

Planning That Pays Off

Prosaw Sees Major Productivity Gains With T Cards Online

Manual T Card systems are a tried and tested management tool that many people are already familiar with. For decades, the low-cost solution of having a "Go to Board" has proved to be a valuable asset to businesses across all sectors. Simple to customise to your requirements and easy to use, manual T Cards can actively help improve the efficiency of your operation. Now there is a clear, precise software solution that has all those advantages, but on a digital platform.

An example of a successful business in a competitive market, Prosaw has shown how important it is to give the right tools to help staff with their daily tasks. T Cards Online makes a big impact in making efficiency and productivity savings by coordinating tasks and communicating updates in a clear and simple way.

PROSAW
THE PEOPLE TO SEE FOR SAWS

Prosaw Workshop using T Cards Online

"I have used the system for nearly 10 years and been really happy with how simple and easy it is to adapt to our changing needs. Having the support team at T Cards has been a great help over the years when small changes have been needed."

Chris Burns - Director

T Cards Online had been in development for 10 years when Prowsaw first started looking for a solution. The foundations of the web-based system were already in place. Most of the features and functionality had been developed via "customer lead" consultation and feedback.

Having been specialists in planning for 60 years, T Cards Direct were able to lean on their vast experience and knowledge of visual planning systems. One of the prime requisites from those consultations was to have an intuitive and flexible system that clients can easily tailor to their needs without exhaustive and costly software changes.
