

# WEBINAR

The Benefits of utilising best of breed security & building technology in Healthcare

29<sup>th</sup> April 2021 at 1 pm BST

Join Advancis in a technology discussion on how best of breed technology can improve security and create operational efficiencies in Healthcare with a particular focus on building management in hospitals.

Making use of today's available technology and managing it in a smart way by taking advantage of central software intelligence, Advancis explains how to raise security and optimize workflows.

Meet your experts online:

**Patrick Geldmacher**  
International  
Sales Manager

**Allan Dickinson**  
Technical Manager  
UK & Ireland

**Richard McClellan**  
Sales Director  
UK & Ireland

Advancis are a global leader in the PSIM industry with offices and integration partners around the world. For more than 25 years we have developed a truly open software platform with over 450 supported system integrations. WinGuard from Advancis unifies control of security, building automation, IT and communication systems.
