About Us

For over 40 years, Talon has been setting the standard with its extensive range of pipe clips, collars and plumbing accessories. Since moulding its very first clip in May 1986, the company has continued to innovate and is now the UK's market leader in high-quality pipe fixings and accessories. If you're carrying out any pipe work with clips, seals and collars in the UK, the chances are you have used a product made by Talon!

Product Range

Talon has the broadest range of pipe clips and accessories in the UK, catering for pipes sizes from 8mm to 35mm. From the Flexi Hinged Clip range for multilayer pipes and colour coded Identification Range, to the versatile Snappit pipe covers and boiler box covers, Talon has a solution for every installation.

PipeSnug & FlueSnug (Pages 17-20)

Talon's partnership with PipeSnug has led to an expanded product range, making life easier for tradespeople and helping homes to stay warmer.

With the update to Part L of the Building Regulations, all new builds are now required to use pipe seals and grommets around pipework to prevent heat loss and improve energy efficiency, helping the UK meet its Net Zero targets. PipeSnug and FlueSnug are the only all-in-one solutions that fully comply with Part L's sealing requirements, eliminating the need for sealant, mortar or expensive air sealing tape. By forming an airtight seal around pipework inside and out, they not only ensure compliance but keep pests, damp and drafts out – and warm air in.

Talon is also pleased to introduce the FS5, a new variation of FlueSnug that offers the same reliable sealing performance but without the need to re-core – staying compliant and making installation even easier.

EZ Joist Clip (Pages 5-6)

Talon's EZ Joist Clip is a clip like no other! Unlike traditional nail-in clips which require access to the top of joists, these clips can be installed side-on, making them much safer to fix above head level. Safe, quick and secure, the EZ Joist Clip is ideal for mounting pipework at difficult angles and in awkward spaces.

The Genuit Group

Proud to be part of the Genuit Group, Talon supports a better, more sustainable built environment by helping tackle key challenges in water, climate and ventilation management within the construction industry. Talon also knows that greener choices are paramount to positive growth, which is why this brochure has been printed on FSC Certified paper.

Talon Clips

Our extensive selection of pipe clips reflects the diverse nature of projects that our customers are faced with.

We offer a varied range of clips suitable for all pipes including PEX, Copper, MDPE and PVC pipework to suit all plumbing needs.

Hinged Clips

The Talon Hinged Clip offers a 360° fixing for pipework. Manufactured in the UK this high quality polypropylene clip offers the user a secure fixing. All sizes of the Hinged Clip can be connected together via the dovetail to allow for equal pipe spacing.

SINGLE HINGED PIPE CLIP

The Single Hinged Clip is available in a range of sizes both 'standard' format and 'Flexi-Clip' style.

Code	Size	Bag Qty	Box Qty
TS10	10mm	100 per bag	Box of 1000
TS12	12mm	100 per bag	Box of 1000
TS15	15mm	100 per bag	Box of 1000
TS18	18mm	100 per bag	Box of 1000
TS22	22mm	100 per bag	Box of 1000
TS28	28mm	50 per bag	Box of 500

FLEXI HINGED PIPE CLIP

The Flexi Clip range offers the user a clip capable of holding pipe of varying diameters between an upper and lower limit.

Code	Size Range	Bag Qty	Box Qty
TS14	12.7 - 14mm	100 per bag	Box of 1000
TS16	15 - 16mm	100 per bag	Box of 1000
TS20	19 - 21mm	100 per bag	Box of 1000
TS25	25 - 27.4mm	50 per bag	Box of 500
TS35	31.8 - 35mm	50 per bag	Box of 500

DOUBLE HINGED PIPE CLIP

To compliment the Single Clip, Talon also offers a range of Double Hinged Clips. Double Clips are easy to fit requiring only a single central screw fixing. The Double Clip is designed for use in conjunction with [Talon Pipe Cover](#) see pages 39-43.

Code	Size	Bag Qty	Box Qty
TD10	10mm	50 per bag	Box of 500
TD15	15mm	50 per bag	Box of 500
TD22	22mm	50 per bag	Box of 500

Quick-locking Clips

A range of robust clips designed to withstand repeated opening and closing offering secure 360 degree pipe retention. This range of hinged clips provides a very secure grip when the pipe is in place and the snap tight locking top offers complete security of the pipe. The high stand-off allows for lagging and heat circulation.

Pipe Collars

A range of pipe collars that conceal unsightly incisions through floors and walls.

As the market leader in the supply of pipe collars, we offer a range of styles to ensure that customers are able to choose the most suitable option for the environment in which the pipe sits to conceal pipework in a way that remains aesthetically suitable.

Ideal for new or retro fit application, these collars are available in a wide range of sizes to fit pipe from 8mm to 110mm.

Manufactured from high grade polypropylene this single piece collar is available in white, chrome effect, gold effect and a range of colours.

Rubber Lined Clips

Our Rubber Lined Clips are an essential part of any professional pipe installation. They are the ideal product for the suspension of both rigid and copper tubing using threaded rods and studs. Our clips are expertly designed to fit two sizes of suspension rods.

The rubber lining 'hugs' the pipe as well as acting like a noise restraint, minimising the risk of any rattling or movement in the pipework.

Fixing Plugs

Designed and manufactured in the UK by Talon, our Fixing Plugs are made from premium grade polymer. Fixing Plugs are designed to expand in two directions. This movement provides rapid fixing and high pull-out values.

Plugs are also moulded with protruding side fins which restrict rotation and prevent fallout when fixing overhead.

Pipe Cover

Talon Pipe Cover has been designed to offer a compact, neat and easy solution where unsightly pipework needs to be covered.

Available in 15, 22 & 28mm single and 10, 15 & 22mm double styles, it can be fitted directly onto the Talon Hinged Pipe Clip - an integral part of the Talon Hinged Pipe Clip range.

Our uPVC pipe cover also has excellent weather resistance, making them suitable for outdoor use. But it's not just about the practicality - our cover is also aesthetically pleasing and does not protrude too far from a wall.

Pipe Cover

Manufactured in extruded white uPVC, this quality grade material is rated to a UL94 V-0 flame spread rating. It is also resistant to both mild acids and alkalis.

Our Pipe Cover has excellent resistance to weathering making it suitable for exterior use. Correctly supported, Pipe Cover can be used at temperatures ranging from -10°C to +60°C if in direct contact with pipe. Cover can be used with pipe heated to +80°C if not in direct contact. A wide range of accessories is available (see page 42) Backplates are also available to offer additional support or when fixing over existing pipework.

SINGLE PIPE COVER

Code	Size	Length	Pack Qty
CVS15/3	15mm	3m	12 lengths per pack
CVS22/3	22mm	3m	12 lengths per pack

CVD15/3M	15mm	3m	12 lengths per pack
CVD22/3M	22mm	3m	12 lengths per pack

- Cover snaps directly onto Hinged Clip

Suggested Specification

All 10mm, 15mm, 22mm & 28mm pipework should be fitted with Hinged Pipe Clips (pages 3 & 4) from the Single Hinged Pipe Clip or Double Hinged Pipe Clip range. Where exposed pipework needs to be covered Talon uPVC Pipe Cover should be used fitting directly onto the Hinged clips. A series of Clips spaced at 500mm intervals along a pipe installation will easily hold the natural weight of copper or plastic pipework.

Pipe Cover

Our full range of accessories are available to suit our Double Cover making it perfect for most applications. The accessories should be attached to the cover using uPVC Solvent Weld Glue.

Backplate For Set Fitting

Backplates are useful when retro fitting double covers over existing pipework where a different style of pipe clip has been used. Backplates can also be used to give extra support to the cover in difficult situations. Backplates are available for both single and double cover.

Skirting Cover Range

Talon Skirting Covers provide a strong and reliable snap-fit pipe fixing, installed using either a No.8 or No.10 woodscrew.

Talon Skirting Cover Range is a durable and attractive profile that enables pipework to be neatly covered.

Available with a custom designed pipe clip bracket arrangement, this easy to fit product also comes with a wide range of accessories.

Over Skirting Covers

Talon Over Skirting Cover is supplied in 2.5 or 3 metre lengths and is manufactured in extruded white uPVC. The quality grade material is rated to a UL94 V-0 Flame spread rating making it suitable in almost any application. The finish is resistant to both mild acids and alkalis and is easy to keep clean.

Where 15mm vertical pipe drops need to be covered. Talon also offer a matching Pipe Cover (see [Talon 15mm Double Cover on Page 41](#)) that integrates with Skirting Cover using a Cross Over T see [Page 42](#).

SKIRTING COVER - OVER

Please note 4 brackets are required per length of Skirting Cover.

Boiler Box Cover

We have been manufacturing Boiler Pipe Cover for over 15 years and, during that time, has become the UK's market leader in a range of products including Skirting Cover and Pipe Cover.

Manufactured from the same quality uPVC as all other Talon profiles, Talon Boiler Box offers a neat solution where unsightly boiler pipework (or flues) need to be covered.

Boiler Box Cover

Talon Boiler Box Cover range is the ideal solution for concealing your boiler pipework and flues. Talon Boiler Box Cover is made from the highest quality uPVC and is resistant to both acid and alkali substances.

It is supplied in a kit form and is easy to fit, trim and remove - making it suitable for any boiler replacement.

Not only is our Boiler Box Cover durable, it is also finished in a white gloss making it easy to clean and maintain, all of which saves you time and money.

- ✓ Easy to install
- ✓ Saves time and overall cost
- ✓ Deep gloss finish, easy to maintain
- ✓ Consistently smart uniform finish
- ✓ Removable for future maintenance to boiler
- ✓ Doesn't require multiple trades or on-site decoration
- ✓ Fits standard boiler sizes
- ✓ Resistant to both acids and alkalis

Our Boiler Box cover is available in a range of sizes.

BOILER BOX COVER KITS

Each Kit contains:

- 2 x right angle sections (cover sections)
- 2 x Fixing Strips
- 1 x Centre Joining Strip

Flue Box Cover

Talon Boiler Flue Box Cover is ideal for covering exposed Boiler Flue Pipe.

Made from the highest quality uPVC the Flue Box Cover is a simple, weather resistant solution. Our cover is easy to fit and simple removal allowing quick access for a Gas Safe engineer. Helping you to professionally complete jobs – faster.

Boiler Flue Box Cover consists of two corner profiles, two fixing brackets, one joining strip and a stop end accessory.

FLUE BOX COVER

Boiler Flue Box Cover measures 150mm wide x 200mm deep and is available in 2 metre lengths.

Export

Not based in the UK? We'll export our Pipe Clips to you!

Talon has been supplying to the worldwide market for the last 12 years and our products can be found in over 21 countries. We are always looking for new partner distributors and markets, so please contact our export department (details below) with your enquiry.

For over 30 years Talon has built a strong reputation as a manufacturer of the highest quality products. It has always been our aim at Talon to manufacture, source and distribute products of the very best standard.

Talon is proud to be certificated with three international standards ISO9001:2018, ISO45001:2018 & ISO14001:2015. Satisfying the requirements of the ISO9001 standard ensures that through the use of properly followed processes and procedures we can effectively measure the quality of our products, services and operations. ISO9001 helps us to effectively identify and rectify any process failing that may arise and affect continuous improvements in both processes and services.

Certification demonstrates that Talon is committed to improving quality in all areas of our business and enhances our reputation as a reliable and trustworthy brand.
