

Door automation made simple

- ➔ A reliable, durable, and aesthetic solution for improved mobility
- ➔ Fully customisable parameters to suit the needs of the environment
- ➔ DIGIWAY is now Bluetooth enabled and can be operated via your smartphone

DIGIWAY, a CDVI Group brand, offers automatic door systems for swing doors for any installation or environment. The DIGIWAY PLUS for residential usage and the DIGIWAY SR (Spring Return) for higher traffic usage and heavier & wider doors. Both are designed to combine ease of installation with reliable, discreet yet efficient operation thanks to their flexible arm type. With no loose cables on either side, DIGIWAY offers an aesthetic finish suitable for any interior.

As the only means of providing a truly touchless entry system, door automation improves interior flows of traffic while prioritising hygiene and safety.

Suitable for people with reduced mobility under the Equality Act 2010 and SENDA

COVID-19 secure solution: reducing physical contact and shared surfaces

DIGIWAY SR is **fire-tested** to 60 minutes under EN1634-1

DIGIWAY products are backed by a 2-year warranty
