

Fisher Security Consulting: Comprehensive Security Solutions

Welcome to Fisher Security Consulting's comprehensive service guide, providing you with transparent pricing and detailed information about our security and compliance solutions. We offer flexible engagement models tailored to meet your specific security needs, whether you require project-based assistance or ongoing support through our tiered retainer packages.

Our Approach to Excellence

At Fisher Consulting, we understand that every organisation faces unique business challenges. That's why we've developed a client-centric approach that combines industry expertise with customised solutions to address your specific requirements. Our team of seasoned professionals brings decades of collective experience across various sectors, ensuring you receive guidance that is both practical and effective.

Expert Guidance

Our consultants possess extensive knowledge in industry standards and best practices, allowing us to provide authoritative advice tailored to your organisation's unique needs.

Certification Support

We guide you through the entire certification journey for key standards including ISO9001, ISO14001, ISO45001, and more, from gap analysis to successful certification.

Ongoing Partnership

Beyond initial implementation, we offer continuous support to ensure your business systems evolve with your organisation and maintain compliance with changing regulations.

Our commitment to excellence extends beyond the delivery of services. We prioritise building lasting relationships with our clients, serving as trusted advisors who understand your business objectives and help you achieve them through robust operational frameworks.

Service Structure and Pricing Model

Fisher Security Consulting offers a transparent and flexible pricing structure designed to accommodate various organisational needs and budgets. Our service options range from ad-hoc daily support to comprehensive monthly retainers, each providing different levels of engagement and value-added benefits.

We believe in complete transparency regarding our pricing and what each service tier includes. This approach allows you to make informed decisions about which engagement model best suits your organisation's security requirements and financial considerations. Whether you need short-term project support or long-term strategic partnership, our pricing structure is designed to provide excellent value without hidden costs.

Our retainer packages, in particular, are structured to reward long-term collaboration with additional benefits and services that enhance your overall security posture. Each tier builds upon the previous one, offering increasingly comprehensive support as your security needs evolve and mature.

All our services are delivered by certified professionals with extensive experience in implementing and maintaining ISO and other standards across various industries. This expertise ensures that you receive not just technical support but strategic guidance aligned with industry best practices and regulatory requirements.

Flexible Engagement Options

Fisher Security Consulting offers two primary engagement models to accommodate your specific needs: project-based day rates and monthly retainers. Each model provides distinct advantages depending on your organisation's requirements, timeline, and budget constraints.

Project-Based Support

Our day rate model is ideal for organisations requiring support for specific, time-limited projects or occasional assistance without ongoing commitment. This approach provides maximum flexibility while ensuring access to our expert consultants when you need them most.

Project-based engagements are particularly suitable for organisations undertaking one-off security initiatives, preparing for audits, or requiring specialised support for specific compliance challenges.

Personalised Consultation

Each engagement begins with a thorough assessment of your current security posture and specific requirements to determine the most appropriate service model.

Retainer-Based Partnership

Our monthly retainer packages are designed for organisations seeking continuous security support and strategic guidance. These packages offer predictable costs, priority service, and a range of value-added benefits not available to day rate clients.

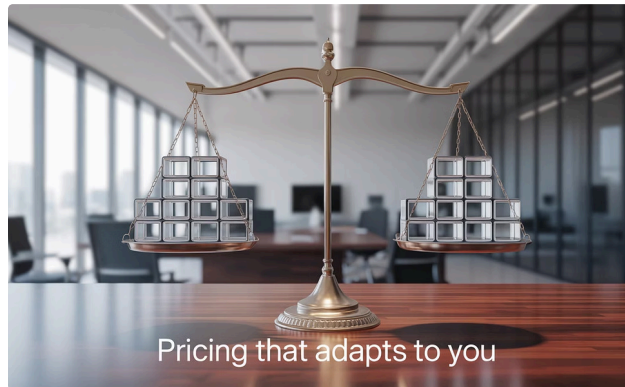

Retainer clients benefit from our deep understanding of their business environment developed over time, allowing us to provide increasingly tailored and proactive security guidance as our partnership evolves.

Strategic Planning

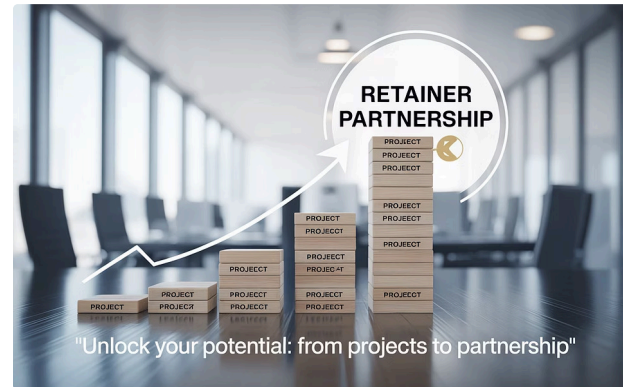

We develop comprehensive security roadmaps aligned with your business objectives, regulatory requirements, and available resources.

Charging Model Overview

Transparent Value-Driven Pricing

Fisher Security Consulting offers a transparent and value-driven pricing structure that accommodates organisations at every stage of their security journey. Our model balances flexibility with comprehensive support, ensuring clients receive precisely the level of expertise they require without unnecessary expenditure.

Escalating Value Proposition

Our pricing philosophy centers on delivering escalating value as clients transition from project-based work to retainer relationships. While our day rate option provides the agility needed for targeted interventions, our retainer packages unlock substantial added benefits including priority response times, dedicated security advisors, and complimentary access to our proprietary risk assessment tools.

Aligned With Security Maturity

Each pricing tier corresponds to distinct organisational security maturity levels, from foundational security implementations to advanced threat management programmes. This alignment ensures you invest appropriately at your current stage while providing a clear pathway for scaling your security capabilities as your business grows. Our transparent structure eliminates unexpected costs, allowing for precise budgeting and measurable return on your security investment.

Day Rate Services

Our day rate option delivers expert security consultancy on a flexible, as-needed basis at £450 per day. This engagement model provides immediate access to our senior consultants without monthly commitments, making it ideal for specific projects, targeted interventions, or periodic security reviews.

Maximum Flexibility

Engage our services precisely when needed, scaling up or down based on project demands with no long-term obligations. This approach ensures you access premium security expertise for time-bound initiatives while maintaining complete control over your security expenditure.

Expert-Level Support

Day rate clients work with the same highly qualified consultants who serve our retainer clients. Our specialists bring diverse security credentials across multiple domains and industries, ensuring consistently exceptional service regardless of engagement model.

Transparent Pricing

Our all-inclusive day rate eliminates hidden fees and unexpected charges, providing complete cost clarity before engagement begins. This transparency facilitates straightforward budgeting and ensures maximum return on your security investment.

While our day rate service offers exceptional flexibility for targeted needs, organisations requiring consistent security guidance or pursuing certification frameworks will typically find greater value in our monthly retainer packages, which include priority response, dedicated advisors, and complementary security tools.

Day Rate Applications - £450/day

Our day rate service at £450 per day provides flexible, expert-level security support for a wide range of specific requirements. This engagement model is particularly valuable for organisations with discrete security projects or those who need occasional specialised assistance without committing to a monthly retainer.

Project-Based Applications

- Bespoke security project delivery
- Compliance screening implementation
- Site mobilisation security planning
- Internal audit execution
- External audit preparation and support
- Security policy development and documentation

Professional Training Delivery

Our consultants provide engaging, practical security training tailored to your team's specific needs and knowledge level, ensuring maximum retention and application.

While our day rate service provides excellent flexibility, it's important to note that it does not include ongoing support or the bundled extras that come with our monthly retainer packages. For organisations requiring regular security guidance or working toward certification, our retainer options typically offer better long-term value.

Training and Assessment

- In-person or remote security training
- Event security risk assessments
- Site security evaluations
- Compliance management system review
- Bid and tender support services
- Security procedure documentation

Comprehensive Assessments

We conduct thorough security assessments using industry-standard methodologies to identify vulnerabilities and provide actionable recommendations for improvement.

Monthly Retainer Packages

Fisher Security Consulting offers four comprehensive monthly retainer packages designed to provide ongoing security support with significant added value. Each tier builds upon the previous one, offering increasingly comprehensive services aligned with your organisation's security maturity and needs.

Tier 1 Monthly - £1,350

3 days of support (1 in-person, 2 remote) with 24-hour compliance assistance. Focuses on ISO9001 and ISO14001 certification pathways, CMS design and implementation, Safe Contractor and Cyber Essentials certification, with knowledge programme and audit support.

Tier 2 Monthly - £1,800

4 days of support (2 in-person, 2 remote) with 24-hour compliance assistance. Adds ISO45001 and ISO45003 certification pathways, Approved Contractor Scheme (ACS) preparation, and Cyber Essentials+ implementation while maintaining ongoing support for established standards.

Tier 3 Monthly - £2,250

5 days of support (2 in-person, 3 remote) with 24-hour compliance assistance. Introduces ISO27001 implementation (12-month pathway to certification) and expands ACS support to include audit preparation and recertification processes.

Tier 4 Monthly - £2,700

6 days of support (3 in-person, 3 remote) with 24-hour compliance assistance. Adds ISO22301 certification pathway and three-year ACS recertification support while providing full management and recertification for all previously implemented standards.

All retainer packages include essential services such as ISO certification support, compliance management system implementation, internal audit execution, and management meeting support. As you move up through the tiers, additional standards and more comprehensive support become available.

Package Benefits

Each tier is strategically designed to match different organizational needs and security maturity levels, allowing you to select the package that best aligns with your current requirements while providing a clear pathway for future security development.

Our monthly retainer clients receive priority access to our consultants, regular scheduled support, and comprehensive implementation assistance for all relevant security standards and certifications.

Retainer Client Benefits

Choosing a monthly retainer package with Fisher Security Consulting provides substantial advantages beyond our core security services. Our retainer clients enjoy a range of exclusive benefits designed to enhance the value of our partnership and support your organisation's security objectives more effectively.

FSC Verified Status

All retainer clients receive FSC Verified Entry Tier status, which includes a baseline audit, CMS review, and detailed verification status report. This independent assessment provides valuable insights into your current security posture and compliance readiness.

Compliance Calendar

Benefit from our annual compliance calendar management service, which tracks and reminds you of key security dates including fire drills, risk assessments, policy reviews, and certification deadlines to ensure nothing is overlooked.

Strategic Reviews

Receive quarterly strategic compliance reviews with written reports and recommendations, helping you maintain continuous improvement in your security programme and stay ahead of emerging threats and regulatory changes.

Priority Support

Retainer clients receive priority access to our consultants for urgent queries, audit preparation, or emerging security issues. This ensures you have expert assistance available when you need it most, without additional wait times.

Our commitment to retainer clients includes regular check-ins and proactive communication about relevant security developments that might impact your organisation, creating a truly collaborative security partnership.

Financial Benefits

Enjoy a 5% discount on all add-on products including screening services, bid support packages, and specialised training programmes. This provides significant savings for organisations requiring multiple security services throughout the year.

The retainer model also offers predictable monthly costs for budgeting purposes while delivering greater overall value compared to equivalent day rate engagements, particularly when accounting for the included extras and priority service.

Add-On Products and Partnership Opportunities

In addition to our core services, Fisher Security Consulting offers specialised add-on products to address specific security needs. These can be purchased individually or added to any retainer package, with retainer clients enjoying a 5% discount on all add-on services.

Screening Setup & Training

Comprehensive personnel screening implementation package including system setup, staff training, and ongoing support. Standard price: £1,500; Retainer client price: £1,425. Includes two days of dedicated support and handling of candidate blocks (10–30 candidates per block).

Full Tender Pack

Complete documentation package for security tender submissions, customised to your specific requirements and target contracts. Standard price: £1,350; Retainer client price: £1,282. Includes all necessary scoped documents to strengthen your bid.

The Knowledge Training

Customisable security training programmes ranging from 1.5-hour workshops to full-day sessions. Pricing starts from £1,200 for single workshops, with comprehensive packages available from £2,750. Content is tailored to your team's specific needs and knowledge level.

Strategic Partnerships

Fisher Security Consulting maintains strategic partnerships with complementary service providers to offer our clients comprehensive security solutions. These partnerships include:

- **Smart Task** – Time and attendance tracking, roster management, and security workforce optimisation
- **Marketing Services** – Security-focused marketing and communications support to enhance your security brand positioning
- **BID Writing** – Specialised security tender writing and submission support for competitive contract opportunities
- **Social Media** – Strategic social media management focused on security industry positioning and thought leadership

Our partnerships are carefully selected to ensure they deliver genuine value to our clients, with seamless integration between services and consistent quality standards. Whether you require comprehensive security solutions or targeted assistance with specific aspects of your security programme, Fisher Security Consulting and our partners can provide the expertise and support you need.
