THE UK'S PREMIER MAINTENANCE ENGINEERING EVENT

## About the show

Maintec is the longest standing exhibition dedicated to the maintenance, reliability and asset management industry.

Throughout its 40-year history, the event has continued to meet the needs of the maintenance engineer. Featuring a large expo floor, a keynote conference theatre, practical workshops and exclusive networking opportunities, it is the ideal platform for the community to meet, network and source the latest solutions from leading manufacturers and suppliers of maintenance technology.

### Who attends? Job Roles will include:

- Asset Managers
- Condition Monitoring Engineers
- Service Engineers
- Maintenance Managers
- Operations Managers
- Reliability Engineers
- Chief Engineers
- Quality Assurance Managers
- Facilities Managers
- GM - Property
- Process Engineers
- Building/Site Managers
- Continuous Improvement Managers
- Plant Managers
- H & S Officer
- Risk & Compliance Manager

Part of

**manufacturing  
+ engineering week**

Maintec is part of Manufacturing and Engineering Week, a new event series celebrating the best in UK manufacturing and engineering excellence and innovation and serving all stages of the product lifecycle.

Incorporating 4 Live Co-located Events

THE UK'S PREMIER MAINTENANCE ENGINEERING EVENT

## What makes Maintec Different?

Building face-face relationships is an important part of business, and exhibitions provide an excellent opportunity to do that. Despite advances in social technology, Engineers still like to meet the people they do business with as it helps build trust and develop relationships quicker."

Marketing Manager, Reliability  
Maintenance Solutions

- **Thousands of new products from hundreds of leading brands** will be showcased, see all the UK's leading maintenance engineering suppliers in one place.

- **Timing:** We are in a time of change and opportunity. In a post-pandemic, post-brexit world, engineering has never been more important to the UK economy. As the 9th largest manufacturer and employing over 19% of the workforce, that importance is only going to increase.

- **Location:** with easy access to the UK's motorway network, the NEC Birmingham is the recognised central location for a National show.

- **Industry advisory council:** to help steer our content programme and direction, making sure that the event benefits all participating companies equally.

- **Experienced team:** 100+ years of focused manufacturing industry knowledge means that the team behind Maintec understand what is important to the sector to help you achieve optimum results.

- **Scale:** Benefit from 4 co-located live events alongside other engineering and manufacturing shows at the same venue on the same days delivering the widest level of content, best practice and business engagement for the UK's industrial sector.

- **Unrivalled support:** we are working closely with key stake holders in government and industry and many other key association and media partners who bring a wealth of expertise to cover the complete manufacturing and engineering sector.

THE UK'S PREMIER MAINTENANCE ENGINEERING EVENT

## What's on

Network and build strategic relationships with leading suppliers, partners and clients old and new at the drinks reception open to all attendees at the end of day one.

### Exhibition

Thousands of new products from hundreds of leading brands allowing visitors to see the UK's leading maintenance engineering suppliers in one place. See who's exhibiting at

[www.maintec.co.uk/exhibitors](http://www.maintec.co.uk/exhibitors)

#### Types of products and services include:

- Asset Management
- Boilers, Burners & Combustion
- Buildings & Facilities maintenance
- Compressed Air Products
- Condition Monitoring
- Consultancy
- Drives & Controls
- Electrical Maintenance
- Energy & environmental technologies
- Health & Safety
- IT Software
- Lubrication equipment
- Maintenance Outsourcing
- Plant Equipment
- Predictive Maintenance
- Pumps & Valves
- Sensors & Systems
- Servicing
- Thermography
- Training

### Workshops

Supplier case study led presentations which will deliver practical solutions to immediate manufacturing problems such as how to avoid predictive maintenance project failure.

### CPD Accredited Conference

High-level keynote presentations, panel discussions and debates with a particular focus on SME's and OEM's strategy.

#### Topics include:

- digitalisation
- optimisation strategies
- regulation
- training
- predictive maintenance
- analytics and digital twins
- capital asset management
- IT and OT
- waste treatment and recovery
- and much more

### Innovation Zone

See live demonstrations and discover the latest cutting edge technologies that are shaping the future of the industry.

### The Great Egg Race

A live challenge where manufacturers and engineers will compete to build gadgets to carry eggs the furthest possible distance with leaderboard and winners announced onsite.

### Audit, Tax & Advisory Clinic

Run by MHA over both days. Drop in to speak to the experts and get advice on audit, tax & other business issues.

THE UK'S PREMIER MAINTENANCE ENGINEERING EVENT

**1 Free Visitor Pass  
gives access to  
all 6 Events**

## Co-located Events

Maintec is co-located alongside 3 other leading events.

### **manufacturing**expo

Manufacturing Expo is for manufacturing process and management professionals to keep up-to-date and discover the latest technologies to optimise manufacturing process and production for the future. From site management and legislation through to materials handling and factory operations, discover new products and services to improve productivity, cut costs, streamline and become more competitive. [www.manufacturingexpo.co.uk](http://www.manufacturingexpo.co.uk)

### **engineering**expo

Engineering Expo will provide the UK's engineering community with practical advice to reduce costs, streamline and optimise future engineering. From R&D, design, materials, testing and measurement, through to manufacturing and production, attendees will have the opportunity to hear inspiring keynotes packed with invaluable content and meet suppliers driving the industry forward. [www.engineeringexpo.com](http://www.engineeringexpo.com)

### **design engineering**expo

Design Engineering Expo is for future-thinking design engineers to meet, share ideas and speak directly with those who are breaking engineering boundaries. Here, the UK's design engineering community can connect directly with leading suppliers from design services, electronics, embedded design through to testing and measuring to drive efficiencies and propel the future of design engineering in the UK. [www.designengineeringexpo.com](http://www.designengineeringexpo.com)

**PLUS - two additional events  
taking place in adjacent halls -  
Run by Rapid News Group**

TCT 3Sixty is the UK's definitive and most influential 3D printing and additive manufacturing event. The event goes beyond simply raising awareness and adoption of these exciting technologies.

It is focused on developing a 360-degree understanding of the potential of additive manufacturing and 3D printing technology to increase utilisation at all stages of design, engineering and manufacturing. [www.tct3sixty.com](http://www.tct3sixty.com)

Med-Tech Innovation Expo is the UK and Ireland's leading event for medical device design and manufacturing technology. The event brings together designers, engineers, innovators and manufacturers from across the medical and healthcare

sectors to explore new ideas, understand emerging technologies, and source innovative products and services from over 200 companies representing the complete medical device and manufacturing supply chain. [www.med-techexpo.com](http://www.med-techexpo.com)
