Faster responses to critical events with PSIM - Physical Security Information Management.</i>
15.20-15.40	Bramfitt Julian Nash - Full-stack Developer, Stefan Looke - Security Consultant & Penetration Tester <i>Emerging threats in a Smart world and a successful IOT security assessment</i>

15.45-16.05	Senatas Europe Graham Wallace - Managing Director <i>Ransomware and data theft cyber attacks demand proven next gen defences</i>
16:10-16:30	D-Fend Martin Broomhead AFC MRaES UK General Manager & Sales Director <i>Counter-Drone Solutions and Concepts for Control & Continuity in Sensitive Scenarios</i>

WEDNESDAY 29TH SEPTEMBER

10.05-10.25	Isograph Martin Watford - Technical Consultant <i>Attack Tree Analysis: Identifying and Ranking Cyberattack Paths</i>
10.30-10.50	Semperis Dan Bowdrey - UK & Ireland Territory Director <i>Would your organisation fail the Active Directory Security Assessment?</i>
10.55-11.15	X Cyber Group Pete Watson - Director and Co-founder <i>Stop falling through the cracks</i>
11.20-11.40	Leonardo Richard Masom - Principal Consultant <i>Cyber Resilience as an enabler for Time Sensitive Networking in Operational Technology systems</i>
11.45-12.05	BurtonSafes Tony Lever - Sales Director <i>Offline/online high security locking solutions for the modern world</i>
12.10-12.30	DASA Anita Friend, Head of Defence and Security Accelerator (DASA) <i>DASA and the UK Government: Supporting innovative companies within the Security Sector</i>
12.35-12.50	Safety Flex Barriers Jeremy Tettmar - Sales Manager Dave Rose - Senior Security Sales Consultant <i>The Next generation of Crash rated Street Furniture - Hostile Vehicle Mitigation</i>
12.55-13.15	Everbridge Dr John Maeda - Chief Experience Officer at Everbridge <i>Enterprise Resilience™ Certification program</i>
13.20-13.40	Corps Security Seetan Varsani - Director: Major Accounts & Strategic Development Corps Security Dami Hastrup - Founder and CEO MOONHUB

PRODUCT SPOTLIGHT

EVERBRIDGE Stand D90

CEM Certification™

CEM Certification™ provides an organisation's employees, customers, and stakeholders with the confidence their company stands at the forefront of digital transformation and operates from a position of enterprise-wide resilience. Global organisations including Discover, Goldman Sachs, NBCUniversal, Dow and Alexion have already earned 'Best in Enterprise Resilience™' designation through rigorous CEM Certification™ benchmarking. Learn how your organisation can become CEM Certified™ and benefit from:

- * Improve resilience planning, budgeting and resource allocation
- * Benchmark your performance against industry peers
- * Demonstrate a commitment to enterprise resilience and duty of care

SENETAS EUROPE LIMITED Stand A54

SENETAS ANNOUNCES FIRST QUANTUM RESISTANT ENCRYPTION SOLUTION

Since the beginning of the 21st century, technology companies have been investing billions of dollars in the race to develop the first commercially viable quantum computer.

The dawn of the 'quantum era' will soon be upon us and promises exponential growth in computing power; leading to significant advancements in the research and development of communications, pharmaceuticals, artificial intelligence and more. However, the quantum computer also poses an existential threat to encryption security as we know it today. It threatens the public key encryption infrastructure that underpins our global digital economy. Senetas is quantum ready.

LOCHRIN BAIN Stand D70

LPS 1175 rated Fencing Systems

The next generation of Security Fencing is here. Introducing Lochrin Combi™ SL2 our very own industry disrupting B3(SR2) rated fence system, developed using our unique and patented Combi™ design with the addition of some interesting new security features, allowing the fence to offer the same attack delay times as other systems at this level, with a product that is not only cost effective, but that requires no specialist tooling or training, developed with simplicity in mind for the installers and security and aesthetics for the client. The system is 'Secured By Design' carrying full certification to LPS 1175 Security Rating B3 Issue: 8.

BURTON SAFES Stand B120

EMBASSY SECURITY ROOMS

The Sure Defence team at Burton Safes offers a tailor-made turnkey security solution for securing your valuables and providing personal safety. From the initial design consultation to installation and project management, we have you covered.

Our walling systems can be supplied tested to SR2 – SR5 by the LPCB and can offer optional ballistic protection certified to EN1522/23 – FB6.

Embassy options include armoured luxury internal and external doors as well as commercial high security doors. Our design team can even create a hidden access door for your personal protection.

APSTEC SYSTEMS

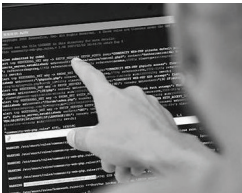

Stand C40

Version 4 of Human Security Radar (HSR V4)

HSR V4 combines a sleek design, smaller footprint and improved mobility with enhanced AI, additional detection capabilities and flexible integration making it easy for organizations to implement high-throughput, low contact screening.

HSR provides unparalleled throughput enabling real-time walkthrough screening of thousands of people an hour. HSR's unique AI driven automatic detection for explosives, weapons, narcotics and cash, including low metallic and non-metallic threats, improves security and the user experience. Helping You Get Back to Business Safely and Securely with HSR.

ISTORM SOLUTIONS

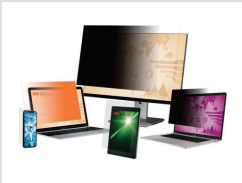

Stand B40

iSTORM® Privacy - Security - Penesting

iSTORM® Privacy - Security - Penesting is an Approved CREST Penetration Testing Provider. Penetration testing is an important part of an organisation's security strategy.

Our experienced testers can help prevent unauthorised access to your systems and data by exposing the vulnerabilities and weaknesses in your infrastructure and applications before anyone else does.

3M

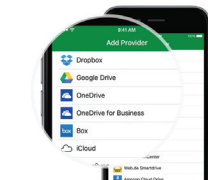

Stand B31

3M™ Privacy Filter range

Keep visual hackers in the dark with 3M privacy products. Protecting data is now a serious concern for organisations, with many now including privacy filters as a mandatory part of their IT data security plan.

Protect on-screen data from visual hacking with 3M privacy screen filters for monitors, laptops, tablets and smartphones.

BOXCRYPTOR

Stand B52

Boxcryptor

Boxcryptor creates a virtual drive on the user's computer that allows him to encrypt files locally before uploading them to the cloud of choice. Any file dropped into an encrypted folder within the Boxcryptor drive will be encrypted automatically before it is synced to the cloud. It can be used with several clouds, and all of them can be managed in one place, the Boxcryptor drive. The software protects data with state-of-the-art AES-256 and RSA encryption algorithms.

THINK CYBER SECURITY

Stand A66 TECHUK

Drive secure behaviour change with uniquely real-time and context aware security awareness interventions. ThinkCyber's multi-award winning Redflags software understands user behaviour, allowing you to deliver just-in-time guidance. E.g interactions with emails, attachments, USBs, websites, applications can all be triggers for timely awareness. Reach the parts other security awareness simply can't, empowering your users to protect themselves against cyber threats.

CONFERENCE & SUMMITS

GLOBAL COUNTER TERROR & SERIOUS ORGANISED CRIME SUMMIT

This high-level Summit will feature strategic insights and policy updates from global keynote speakers on counter terrorism, terror trends, serious and organised crime and international threats.

UP TO 19 CPD POINTS AVAILABLE

TUESDAY 28TH SEPTEMBER

Chair:

Rory McComb, International Consultant on Transnational Organised Crime and Former Deputy Director, NCA

10:30-11:00	From contemplation to political soldier: The far-right as global security threat Alberto Testa, Professor of Applied Criminology, University of West London
11:00-11:30	Current counter-terrorism priorities in the UK Dean Haydon, Assistant Commissioner, Counter Terror Police UK
11:30-12:00	The developing terror threat from a US perspective Senior Member of the FBI
12:00-12:30	Use of technology to reduce crime, corruption and organised crime Professor Lisa Short, Founder & Director, Hephaestus Collective and P&L Digital Edge
13:30-14:00	Ministerial or Homeland Security Briefing
14:00-14:30	Life as a Hostage Peter Moore, Software Development, Community IT Services CIC
14:30-15:00	The personal impact of being poisoned by the Russian GRU Nick Bailey, Retired Detective Sergeant
15:00-16:00	Terror and organised crime – are they common bedfellows? Figen Murray, Protect Duty Campaigner Aimen Dean, Former Member of Al-Qaeda and MI6 Spy Dr Aaron Edwards, Senior Lecturer Royal Military Academy Sandhurst Professor Alberto Testa, University of West London

WEDNESDAY 29TH SEPTEMBER

Chair:

Rory McComb, International Consultant on Transnational Organised Crime and Former Deputy Director, NCA

11:00-11:30	Keynote: The State of the UK Security Market Mark Goldsack, Director, DIT DSE
11:30-12:00	What are the security priorities keeping a Senior Home Office Director busy? Shaun Hipgrave, Director Prepare, Protect, CBRNE & Science Directorate Homeland Security Group (HSG)
Chair: Lee Dodridge, Director at Covenant and Former Member of NaCTSO	
12:00-12:30	NaCTSO – 20 Years of Communicating With Business Supt Adam Thompson
13:30-14:00	Evolving global threat – rewriting global preventive terrorism strategy Temitope Olodo, President, Africa Security Forum
14:00-14:30	Government assured – contractor delivered counter-terrorism Bert Appleton, Head Counter-Explosive Ordnance Defence Engagement Office, UK MOD
14:30-15:00	The importance of countering terror being a whole society issue and not just the remit of the police and security services Figen Murray, Protect Duty Campaigner
15:00-16:00	Understanding & Managing Human Behavior During Crisis Miranda Coppoolse, Behaviour Analyst and Security Risk Advisor / CEO, MC Global Security Consulting

INTERNATIONAL HOSTED BUYER PROGRAMME

UK Defence &
Security Exports

CONNECT+

by *Nineteen*

Connect+ Live

In conjunction with Department of International Trade's UK Defence & Security Exports, International Security Expo and International Cyber Expo will deliver a programme of in-person and virtual participation of delegations from around the world. International buyers will have the opportunity to meet exhibitors, face-to-face or virtually, to discuss the solutions that match their business requirements.

If you have active or future buying requirements and would like to be put in touch with solution providers that can help, please get in touch to join the programme free of charge.

Contact us for more details +44 (0)20 8947 9177.

MITIE GSOC APP

The Mitie Global Security Operations Centre (GSOC) team collates tailored proactive intelligence alerts relating to events, which are delivered directly to you in a timely manner, enabling the effective deployment of resources to mitigate identified risks. The Mitie GSOC app allows you to stay abreast of the latest intelligence picture in the build up to the International Security Expo, with updates delivered to you throughout.

The Mitie GSOC App will be available to all attendees to download
For full details, visit the website www.internationalsecurityexpo.com

COVID COMMITMENT

In line with the latest government advice, we have worked closely with both Olympia London and the Exhibitions and Events Industry to establish guidance to allow us to confidently offer a safe environment for all, where we will be verifying the COVID-19 status of everyone on arrival at the event.

All attendees will therefore need to demonstrate proof of COVID-19 status (NHS COVID Pass, Proof of immunity or Lateral flow or PCR negative test results text or e-mail, received within 72 hours) for entry to International Security Expo and International Cyber Expo 2021. You can view our Covid Commitment at www.internationalsecurityexpo.com/covid-safety-entry-guidelines
