Our divisions:

Our divisions:

Catering to contractors, installers, distributors, traders, EPCs, and fire protection companies, we are the Master Distributor and Channel Partner for industry-leading brands such as Spectrex. Our top-tier optical flame and gas detection solutions are designed for both hazardous environments and safe areas.

Learn more on our website

As the Master Distributor and channel partner for the Buckeye Kitchen Mister system across EMEA and India, we supply superior fire suppression solutions for commercial kitchens. In 2025, we introduce our proprietary K-Star Automatic Degreasing System, a revolutionary hygiene solution for the Hospitality and Food & Beverage industries.

Learn more on our website

This emerging division focuses on providing cutting-edge optical gas imaging and methane emission monitoring technology to end-users, primarily in the benelux region. As major players in the oil and gas industry prepare to meet new en legislation requiring methane emission monitoring by mid-2025, we offer both equipment sales and rental services.

Learn more on our website

Recent global challenges have driven us to expand into the armored vehicle fire detection and suppression market in Europe. As countries modernize their armored vehicle fleets, we strive to meet the increasing demand for critical safety solutions in the defense industries.
