

in collaboration with

have developed an F-Gas Tracking & Reporting module

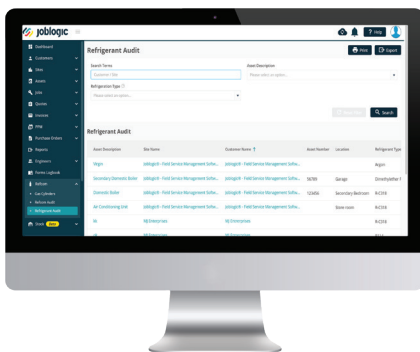

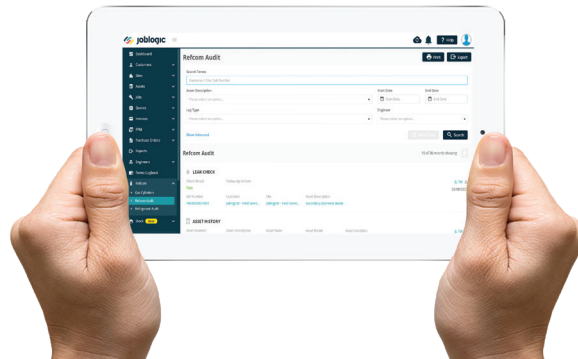

Gas Cylinder Management

- » Stock control of all gas bottles
- » Digital management of cylinder locations
- » Helping to minimise rental charges on bottles

Logbook

- » Automatically updated F-Gas logbook
- » Inspect and monitor every asset
- » Data synchronisation of every service visit, F-Gas transaction & leak check

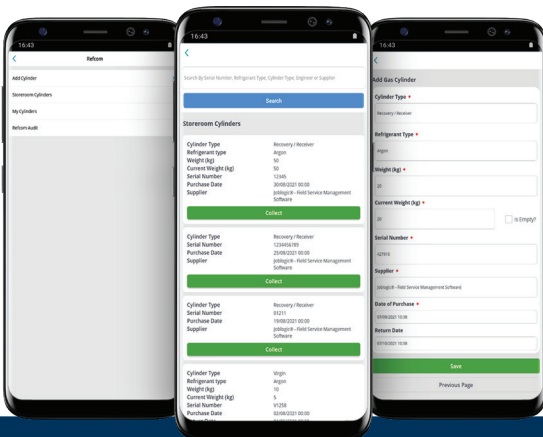

F-Gas Tracking

- » Asset tracking - identify recurring problems
- » Generate compliance certificates and data for client
- » Create waste transfer notes where applicable

Customer Portal

- » Make audit information readily available for clients to view
- » Give customers real-time access to job status updates
- » Minimise the administrative burden

REFCOM on Joblogic Mobile

- » Fully accessible in real-time for engineers and back office staff
- » Ensure compliance in the field
- » Constant access to the REFCOM logbook

All BESA and REFCOM members are exclusively offered 1 free user licence for life, worth £360, to use Joblogic's service management software.

Visit our website for more information: www.joblogic.com/refcom/

Our happy customers

Ambient Engineering

“ We have worked with Joblogic for a number of years now, we have seen the system grow into one of the best and most innovative platforms in the industry. Through the use of Joblogic, we can provide our customers with the best asset management, F-gas compliance and general reactive, planned and installation services. ”

Thomas Preston,
Operations Manager

Target Refrigeration Ltd.

“ Joblogic has freed up so much time that was previously spent on admin. F gas tracking has been an absolute godsend and will make it so easy when it comes to our Refcom audit. We're also able to see where engineers are on the live tracking function, and since most of our work is reactive it's so helpful to have this feature. ”

Shane Sangster,
Managing Director

TRS Cooling Limited

“ The Refcom module was a major deciding factor in our move to Joblogic. We are now far more organised and proactive with our PPMs, have confidence in our asset tracking and F-Gas compliance and tracking.confidence in our asset tracking and F-Gas compliance and tracking. ”

Tristan Spence,
Director
