

## Carbery Blue Points

Carbery AdBlue Bunded tanks are designed for the safe, secure and responsible storage of AdBlue at agricultural, commercial, industrial and institutional premises. Every Carbery Blue Point uniquely combines the convenience of forecourt style AdBlue dispensing, with the assurance of supply, only on-site storage provides.

For complete peace of mind and reassurance, every Carbery Blue Point benefits from bunded (i.e. tank within a tank) construction, thereby ensuring compliance with even the most demanding Irish, UK and EU environmental requirements. Also for ease of use, every Carbery Blue Point benefits too from a factory fitted AdBlue pump, delivery hose and automatic dispensing nozzle to ensure cleaner, safer fluid dispensing.

**1350 Blue Point**

**Diameter:** 1,372mm  
**Height:** 1,570mm  
**Capacity:** 1,309 litres

**2500 Blue Point**

**Diameter:** 1,870mm  
**Height:** 1,900mm  
**Capacity:** 2,554 litres

**6000 Blue Point**

**Length:** 2,704mm  
**Width:** 2,400mm  
**Height:** 2,400mm  
**Capacity:** 6,025 litres
