For Immediate Release

The Health & Safety Event Asia 2026 Builds on Strong Debut as Registration Opens

- *Leading international platform to unite health and safety professionals, industry leaders and regulators to explore emerging trends, innovations and regulatory developments across Asia Pacific*

Singapore, 15 June 2026 – Registration is now open for the second edition of The Health & Safety Event Asia (HSEA), taking place from **10 – 12 November 2026 at the Sands Expo & Convention Centre, Singapore**. This premier event is part of Safety & Security Asia, dedicated to the safety and security of people, places and assets.

Building on strong international participation and industry engagement achieved during its inaugural edition in 2025, HSEA has established itself as a key platform for exchanging insights on health and safety market trends and evolving regulatory developments across the Asia Pacific region. The 2026 edition is expected to further strengthen cross-border collaboration and knowledge-sharing within the global safety community.

Tristan Norman, Group Managing Director of Nineteen Group, said: *"The strong response to The Health & Safety Event Asia 2026 reflects the increasing importance organisations are placing on workplace health, safety and wellbeing across the region. As businesses continue to invest in new technologies, operational resilience and workforce protection, there is a growing need for the industry to come together to share knowledge, learn from best practice and stay ahead of evolving regulatory requirements."*

Following the successful launch last year, we are excited to return to Singapore and build on that momentum. The event brings together health and safety professionals, solution providers and industry leaders from across Asia Pacific, creating valuable opportunities to discover new innovations, discuss emerging challenges and make the connections that help drive safer workplaces and stronger business performance."

HSEA 2026 will gather **more than 3,000 health and safety professionals** and showcase solutions from **75 global leading manufacturers and suppliers** including international brands such as **Bizzmine, Blackline Safety, Evotix, Riskware** and local trailblazers such as **Fischer Bell and Ansac Technology**.

Alexander Werre, Chief Sales Officer from Bizzmine, commented: *"Having exhibited at The Health & Safety Event in the UK, we have confidence in the strength of the event brand and its ability to bring together a high-quality audience of health and safety professionals. Combined with our established presence in the APAC region, Bizzmine sees The Health & Safety Event Asia as a valuable opportunity*

for us to connect with organisations focused on workplace safety, compliance and operational excellence. We look forward to engaging with professionals from across the region and exploring new opportunities for growth."

Learning Programme and Live Demonstrations

A key feature of HSEA 2026 will be the return of the **Safety Collective Event**, organised by the **National Safety Council of Singapore (NSCS)**. Returning to HSEA for the second consecutive year, the programme is expected to bring together **more than 200 speakers, delegates and industry leaders** to discuss the latest developments in workplace safety, public safety, risk management, safety culture and emerging regulatory trends.

The co-location of the Safety Collective Event will provide visitors with valuable opportunities to gain practical insights, learn from industry experts and engage in meaningful discussions on the future of health and safety across Asia.

Ong Pak Shoon, President of the National Safety Council of Singapore, commented: *"Creating safer communities and workplaces require continuous learning, collaboration and the sharing of best practices. The Safety Collective Event brings together professionals from across communities and industries to discuss emerging challenges, innovative solutions and practical approaches to improving safety outcomes. By co-locating with The Health & Safety Event Asia, we are able to reach a broader audience and foster meaningful conversations that support the advancement of health and safety standards across the region. "*

The International Powered Access Federation (IPAF) will also return with an expanded presence, reinforcing its commitment to promoting safe and effective work at height practices across the region. Featuring a larger exhibition stand and a scissor lift on display, IPAF will engage visitors through **expert consultations, practical discussions and live equipment demonstrations**.

Attendees will have the opportunity to gain valuable insights into the latest safety standards, operational best practices and training requirements, while experiencing first-hand how powered access equipment can help improve workplace safety and productivity.

Part of Safety & Security Asia

HSEA will be co-located with The Security Event Asia, The Fire Safety Event Asia, Pro Integration Future Asia, and a newly launched show, The Emergency Services Show Asia. Together, the five events will form the Safety & Security Asia portfolio and are expected to attract **more than 13,000 industry professionals**, providing an all-encompassing view of regional safety and security priorities and enabling stronger cross-sector collaboration and innovation.
