### Gallagher to showcase latest solution developments at The Security Event

Award-winning security manufacturer, Gallagher, is excited to be exhibiting at The Security Event in Birmingham from 5-7 April. Gallagher will be showcasing their innovative, award-winning access control, perimeter, and intrusion detection solutions.

The Security Event is regarded as the United Kingdom's number one commercial, enterprise, and residential security event. It is the go-to destination for installers, integrators, consultants, and end-users to source the latest security products and solutions.

"We're looking forward to reconnecting in person with our Channel Partners and end-users at our first major UK trade show in two years," says Richard Huison, Gallagher's Regional General Manager for the UK and Europe. "We'll be demonstrating our latest solution developments, and with the recent announcement that we are the first manufacturer to achieve the latest CAPSS 21 standard, there are lots of great conversations to be had."

The Gallagher team will be on hand to demonstrate the latest version of their award-winning site management software, Command Centre v8.60, which enables organisations to future-proof their security with ease.

Visit Gallagher at stand E50 in Hall 3 at the National Exhibition Centre in Birmingham. Visitors can register for their free ticket at [www.thesecurityevent.co.uk](http://www.thesecurityevent.co.uk)
