For Immediate Release

The UK's Premier Emergency Services Event Expands into Asia as Registration Opens for Landmark Singapore Debut

- *The Emergency Services Show Asia to take place from 10–12 November 2026 at Sands Expo & Convention Centre, Singapore*

Singapore, 15 June 2026 – The wait is over. Registration is officially open for the inaugural The Emergency Services Show Asia (ESSA) - a new dedicated event for emergency response, public safety and resilience professionals, taking place from **10–12 November 2026 at Sands Expo & Convention Centre, Singapore.**

As part of **Safety & Security Asia 2026**, ESSA brings the proven success and industry expertise of the UK's renowned Emergency Services Show to one of Asia's most comprehensive platforms for safety, security and emergency management professionals.

Building on the success of The Emergency Services Show in the UK, Emergency Services Show Asia (ESSA) is expected to attract more than **125 leading manufacturers, technology providers and solution suppliers** alongside **over 5,000 emergency response and public safety professionals** from across Asia and beyond.

Bruce Wong, Chairman of the Hong Kong Volunteer Rescue Association, commented: *"The launch of The Emergency Services Show Asia is a welcome development for the emergency response community in the region. As the sector continues to evolve, there is a growing need for platforms that bring together emergency services professionals, rescue organisations and industry stakeholders to share knowledge, exchange best practices and explore the latest innovations. By fostering collaboration and meaningful discussions, the event has the potential to strengthen preparedness, enhance capabilities, and support the continued advancement of emergency services across Asia."*

Learning Programme and Live Demonstrations

A key highlight of The Emergency Services Show Asia will be its partnership with the Asian Association for Emergency Medical Services (AAEMS) and the College of Emergency Physicians to co-locate the **8th Emergency Medical Services Asia (EMS Asia) 2026**, one of the region's leading conferences for prehospital and emergency medical services.

As part of the collaboration, ESSA will host one of the conference tracks and the final round of the **EMS Asia Competition 2026**, bringing together emergency medical professionals from across the region. Complemented by live demonstrations and hands-on showcases, the programme will

provide valuable opportunities for learning, professional development and collaboration, while supporting the advancement of emergency response capabilities across Asia.

Part of Safety & Security Asia
ESSA will be co-located with The Security Event Asia, The Fire Safety Event Asia, The Health & Safety Event Asia and Pro Integration Future Asia under the Safety & Security Asia portfolio. Together, the five events are expected to attract more than 13,000 industry professionals, creating a powerful platform for cross-sector collaboration, innovation and knowledge exchange across Asia's safety, security and emergency services ecosystem.

With one pass, visitors can access all five events over three days, gaining a comprehensive view of regional safety and security priorities while exploring the latest technologies, solutions and best practices shaping the future of the industry.

Tristan Norman, Group Managing Director of Nineteen Group, commented: *"The launch of The Emergency Services Show Asia reflects the growing importance of emergency preparedness, resilience and multi-agency response capabilities across the region. As populations grow, cities become more complex and emergency services face new operational challenges, there is an increasing need for professionals to come together, share experiences and explore the technologies and strategies that support effective response and recovery.*
Following the success of The Emergency Services Show in the UK, we are proud to bring this established event brand to Asia for the first time. Singapore provides an ideal meeting point for emergency services, rescue organisations, healthcare professionals, government agencies and industry partners to connect, learn from one another and strengthen collaboration across borders. We look forward to welcoming the region's emergency response community this November."

Visitor registration is now open.

About The Emergency Services Show Asia (ESSA)

Part of

10 – 12 Nov 2026

Sands Expo & Convention Centre, Singapore

The Emergency Services Show Asia (ESSA), as part of Safety & Security Asia 2026, is APAC's largest annual event for the blue light community. With over 125 exhibitors and more than 10,000 exhibiting brands and solutions, the show will attract over 5,000 professionals from police, fire & rescue, ambulance, search & rescue, and support sectors. Attendees gather to explore innovative technology and operational solutions, share experiences, and collaborate on public safety. This award-winning event provides a platform for product demonstrations, cross-sector networking, and multi-agency collaboration, all dedicated to advancing emergency response through technology and training, fostering resilience within the emergency services community across the APAC region and beyond.
