+ 1000s of other distributors

WHERE
TO BUY

OUR RANGE.

FOR DRILLS.

Engineered for precision and durability, our professional-grade drilling solutions deliver reliable performance across the toughest applications.

- Holesaws
- HSS Drill Bits
- Auger Bits
- Flat Bits
- Countersink Drills
- Tiles Drills
- Step Drills
- Multi Purpose Drills
- SDS Drills
- Self Feed & Forster Bits
- Core Drills
- Porcelain Drills
- M14 Porcelain Holesaws

FOR DRIVERS.

Designed to provide secure fastening and maximum control, our driver accessories deliver consistent performance and dependable results on every job.

- Magnetic Bit Holders
- Driver Bits
- Premium Magnetic Nutsetters
- Angle Drivers
- Chuck & Adaptors

OUR RANGE.

ENGINEERED FOR
THE PROFESSIONAL.

FOR SAWS.

Built for speed, accuracy and longevity, our premium cutting solutions are engineered to perform in demanding trade environments.

- Circular Saw Blades
- Diamond Blades
- Cup Grinders
- Abrasive Discs
- Reciprocating Blades
- Jigsaw Blades
- Multi-Tool Blades
- Hacksaw Blades

OTHER ACCESSORIES.

From workshop to jobsite, our essential accessories are designed to enhance productivity, safety and overall performance.

- DART Gloves
- DART Nails
- Planer Blades
- Router Cutters
- Channel Trunking Sockets
- Red Ten Oil
- Tool Bags

ULTRA SPEED FLAT BITS.

Precision engineered ultra speed flat bits for rapid drilling in all types of wood.

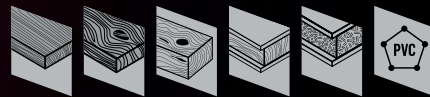

FEATURES

- Features a geometric wave design for rapid chip removal, extending product life and reducing heat build-up.
- Threaded tip increases drilling speed by 5 times, requiring very low pressure
- Double side spurs provide cleaner holes and reduced vibration
- Suitable for general use in drilling wood, plastic and plasterboard
- 1/4" hex quick change shank

PREMIUM GERMAN JIGSAW BLADES.

ENGINEERED FOR
THE PROFESSIONAL.

INNOVATIVE

Range of German made, high quality jigsaw blades designed for a wide variety of applications. Universal shank for use with most brands of jigsaw.

DPJB301

NEW

FEATURES

- Innovative 2-edge blade allows for extreme curve and clean cuts (use without orbital action)
- Chrome vanadium construction for extreme durability and long life
- Crossground and tapered tooth design, with varied 10-18TPI, helps produce extra clean cuts
- Suitable for cutting softwoods, construction timber, plywood and fibre material MDF
- Universal T-shank for use with most brands of jigsaw

DPJB302

NEW

FEATURES

- Innovative 2-edge, variable pitch blade allows for extreme curve and clean cuts (use without orbital action)
- Chrome vanadium steel construction for extreme durability and long life
- Crossground and tapered tooth design, with varied 8-11TPI, helps produce extra clean cuts
- Suitable for cutting softwood, construction timber, plywood and fibre material MDF
- Universal T-shank for use with most brands of jigsaw

DPJB303

NEW

FEATURES

- Innovative skeleton blade design prevents blade turning, helping to provide very straight cuts (use without orbital action)
- Chrome vanadium steel construction for extreme durability and long life
- Crossground and tapered tooth design, with 17TPI, helps produce clean cuts and a splinter free finish on the top and bottom material edge
- Suitable for cutting softwood, construction timber, plywood, chipboard and fibre material MDF
- Universal T-shank for use with most brands of jigsaw

DPJB304

NEW

FEATURES

- Innovative double edge blade allows for splinter free cuts on the top and bottom material edge
- Chrome vanadium steel construction for extreme durability and long life
- Patented crossground, tapered tooth design, with 19TPI, for very clean cuts (use without orbital action)
- Suitable for cutting softwood, laminated boards, kitchen worktop, plywood and fibre material MDF
- Universal T-shank for use with most brands of jigsaw

PREMIUM GERMAN RECIP BLADES.

Range of German made, high quality reciprocating blades designed for a wide variety of applications. Universal shank for use with most brands of reciprocating saws.

DPRB201 - 150mm
DPRB202 - 230mm

FEATURES

- Perfect all-rounder innovative recip blade, ideal for demolition
- 2-edge cutting design allows for plunge cutting in various materials
- Tri-metal, 8% cobalt construction, for extreme durability and long life
- Milled and set tooth design, with varied 10-14TPI, for fast and rough cuts
- Suitable for cutting hard and soft wood, wood with nails, chipboard, plywood, fibre material MDF, plastics, metal and non-ferrous metals
- 1/2" universal shank design to fit most brands of recip saw
