Swiftly find incidents and people.</p>

Reka integrates with major VMS providers...

...delivering proven results

<p>65% Faster case resolution</p>	<p>42% Reduction in crime</p>
--	--------------------------------------

We are solving more cases than ever before. Real-time alerts, smart search, and clear video, make investigations faster and safer. Often, I don't even have to leave the station. It's more than an LPR system. It's a comprehensive investigative tool. I have been looking for a solution like this for years.

Orange Village Police Department, Ohio
