Checkmate to Attend the Fire Safety Event, 2022  
Events and Exhibitions 2022

**Checkmate Fire Solutions** is delighted to announce that they will be exhibiting at The Fire Safety Event, 2022 at the Birmingham NEC.

*“Following our hugely successful exhibit at last years show, Checkmate did not hesitate to confirm our attendance at the 2022 event. We look forward to engaging with more customers, suppliers and event participants then ever before.”* Gavin Slattery, Chief Development Officer.

## About

Established in 1989, Checkmate Fire is the UK’s leading passive fire protection specialist, supplying a comprehensive range of third-party accredited survey, installation and compliance services to public and private sector organisations across the country.

With more than 300 specialist personnel, we maintain passive fire safety in around 1500 buildings, along with completing 30,000+ fire door remediations or replacements every year. Providing bespoke solutions for our clients, and developing the most comprehensive range of built-in passive fire protection services in the market, Checkmate makes your buildings compliant now, and maintains this for the future.

With branches strategically placed across the UK, we are well positioned to deliver high standards of service, both regionally and nationally.

From planning to post-installation and on-going maintenance and compliance, Checkmate provides a one-stop solution, encompassing a breadth of products, and tackling the majority of passive fire-related issues.
