

## Get a Sneak Peek Fanvil's Cloud Management System V1.0 Beta is Here

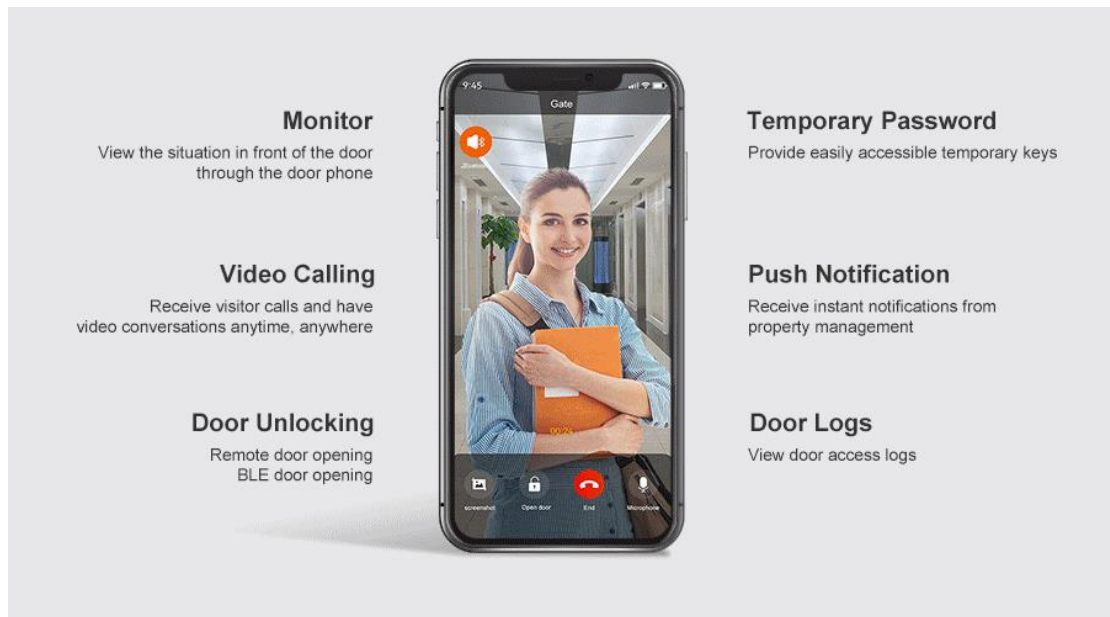

**Shenzhen, China, August 21th, 2024** — FCMS(Fanvil Cloud Management System, including SaaS Platform and mobile phone APP) is a cloud-based smart management system that offers versatile access control solutions for residents and visitors. Residents can use their smartphones to make video calls with visitors, remotely open doors, and monitor building entrances in real time. The system supports virtual keys, further enhancing access convenience. Integrated management functions streamline processes for property managers and owners, contributing to efficient and intelligent property management.

### What is in the beta:

- Cloud-Based Accessibility: Access and manage operations from anywhere via the cloud.
- Role-Specific Permissions: Tailored management roles for diverse operational needs.
- Unified Management: Streamline operations efficiently with a SaaS platform for seamless task execution.
- Intuitive Mobile App: User-friendly interface designed for an enhanced user experience.
- Virtual Keys: Provision of temporary access with virtual keys for added convenience.
- Device Notifications: Real-time push notifications to keep users informed.
- Remote Diagnostics: Efficient troubleshooting with remote device diagnostics.
- Data Protection: Robust measures ensuring comprehensive data security.
