SEAMLESS ENGAGEMENT BETWEEN MOD & DEFENCE INDUSTRY

Logiq Consulting's Defence Information Secure eXchange (DISX®) is a rapidly deployable collaborative working environment that provides an out-of-the-box solution to Defence Contractors with a requirement to deliver into, and communicate securely with, the Ministry of Defence.

CAPABILITIES:

- RLI Email (@r.mil.uk), with addresses searchable via MOD GAL
- RLI Web Browsing
- Import/Export USBs
- DCPP Compliant (Inc. HIGH)
- CE/CE+ Compliant (Certification provided on request)
- Full M365 Services
- Full Business Productivity Desktop Apps
- Microsoft Teams, inc. collaboration with MODNet Tenant
- Internet Routable Email (@disx.co.uk)
- MODCloud / DEFNet connectivity
- Full Internet Browsing
- Service Desk, accessible via the self-service portal and phone
- · Line of business Applications on request

ACCESS METHODS:

- DISX® is a cloud-first service with multiple access methods;
- BYOD (DISX®.Cloud). The recommended access method is via a DISX®.Cloud virtual device, accessible from any existing device, providing full desktop capabilities in the browser
- · Secure dedicated devices are available if required

Welcome to the **International Cyber Expo**

International Cyber Expo is the perfect meeting place for CISOs, CTOs, Managing Directors, business owners, cyber security specialists, government officials and end-users to connect and source products from the thriving cyber security market.

It will deliver best-in-class education around cyber security risks & threats, detection & response, and the very latest technology and services that protect the digital and physical future of businesses.

The current threat landscape means it is more important than ever for the cybersecurity community to come together and support each other.

Continued collaboration across all sectors. whether public or private, and our peers will help us overcome the issues we face as we become more dependent on technology. I'm honoured to be the Chair of the International Cyber Expo Advisory Council and look forward to supporting, adding value, and sharing knowledge to help shape the future of this essential cyber event."

Professor Ciaran Martin CB Oxford University, Chairman of International Cyber Expo Advisory Council

At Nineteen Group, we recognise people to be at the heart of any successful industry event and it is through listening to public feedback that we identified a growing demand for a standalone cyber event that goes beyond the conventional.

We are so pleased to invite you to International Cyber Expo, a dynamic and inclusive event created for the community, by the community."

Rachael Shattock Group Event Director

Uniting the worlds of cyber and physical security

1 Pass 2 Events

International Cyber Expo is co-located with the International Security Expo, the world's premier Government and end-user security event. Find out more on page 16.

INTERNATIONAL SECURITY EXPO

www.internationalsecurityexpo.com

Why International Cyber Expo is a must-attend event for Cyber Security **Professionals**

- Training: Develop your knowledge and learn the skills required to deal with serious organised cyber-crime, state-sponsored hacking, ransomware attacks, protecting critical national infrastructure, and more.
- Innovation: Discover 1000s of cuttingedge innovative products from a wide range of international suppliers including Network Protection, Industrial Systems, Endpoint Security, Managed Services, Apps, Mobile Security, Cloud Security & more.
- Networking: Build face-to-face relationships with industry pioneers including CISOs, CIOs, Heads of Info Security, Government, Critical National Infrastructure & Public Sector Organisations.
- **Education:** Learn from world-wide experts on a range of topical subjects including current and future cyber threats, priorities and challenges.
- Live Action: Join an immersive realtime cyber attack demonstration, cyber escape room and practical table top exercises exploring decision making in real-life scenarios.

2

What's waiting for you at this year's event?

Alongside an exhibition of 175+ of the most establised brands and cutting edge startups, International Cyber Expo is packed full of educational content and interactive features that will educate and inspire.

LIVE DEMONSTRATIONS

These demonstrations present how experts prepare for and face cyber security threats in real-life situations.

DECISIONS & DISRUPTION EXERCISES

This award winning table top exercise is designed to explore the decisions that people make in order to protect their business from modern day threats. It tests people's response to both hacking and malware attacks, in addition to physical security threats. This exercise has been shaped and developed by Cyber Griffin specifically for the Square Smile.

- Groups of 4-6 will form a new board of directors who have taken over the running of a hydroelectric
- Participants will be given a budget and presented with different scenarios and outcomes based upon their decisions.
- They have to react and plan to keep the company safe and afloat!

Find out more at www.internationalcyberexpo.com/ cyber-griffin-exercises

In association with:

IMMERSIVE DEMONSTRATOR

Become part of the real time battle and share the experience of the crushing impact on a fictional Executive Board who live through each excruciating moment of a series of cutting-edge cyber invasions.

- Find out how businesses can protect themselves and detect incoming threats.
- Uncover insights into the steps taken by hackers
- Witness the response from a boardroom under attack

Find out more at www.internationalcyberexpo.com/crisis-

In association with:

CYBER ESCAPE ROOM

Cyber Escape Room (New for 2023) is an Interactive cyber-security exercise designed to deliver key messaging to staff through a variety of problem solving exercises - promoting good cyber behaviour and preventing you from becoming the next victim of a cyber-attack. It covers important topics such as phishing, data leakage and passwords. Upon completion of the exercise. a thorough debrief is provided to explain the significance of each topic covered and put it

To participate in the escape room experience, just head over to Stand K70 within the Government zone, and you'll have the opportunity to engage in the activity.

Find out more at www.internationalcyberexpo.com/ escape-room

PAVILIONS AND ZONES

The industry and country pavilions bring together some of the most innovative companies to showcase the latest developments within the sector.

Government departments and agencies.

COMMUNITY VILLAGE

The Community Village is a home to a variety of not-for-profit and charitable organisations with likeminded interests that bring people together to make a difference and raise awareness of important causes.

GRAB THE MIC: WOMEN IN CYBER – NEW FOR 2023

In collaboration with Assured Intelligence, International Cyber Expo is excited to launch a new event: 'Grab the Mic: Women in Cyber.' The 2.5-hour networking event aims to inspire, educate and connect the incredible women (and allies) of the cybersecurity industry.

Produced and hosted by Eleanor Dallaway, co-founder of Assured and former editor of Infosecurity Magazine, the event will offer an inspirational keynote, a candid panel, and a hell of a lot of advice on how to get your dream job in cyber. Most importantly of all, we promise to give you the time to meet and build relationships with the other brilliant attendees.

To attend the event, please register at www. internationalcyberexpo.com/grab-the-mic

Tuesday 26 September, 2.00 - 4:30pm. Gallery Level, London Olympia.

Keynote: It Takes Two to Tango (If You Want to Tango Exceptionally Well)

In a break from the norm when it comes to diversity events, 'Grab the Mic' is inviting a female-male duo to open our Women in Cyber event. Because this might historically have been a man's world, but it's certainly nothing without women or girls!

Speakers:

Sarah Barclay, Head of Cyber Security Operations at Sodexo UK&I Steve Moran, Ciso, Sodexo

Panel: How to Land The Job of Your Dreams

Despite the ever-bemoaned cybersecurity skills gap and the diversity drive in many organisations, many women struggle to land their dream cyber job. So what's the disconnect?

This panel will invite the perspective of all stakeholders in that mission to match the right people with the right jobs. We'll hear from a cybersecurity recruiter, a hiring manager, a senior industry professional that made it to the Boardroom, and a cybersecurity n00bie, navigating the first rungs of her career ladder.

Moderator: Eleanor Dallaway

Anne Woodley, Senior Security Specialist, Microsoft

Natasha Harley, Cyber Recruitment Specialist, **Cyber Talent Partners**

Palvi Sharma, CAPSLOCK trainee Shelley Langan-Newton, CEO SQR Group

Networking: You Asked, We Deliver

We're fully aware that one of (if not THE) driving factor for women in cybersecurity events is the opportunity to make new friends, build your networks and perhaps even learn of new job opportunities. So we're building in a very hearty networking session to allow attendees to do just that. Oh, and we're inviting a load of recruiter friends so that those wishing to heed the advice from the event's panel can make moves to secure that dream iob.

UNITING THE WORLDS OF CYBER AND PHYSICAL SECURITY

International Cyber Expo is co-located with the award winning International Security Expo which brings security professionals from across the world together to network, learn and discover the latest security solutions from the world's leading suppliers.

Olympia London – Grand Hall Hammersmith Road, Kensington, London, W14 8UX United Kingdom

World-renowned speakers and acclaimed global security leaders discuss the latest security topics, threats and challenges in our high-level, CPD-certified conferences and summits:

- Global Counter Terror & Serious and Organised Crime Summit
- International Security Conference
- International Risk & Resilience Conference
- Featuring Realities of Terror: personal experiences and real life case studies

DON'T ALSO MISS:

- The LPCB Live testing lab will give you the chance to witness a team of professional forced entry specialists who will be up against a range of physical security products, such as windows, fencing, and doorsets.
- British Transport Police Firearms officers will be showcasing a wide range of their equipment and tools including firearms and less lethal devices.
- Plus scenario based counter threat demonstrations will be conducted by EO UK, CBRN & DPAC during both days of the event.
- 300+ Exhibitors showcasing innovative products and solutions from across the entire security spectrum, including: hostile vehicle mitigation, perimeter protection, access control & biometrics, intruder detection / monitoring, communication, drone / counter drone, IT / command & control, CCTV & surveillance and much more.
