WELCOME TO SMW

You're invited to the UK's leading festival of advanced manufacturing and engineering!

Smart Manufacturing Week 2025 is the UK's biggest and most vibrant gathering for industrial innovation—bringing together 13,500+ attendees and 450+ solution providers to explore the technologies, strategies, and connections shaping the future of manufacturing and engineering.

Curated by *The Manufacturer* and powered by deep industry insight, this year's event tackles the sector's most pressing challenges and exciting opportunities across five key pillars:

- **Innovation & Smart Technologies** – Automation, robotics, and next-gen manufacturing
- **Digital Transformation** – AI, IoT, machine learning, and cloud-enabled operations
- **Sustainability & Circular Economy** – Practical strategies for greener growth
- **Workforce & Skills** – Upskilling, diversity, and building future-ready teams

- **Supply Chain Resilience** – Agility, risk mitigation, and business continuity

New for 2025: **Smart Tank**, where innovators pitch disruptive ideas, an expanded STEM programme, and a tightly curated schedule of keynotes and panels.

And it's all wrapped in a high-energy, festival-themed experience—complete with live music, **Guitar Legends** competition, piano busking spot, and the return of the legendary **Mainstage Networking Party**.

Join us to discover, connect, and shape the future of UK industry... and maybe spot a few **famous faces** on the show floor 🎤

THE MANUFACTURER

SMART MANUFACTURING WEEK RETURNS FOR ITS FOURTH EDITION ON 4 - 5 JUNE 2025.

As global trade tensions and evolving tariffs reshape supply chains and market dynamics, there's never been a more critical time for industry professionals to unite. This is a key opportunity to explore agile strategies, connect with like-minded peers, and learn from the sector's leading experts.

Featuring expert-led sessions, hands-on networking, and cutting-edge advancements

in hardware, software, and industrial solutions, this event stands as the UK's leading festival of advanced manufacturing and engineering. It tackles today's most urgent industry challenges while spotlighting the next-gen technologies defining the future. Stay ahead of the curve and navigate the complexity of this rapidly evolving landscape.

CARBON NEUTRAL EVENT!

In partnership with Forest Nation, we've once again measured the emissions generated by our live shows and have now planted a total to 40,634 trees!

Plus, for every visitor who attends on 4-5 June 2025 at the NEC Birmingham, we'll

plant one more tree. **Join us in making a difference - register now and be part of our sustainability journey!**

NETWORKING

Drawing an impressive audience of over 13,500 manufacturing and engineering professionals, this is the go-to event to connect with like-minded individuals from across the entire industry spectrum - from design and engineering to manufacturing and maintenance.

With dynamic networking opportunities, live music from The Shadow Monkeys during our drinks party, and prestigious events like The Manufacturer Top 100 Awards, the atmosphere is nothing short of a festival. Don't miss your chance to forge valuable connections, grow your network, and engage with peers over three action-packed days.

THOUGHT LEADERSHIP

Featuring some of the biggest names in manufacturing and engineering, the event delivers 170+ sessions of free, high-impact content across seven dedicated theatres - including solution-focused sessions, summits, and masterclasses.

With keynote presentations from industry thought leaders and expert-led discussions, every corner of the show floor is packed with valuable insights. Plus, the Technology Showcase Arena brings the latest exciting innovations to life, offering a hands-on look at the future of the industry.

New for 2025, Smart Tank offers start ups the change to pitch their innovations live to a panel of judges, all for an exclusive set of prizes.

WORLD-CLASS SOLUTIONS

Our 4 dedicated exhibitions cover smart manufacturing technology, AI & automation, design engineering, maintenance & reliability, robotics and more. With 500 exhibitors and over 1000 products and services on display, plus Innovation Alley - dedicated to helping young businesses break onto the scene.

CO-LOCATED EVENTS

1 PASS - ACCESS TO 4 EVENTS

For manufacturing professionals to keep up-to-date and discover the latest technologies, processes and thinking behind Industry 4.0. For manufacturers at all stages of their digital journey looking to optimise manufacturing processes and production for the future.

smartfactoryexpo.com

Maintec is the longest-standing exhibition dedicated to the maintenance, reliability and asset management industry. Covering industrial, buildings & supply chain maintenance engineering, it provides an opportunity to source the very latest technology available on the market. maintec.co.uk

Here, the UK's design engineering community can connect directly with leading suppliers from design services, electronics, and embedded design through to testing and measuring to drive efficiencies and propel the future of design engineering in the UK.

designengineeringexpo.co.uk

The UK's premier event for robotics, automation, power transmission & motion control. Covering areas such as energy efficiency, machine safety, drives, motion control, robotics and automation plus much much more, with specific focus on: supply chain, sustainability, skills gap, regulatory compliance, cybersecurity, and digital transformation.

ZONES:

This Zone offers a dedicated space within the event for businesses in the compressed air, generators, and vacuum sectors to engage with a highly targeted audience. This focused area attracts manufacturers, distributors, and end-users from around the world, creating opportunities for networking, knowledge-sharing, and discovering the latest industry trends and technologies. airtech-expo.com

This zone focuses on hydraulic and pneumatic technologies for both industrial and mobile markets. This dedicated area showcases components and solutions that enhance electro-mechanical system design and application, supporting improved process automation, control, monitoring, and data analytics. fluidpowersystems-expo.com

Your Life Is Manufactured, a new book by Tim Minshall, Head of the Institute for Manufacturing (IfM), is now available. In a fascinating exploration of the manufacturing world, Tim illuminates the complex and often unseen journeys of

the products that shape our daily lives. Described as 'Fascinating' by The Times and 'Well-observed and enjoyably written' by the Financial Times, this book provides an exploration of how manufacturing has shaped our world and can hold the key to a sustainable and equitable future.

Meet Tim onsite at Smart Manufacturing Week and get your signed copy! Come along to the IfM Theatre, Hall 5 - 14:00 Weds 4th June

Transform IOT Services

5/IA4

Clean air is a human right! Visit our stand to learn how Air-Alert monitors or polluting gases, particulates and VOC's found in workspaces.

Motion Control Products

5/G10

Visit Motion Control Products Ltd to explore the future of smart automation. We'll be unveiling our latest IoT-enabled motion solutions in partnership with Kinco, along with high-performance actuators, servo drives, and more. Experience it live: our interactive IoT enabled HMI demo station will allow visitors to remotely control and monitor a machine in real time.

Ready, RE-Action!

5/G52

We're debuting our brand-new stand at Smart Manufacturing Week 2025 – and it's not just a pretty face. Join us at Stand 5/ G52 to experience RE-Action, our fast-paced interactive game with a prize for the top scorer. While you're there, explore our trusted power supplies, rugged displays, and our industrial computing solutions. It's hands-on, high-impact, and hard to miss. Come for the challenge. Stay for the engineering expertise.

SMART TANK

4 June

AM – 11:00-12:00

PM – 14:00-15:00

Discover the future of manufacturing innovation – live on stage.

*NEW FOR 2025

Brand new for Smart Manufacturing Week 2025, Smart Tank is an unmissable pitch-style competition where the brightest start-ups from Innovation Alley showcase cutting-edge technologies and fresh thinking.

Across high-energy sessions you'll hear rapid-fire pitches, live Q&As, and expert feedback from a panel of industry leaders, investors and tech specialists.

Each session gives you front-row access to breakthrough ideas that could shape the future of smart manufacturing – all packed into an exciting, fast-paced format.

Whether you're scouting emerging tech, hunting for partnership opportunities, or just want a glimpse of what's next, Smart Tank is your chance to be part of the conversation.

SHOW FEATURES

Smart Manufacturing Week is where innovation meets impact. We've crafted this experience to deliver unbeatable value for every attendee. Whether you're on a mission to supercharge productivity, streamline operations, outpace the competition, or shape bold strategies for the future - this is the place to make it happen. Expect game-changing ideas, powerful connections, and real-world solutions that move your business forward.

Not just that, we've also got a healthy dose of fun! Check out some of our amazing features & activities below:

BEST OF BRITISH SHOWCASE

Be part of a high-energy celebration of the best in UK manufacturing! Discover groundbreaking designs, trailblazing production methods, category-defining products, and export triumphs that are putting British innovation on the global stage.

This vibrant showcase brings together standout talent from The Manufacturer MX Awards and Top 100 programmes, alongside hand-picked highlights from our editorial team - all shining a spotlight on the people and products driving the industry forward.

WELL BEING ZONE

Escape the buzz of the show floor and step into the Wellbeing Zone – your go-to space to unwind, reset, and recharge. Whether you need a quiet moment to yourself or want to explore mindfulness techniques that support a healthier work-life balance, this calm, welcoming space has you covered.

The Wellbeing Zone includes: • A dedicated quiet space • A soft seating area • A hydration station • Pay-what-you-like masseuse • Free wellbeing resources

TECHNOLOGY SHOWCASE ARENA

A dynamic presentation space serving as an interactive demo area for the latest in wearables, robotics, and beyond in front of a captive audience. The arena is an exciting feature & destination for cutting-edge advancements in smart manufacturing. Designed as an immersive, high-tech environment, the arena serves as a dynamic stage where leading companies unveil their latest innovations in manufacturing technology. Check out the full details on our [agenda page](#).

GUITAR LEGENDS COMPETITION

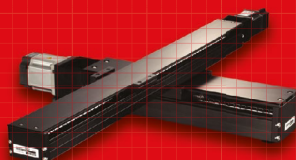

Ready to showcase your guitar talents to the world? Play a classic intro to a song in our recording booth and be in with a chance to win a bespoke 3D printed guitar! NETWORKING

NEW FOR 2025 - OFFICIAL EVENT APP

We're launching the brand-new Smart Manufacturing Week app - bringing all the event information straight to your pocket. Access an interactive schedule, exhibitor directory, venue maps, live updates, exclusive networking features, and on-demand content, all in one place.

Sponsored by:

HAPPY HOUR

On the afternoon of Day 2 we will be holding a 'Happy Hour'. Look out for the Happy Hour icon on the stands that are participating. Drop by for refreshments and snacks between 14:00 - 15:00 on 6 June.

DRINKS RECEPTION

Join us at the end of day one as we raise a glass to the resilience of the manufacturing & engineering industry. Reignite conversations, build your professional network and speak to experts who are experiencing similar challenges at the drinks reception open to all.

Join your colleagues and peers in the central networking area - the perfect place to unwind with live music from our headliners The Shadow Monkeys.

THE MANUFACTURER TOP 100

The Manufacturer Top 100 celebrates the heroes of UK manufacturing and recognises their contribution to Net Zero, Digital Transformation, Innovation and Leadership. We shine a spotlight on Unsung Heroes, Sector Activists and the Young Pioneers making an impact in the industry disproportionate to their years.

MANUFACTURERS & ENGINEERS OF THE FUTURE

Sponsored by:

FANUC

Taking place from 12-4pm on 5 June, The STEM Programme at Smart Manufacturing Week 2025 is designed to inspire young minds and position the manufacturing industry as an exciting, accessible, and essential part of the future economy.

MANUFACTURERS AND ENGINEERS OF THE FUTURE PANEL DISCUSSION

Hear from young professionals who have taken different routes into manufacturing and engineering, sharing their career journeys and advice for future talent.

THE WORLDSKILLS UK INDUSTRIAL ROBOTICS COMPETITION

Hosted by FANUC, the competition will challenge teams to collaborate and create a robot programme following industry best practices. A FANUC robot will also be on-site, with hands-on 'try it yourself' sessions available for visitors after the qualifiers.

APPRENTICESHIP & CAREERS OPPORTUNITIES

Exhibitors will bring apprentices to share first-hand experiences of their training and career progression. For graduate-level students, we will also highlight career opportunities, graduate schemes, and job vacancies with key exhibitors.

Are you an apprentice eager to apply digital skills in the workplace? Or an FE college looking to enhance curriculum delivery?

Join one of our three 45-minute sessions during this afternoon masterclass to discover how Digital Shoestring is helping integrate practical, low-cost digital solutions into work placements and training.
