

MOBILE APP

Information Sheet

CDVI offers a variety of free, easy-to-use smartphone apps that are specially designed to make installations easier and enhance the end user experience.

Available to download free from the App Store or Google Play.

GALEO 4.0

Manager App: Designed for system owners or installers to remotely configure parameters.

My Digicode: For end users, allowing tenants to create and share access codes with visitors/guests.

DIGIWAY BLE

Designed for installer remote programming, Bluetooth connection and easy access to advanced features. Additionally, it mirrors the screen readout for easier fault finding.

ATRIUM Finder

Designed for installers, allows you to easily find ATRIUM controllers on the LAN. Once located, click to log into the integrated web server and configure.

VDP Connect

Designed for end users of 2EASY, supporting various functions such as diverting calls to mobile, remote monitoring, and remote unlocking.
