

New Release LINKVIL W710P DECT Phone System

Shenzhen, China - Oct 1st, 2024 - Fanvil, a leading global provider of A&V-IoT devices, proudly announces the launch of the W710P DECT Phone System, a new addition to its sub-brand LINKVIL. Designed for modern workplaces, the W710P delivers crystal-clear calls, extended range, and user-friendly functionalities.

As Fanvil's first DECT product, the W710P has garnered significant attention. Powered by advanced DECT technology, it ensures premium, stable HD audio quality for customers seeking reliable DECT IP phones.

What is DECT?

An IP DECT system includes two parts: a fixed base and a mobile handset. Fanvil W710P consists of the W710D base and the W610D handset, supporting registration with up to 10 W610D handsets and can handle up to 20 SIP accounts and 10 simultaneous calls.

Key Features

1. Smooth UI Interaction

The W610D boasts a 2-inch (240 x 320) color LCD screen with an intuitive interface, featuring three softkey buttons for seamless navigation without the need for repetitive switching.

2. One-click Speed Dial

The W610D processes 16 programmable DSS keys, which can be configured as speed dial, voice mail, DND, BLF, etc. It also has a red side key enables one-click speed dial for frequently contacted numbers.

What' s more, the W710D can automatically assign the extensions to the handsets and binds them to DSS keys after configuration, enabling direct dialing and simplifying configuration process.

3. Background Noise Reduction

Using intelligent noise reduction algorithms and an acoustic shield, the W610D minimizes ambient noise, delivering high-quality calls even in noisy environments like factories or parking lots.

4. Convenient Communication

The W610D supports 1000 local contacts, with Blocked and Allowed Incoming List to protect user privacy and prevent interference. Users only need to import contacts once during initial setup, with no need to reload or wait on subsequent uses, improving work efficiency. In addition, it also supports SMS and 6-party audio conferencing, greatly improving the efficiency of internal communication and collaboration.

The image consists of three panels on a dark blue background. The first panel shows a close-up of the phone's screen displaying a contact list with options like '1. Local Contacts', '2. Blocked List (3)', '3. Allowed List (3)', and '4. Cloud Contacts'. The second panel shows a person's hands holding the phone with several floating text bubbles representing messages. The third panel shows the phone on a stand with three circular icons above it labeled '2-Way', '3-Way', and '6-Way', connected by dashed lines to the phone, representing conference calling capabilities.

1000 Local Contacts
Support Blocked Incoming List and Allowed Incoming List to protect user privacy and prevent interference.

SMS
Send and receive messages for task reminders or convenient communication.

6-Way Conference
Improve the communication efficiency of multi-party collaboration.

5. Drop-safe from 1.8-meter Height

The W610D withstands drops from up to 1.8 meters, providing outstanding resistance to drops and durability against wear and tear.

Ideal Scenarios

Beyond the highlighted features, the W610D comes equipped with a belt clip, allowing users to attach the phone to their waist while using a Bluetooth headset for hands-free operation. With a 50-meter indoor and 300-meter outdoor coverage, the W710P is widely applicable to small and medium-sized enterprises, shopping malls, neighborhoods, hotels, warehouses, and other mobility office application scenarios.

About Fanvil

Fanvil Technology Co., Ltd. (Fanvil) is a leading global provider of A&V-IoT (Audio&Video-IoT) devices with three R&D centers in Beijing, Shenzhen and Suzhou, China, and three manufacturing bases in Huizhou and Shangrao, China, and Vietnam. Fanvil has focused on SIP unified communication technology innovation for more than 20 years and provides SIP phones and SIP security industrial products in the global market. As the pioneer in applying standardized network communication technology and Audio & Video technologies to build A&V-IoT, we are boosting the digital transformation for multiple industries.

Fanvil SIP products and communication solutions provide the bridge between people and our global network. With its advanced technology and design, Fanvil has powered different businesses in our community, transportation, education, healthcare, enterprises, etc.

Adhering to the core values of Efficient, Team Work, Integrity, Positive and Enterprising, Fanvil is committed to providing high-quality A&V-IoT devices, and building an intelligent world of infinite communication.
