Redvision X-Series PTZ Cameras and SilverNet Series 7 BT Managed Switches

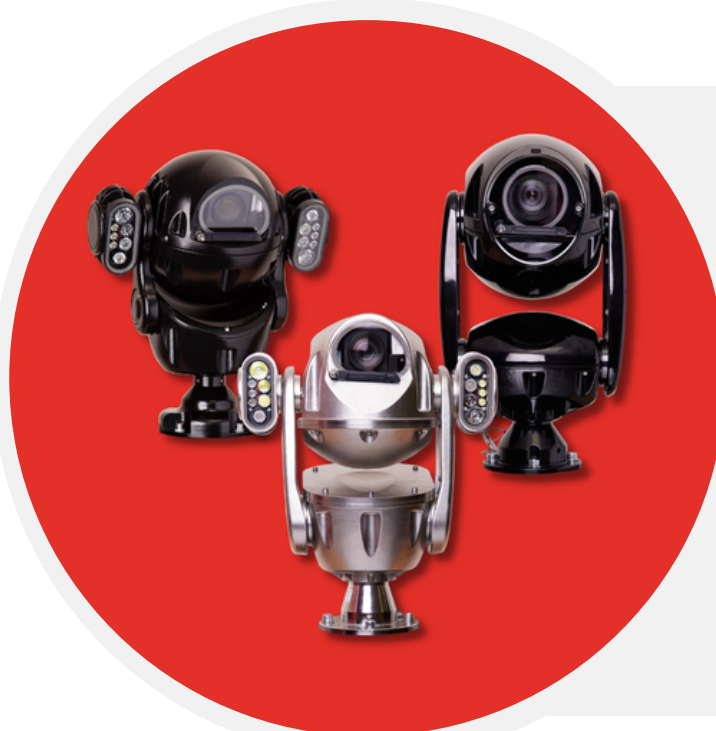

**Redvision CCTV**, a leading technology company based in Hampshire UK, and fellow established British wireless manufacturers, **SilverNet**, have partnered to bring their clients reliable, robust integrated technologies, designed to provide high-performance security solutions.

Continuing their philosophy of offering fully integrated, open platform solutions to fulfil the vast array of security and wireless requirements, this latest technology partnership between **Redvision CCTV** and **SilverNet** combines the reliable SilverNet Series 7 BT managed industrial Gigabit PoE++ switches with the rugged X-Series range of IP PTZ cameras from Redvision CCTV.

## Our Technologies

**SilverNet** has the equipment and expertise to provide you and your customers with tried, tested and trusted complete wireless solutions, including intelligent Wi-Fi, high performance CCTV networks and innovative Switch systems.

The **SilverNet Series 7 BT Managed Switches** offer up to 90W of power per port, and allows you to choose between 4 or 8 Auto Sensing PoE ports. Incredibly fast and easy to set up, you'll be ready to go in no time. Its extended temperature range is ideal for industrial environments, as well as harsh weather conditions.

Synonymous with rugged, high-quality CCTV solutions, **Redvision CCTV** design and manufacture the pioneering **X-Series** range of **PTZ cameras**, including the **X2 Combat**, **X4 Commander**, and ultra-rugged 316 stainless steel **X3 Storm**.

In addition to a rugged and resilient camera body, X-Series PTZ cameras provide stunning recorded images and extensive feature set to match. Moreover, its high-PoE option means simple plug and play utilising easy connectivity via the RJ45 socket in the base of the camera, operating over a full 100m Cat 5e span.

Redvision X-Series PTZ Cameras and SilverNet Series 7 BT Managed Switches

Stephen Lightfoot, **Redvision CCTV** Technical Director explains that,

"Redvision believes in technology integrations to provide a solution greater than the sum of its parts. Our industry leading X-Series rugged PTZ cameras have been designed to deliver phenomenal picture quality regardless of the environment they are installed, with PoE available to provide simple plug and play installation. Utilising the BT range of switches from SilverNet enables up to eight X-Series PTZ cameras to be powered simultaneously from one high specification and cost effective managed industrial Gigabit PoE++ switch."

Chris Ballard, Managing Director of **SilverNet** agrees, adding,

"I've been a fan of the Redvision systems for some time now and they are just getting better. It makes sense for us to be working together to ensure the end user has a reliable solution that lasts for many years. With UK support and design customers have a win/win situation"

## SILVERNET

SilverNet is a UK based company that has been designing and manufacturing high performance wireless networking equipment for over 18 years. SilverNet's easy to install, configure, and control indoor and outdoor wireless solutions are backed up with outstanding technical support. Path profiling, on site surveys, system design and a host of other free tools are also available to assist our customers.
