## What is Twisticator?

KS Products Solutions Ltd.

### Why Made?

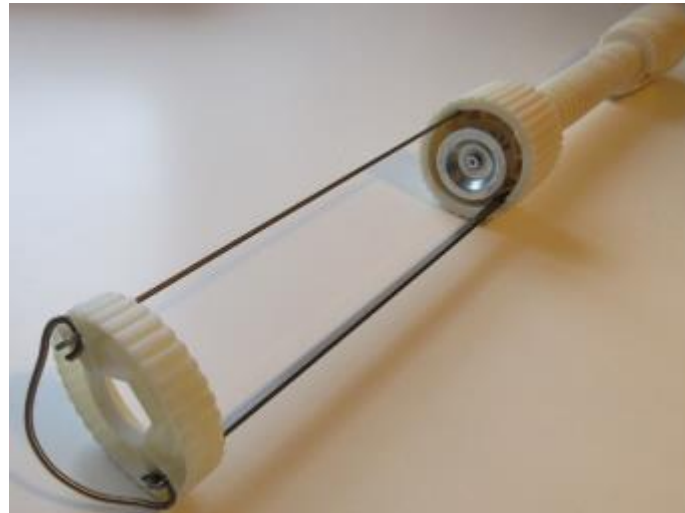

One day I was talking to mother-in-law who couldn't use a normal conventional skeleton sealant gun. So I made a prototype turning handle type gun, which worked very well and she could use it. After this I was ambitious if the product is introduced into the market whether is accepted by a market.

## Why Needs Turning Handle Type Sealant Gun, Twisticator?

### Pros:

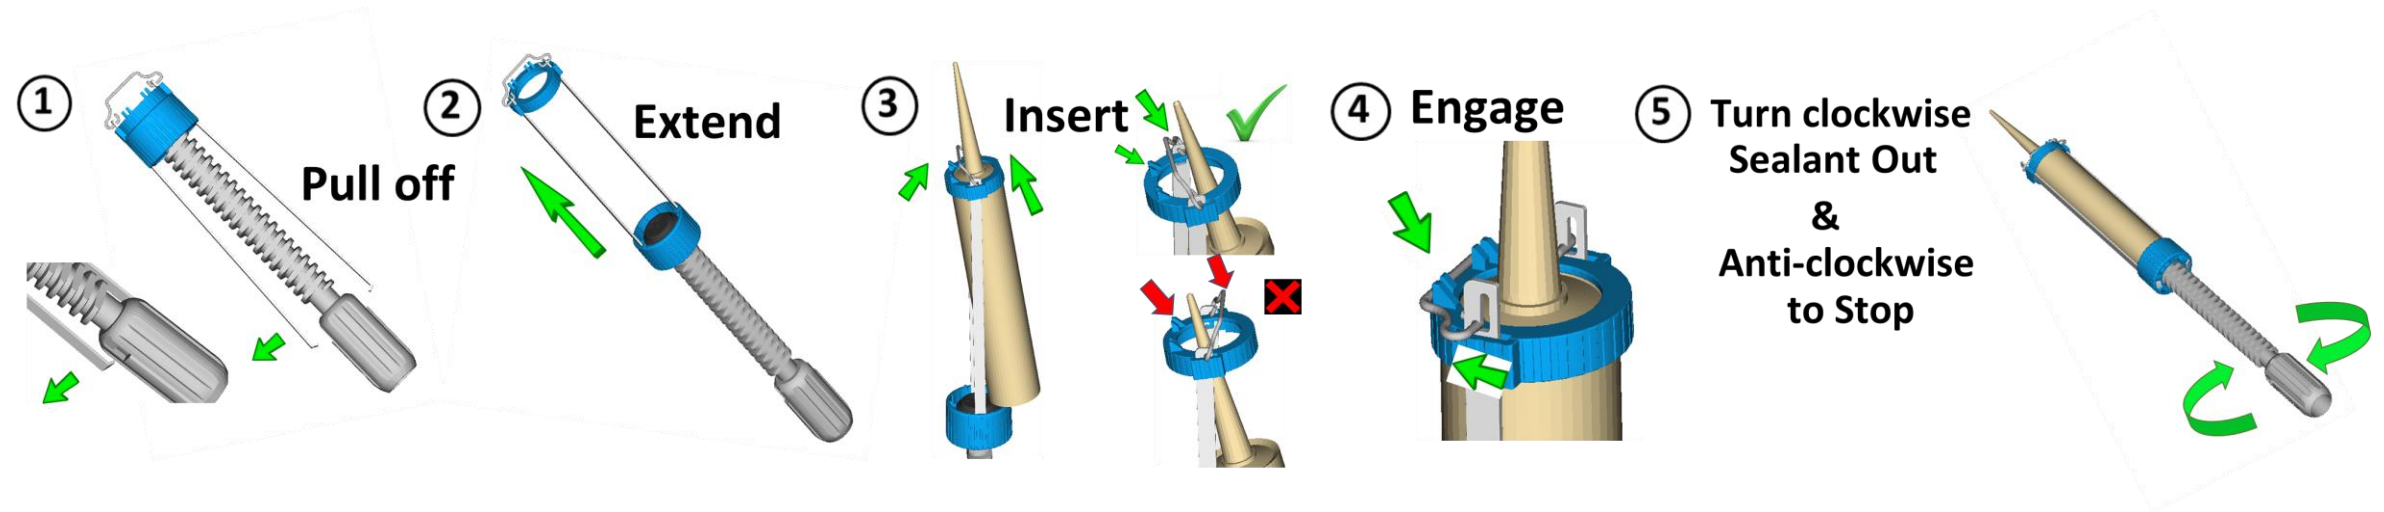

- Mastic application can stop instantly, good for the application where precise control of mastic is required, e.g. around tap, or any DIY beginners.
- Mastic application is easier as 2 hands strength is used.
- Easy to dismantle and assemble – spare parts available.

### Cons:

- As compared to some professional use skeleton gun, the mastic application speed is slower.
- Requires 2 hands to do the mastic application.
- Risk of leak by misuse of the product. ('Key Engage' set up is required when using.)
- For the initial user, setting up a mastic tube maybe awkward.
- No quick release like a conventional guns when setting up a mastic tube.
- Only one size of (the most common) mastic tube is capable to fit. (upto 310ml, 219mm length tube.)
- No hang feature on a belt.

### DIY user general feedback

I bought ur product and its so much better then the normal gun

Hi! I received my twisticator today and i'm using it right now, it's brilliant!! So far no leaks from the bottom and much better control so your advertising is very true! 😊

Ken, the twisticator is the best DIY tool I've bought in years. You should be selling thousands of these. 🔥

I enjoy using your twisticator 🔥

I hope you're having a good day. I love your product, I built and own and run a cafe in Oxford called TCG, I wish I'd know about Twisticator when building it because it would have made it so much easier! If you're ever in Oxford come and see us and we will look after you. Love the product and the videos keep up the great work!!

Hi! You sent me a twisticator a while ago and I never got round to using it till today! I just want to say I absolutely love it! Its a game changer! Im not a pro at diy and always hated the standard guns. Ive got some videos but dont know how to send them on here. Just wanted to say thank you anyway. Keep doing what your doing!

genuinely a decent product. got one a while ago, easy to use and smaller than a normal gun for storing away.

I bought ur product  
It's honestly just amazing

yea its an amazing product and i i highly recommend it!

Ken, my wife bought 2 Twisticators and they've arrived today and I've spent the evening caulking my hallway skirting, it's a wonderful product! You have a real winner here and your passion for it is infectious

I cannot find fault at all with this equipment, I'm going to be using it again very soon it's giving me so much confidence to do more jobs around the flat.

Very happy to see your popularity is growing Ken and with lots of positive comments. I still love my Twisticator, especially for smaller areas that need more precision, or where you don't want to risk making a mess that sometimes happens with conventional mastic gun.

Twisticator - Creator  
Thank you Tam, my first customer, it's been nearly 2 years since. Thank you for the

I'm never going back to a normal skeleton gun . Your equipment is better for me 😊👍

I'll start with the negatives because there honestly isn't many and they're not that serious:

1. It can be a little fiddly to set up. I found the locking bar at the top kept nudging itself into place when not in use.
2. There's no quick release so changing tubes can be a little bit of a pain, having to unscrew it everytime. Where skeleton guns can just press the lever and pull the plunger out.
3. Some tubes don't fit inside the gun so I have to cut them down a bit.

That's it for negatives really, now for the positives:

1. The ease of control is amazing. Being able to start/stop and control bead size with very little effort is top notch!
2. Its an amazing accessibility tool. I broke my hand a few years ago and it's all healed now but I find the pressure I have to press on the trigger of skeleton guns really hurts my hand after a while. With the twisticator all that pressure is gone!

### Professionals used feedback

I've used many sealants / adhesives now with twisticator, no more nails / sticks like, not had any problems, applies amazingly thank you for twisticator!, my hand no longer need to suffer a skeleton gun

Great product! My boyfriend ordered one and uses it for work, he said it's a great tool! Thank you 💖

My favourite tool is my twisticator! I use mine every day at work to fit bonded car windscreens, side windows and sun roofs

Just amazing product highly recommend.

I have shown the twisticator to all of my buddies at work, it's an excellent product

Ordered mine a few weeks ago and only just got around to using it. Very easy to use and I'm recommending it to my colleagues at work!

best gun I've ever used i use it daily

I got mine when you had 30 followers it's still going strong I use it for work most days

Love your product man

Been using mine for a while, it's brilliant, the instant stop when you back off is 🔥

i just wanna say i actually love your product i've had a couple construction jobs in the past couple years and ive shown your product to them everytime and they always seem surprised that your model isn't the base standard for caulking. i love your page too i hope you find great success 💜

My name is Marco, I have purchased Twisticator last month, use it regularly and follow you on TikTok, I believe your product is sound and I love your attitude and your videos.

Keep going! I believe Twisticator deserves to be sold in DIY stores and would help lots of people who struggle with sealant guns (like me) or even people with arthritis for whom squeezing a sealant gun might be painful and tricky.

### Bought for Someone else

I brought this for my dad and he said its the best caulk gun he has ever used

My dad loves the twisticator btw! He's recommended it to his corporate officials bc of how good it is!

i bought two of these for my dad a while ago, he's always using it!!! thank you Ken

Talksey2 ▶ Twisticator  
Oh, and it's perfect for my nan to use! 77years old and the skeleton guns we're too difficult for her to use, twisticator is a much more accessible devise

I recently purchased one for my mother who's almost 70 she able to use it to keep decorating. She couldn't any longer squeeze the traditional.  
👍

Brought one for my grandad a while back he's 69 used normal ones for ages he says this one is better than any other one he loves it

OWCJ · Friends  
I got my mate to use it who's 50 with arthritis, said it was one of the best tools he's ever used and said it was great on his hands and the control was brilliant. Thank you for doing this, genuinely the best purchase I've ever made from TikTok

My grandad purchased one a few months back it's made his life allot easier

### Fan support

don't have much use for this but might buy one just to support this kind man

Even though I have no reason to get one watching your videos make me want to own one just to have it. Very convincing. Keep up the effort 🙏

ur content is better than half of the tiktok community i really enjoy watching ur videos as i am getting ur videos on my for you page which is great bc this is what i want to see 🔥 this is great twisticator!

I love twisticator, I don't own one because I don't do these Jobs but I love your energy as a person so I watch your videos all the way through every time. you're growing a great community, you're a king bro

honestly, in a world full of people that just wanna make money as fast as possible, even if it means a drop in quality to cut corners, this video really made me appreciate those who genuinely care about the experience that customers get from their products, i wish i could do more but honestly thank you very much

Im gonna buy twistacator just for you twistacator man
