A part of  **Commercial
Services Group**

Why choose Procurement Services?

With our suppliers we have a shared goal – delivering innovative transformation through our solutions. Together we help customers use new technologies, services and systems to run their organisations smarter, not harder.

Procurement Services is a trading function of Commercial Services Group (a wholly owned business of Kent County Council) and provides a range of national, Public Contracts Regulations 2015 compliant frameworks. We also provide a purchasing and distribution service to a wide-ranging customer base within public bodies across the UK.

Commercial Services Group is one of the largest trading organisations of its kind in Europe with a turnover in excess of £600 million and employing over 1800 people. Tracing its roots back to 1902, as an education stores department for Kent County Council, Commercial Services Group has subsequently grown organically to supply an ever-increasing range of best value goods and services to other publicly funded organisations, including local government, education establishments, the care sector, and the emergency services.

Key benefits for you...

Easy to use

Convenient and simple frameworks to access and use.

Choice

Multiple frameworks working in partnership with global, national and local suppliers.

Direct award

A hassle-free procurement route to get the solution you need.

Further competition

A procurement route that tests the market to find the right solution at the best price.

Customer first

We give you the finest solutions to drive transformation.

Expertise & support

Benefit from trusted, expert framework advice.

Cost effective

Create savings and help drive organisational improvements.

Social value

Supporting local communities by supporting social value projects in partnership.

A P A R T O F

Introducing Procurement Services solutions:

Procurement Services is a market-leading provider of procurement solutions, and our focus is on providing compliant routes for the UK public sector to procure products and services from local, national, and global suppliers.

All of our solutions give complete peace of mind when it comes to procurement.

Our compliant Multi-functional Devices and Digital Solutions framework is split into 2 LOTs:

- » LOT 1: Leased and Purchased Multi-Functional Devices and Digital Solutions
- » LOT 2: Digital Transformation and Associated Services

Our public sector frameworks provide access to a choice of suppliers, compliance and expertise.

Our categories include:

- » Banking & Finance
- » Construction & Facilities
- » Emergency
- » Fleet & Highways
- » Health & Social Care
- » Office & Education
- » People & Professional Services
- » Property Management
- » Technology

Procurement Services Leasing

Our solutions enable your organisation to finance capital purchases in innovative ways.

We do this by advising finance leaders on how to structure and procure their financing at the most competitive rates and under the best possible terms.

We have access to leading finance providers to help secure equipment and items that your organisation needs under manageable payment terms.

Procurement Services Lifecycle

Our experienced team of procurement professionals help your organisation procure services at the best possible price, quality and quantity. We have developed a market-leading set of tools, systems, and processes to support your staff in delivering more with less.

Our services include:

- » Access to frameworks
- » Market engagement and supplier knowledge
- » Further competitions
- » Tender management and strategic sourcing
- » Defining and implementing KPIs
- » On-going contract management

Procurement Services Vehicles

We are a national leader in public sector vehicle solutions, so you can be sure to find the right vehicle to suit your requirements. Our vehicle services include:

- » Hire
- » Purchase
- » Daily rental
- » Vehicle Managed Service
- » Telematics
- » Salary Sacrifice Scheme
- » One-stop service

If you need support with further competitions, the tender process or management of your organisations' procurement, we can help.

Frequently Asked Questions

Can I access the framework?

All public bodies have access to our frameworks once agreement has been given by one of our framework team

PCR 2015 Public Contracts Regulations 2015

Blue Light

Central Government

Education

Local Government

Healthcare

Housing

Government Agencies

Voluntary & Charities

Other Public Sector Organisations

How do I use a framework?

Our frameworks are free to access by all public sector organisations and are fully compliant with the Public Contracts Regulations 2015

- User guides can be downloaded from the website and contain all the necessary information about the framework including the awarded suppliers
- Complete the Customer Access Agreement form found within the user guide, and submit to us for approval to receive the relevant framework documents
- Customers can choose to direct award for a quick, easy and compliant route to market, or run a further competition depending on your requirements
- Whichever route you choose, the team are on hand to support throughout the whole process

How do Procurement Services and their suppliers ensure social value is made a priority?

[CLICK HERE TO FIND OUT >](#)

Where can I get trusted procurement advice?

We offer procurement advice you can rely on. With a team of framework experts on hand to support you through your procurement decisions, we will provide:

- Simple steps to explain direct award
- Clarification of the framework supplier award process
- Knowledge about PCR 2015 compliance
- Easy-to-use template documents for direct award or further competition
- Navigation through the terms & conditions
- Plus many other procurement, framework and contract queries as they come up!

How does direct award work?

Choosing to direct award is always down to the customer to decide.

To help you know if it's the best approach for you, look to see if you can say yes to one of the criteria detailed in the user guide. For example:

- ✓ You have an existing contract with an awarded supplier
- ✓ Only one of the awarded suppliers can provide what you need
- ✓ You can identify one of the suppliers offers you best value
- ✓ Supplier can meet the customers timescales
- ✓ The supplier achieved the highest total score during the evaluation process

Are any of these applicable? If yes, you may be able to direct award without needing to do a further competition or get three quotes – **it's as simple as that!**

SEE PAGE 8 FOR FULL DETAILS

How does further competition work?

- Complete the Customer Access Agreement form found within the user guide, ensuring the further competition option is selected. This form should be signed and submitted for approval
- Once approved, the customer will be sent the relevant framework documents including the further competition template
- The customer can use their own further competition documents, or the template can be utilised and adapted to include the customer's specification and requirements
- A realistic timescale should be set for each step of the further competition. Adequate time will need to be allowed for any clarification questions to be answered, for responses to be submitted, and for evaluation of the responses
- All capable suppliers awarded to the framework must be invited to respond to the further competition, and each response should be evaluated in line with the scoring methodology set out in the further competition response section
- The supplier who achieves the highest total score should be awarded the contract
- The team can offer assistance and advice if required

SEE PAGE 9 FOR FULL DETAILS

Direct Award

Benefits of choosing to direct award

All our frameworks offer customers the opportunity to direct award, which ensures a quick and compliant route to market.

Why choose to direct award?

- ✓ Effective and simple procurement
- ✓ Reduce time consuming processes, allowing projects to commence on time
- ✓ Straight forward procurement method without the need for a competitive process
- ✓ Easy appointment of suppliers
- ✓ Total transparency
- ✓ Puts you – the customer – in complete control

The customer is strongly advised to carry out their own due diligence before selecting whether they conduct a further competition or direct award with any of the awarded suppliers.

The customer will determine the requirement, specification and award, based on the most advantageous tender. Placing an order with any capable supplier awarded on the framework, without re-opening competition, following the criteria set out below.

Regulation 33(8)(a) of the Public Contracts Regulations 2015 (PCR 2015) sets out the criteria for making a direct award where a framework is concluded with more than one supplier:

- All the terms governing the provision of the works, services and supplies concerned are set out in the framework
- The objective conditions for determining which of the suppliers on the framework shall perform them are set out in the procurement documents

In accordance with the above regulation, direct award orders may be placed under a framework provided the customer can meet any one of the following objective conditions:

- Customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- The supplier is able to supply the required goods/services within the customer's timescales
- The supplier achieved the highest total score during the evaluation process
- Goods/services required are unique/exclusive to one supplier
- Continuity of existing goods/services from an awarded supplier

For support with your direct award contact pscustomerenquiries@csltd.org.uk

Further Competition

Benefits of choosing further competition

Most of our frameworks offer customers the opportunity to run a further competition among the suppliers listed on the framework

Why choose to run a further competition?

- ✓ Drives competition and value, particularly for high-value or complex goods and services
- ✓ Tests the market to find the right solution at the best price
- ✓ Helps you – the customer – understand the alternatives available
- ✓ Gives a thorough, fair and open route to find the best price
- ✓ Creates a compliant audit trail

Re-opening competition with all the capable suppliers awarded on the framework to determine the most appropriate supplier for a defined period of time or project. The customer may choose to implement, amend or provide alternative terms and conditions. Any such amendments or alternative terms and conditions will be contained within the further competition documents and/or the order/individual contract

In order to adhere to 'The Public Contracts Regulations 2015' when re-opening competition under this framework the customer should follow the steps below:

- 1 The customer must invite all suppliers on the framework who are deemed capable of delivering the particular requirement
- 2 The customer shall be responsible for formulating a specification/product brief containing full details of the work/products required
- 3 The customer will send the specification/product brief to all suppliers quoting the framework reference number. A reasonable and proportionate time limit should be set for the submission of fully completed tender responses
- 4 Responses received must be kept in a secure place, unopened, until the designated closing date and time for final submissions has passed. Responses received after the specified date and time should be rejected unopened
- 5 The submitted response shall be evaluated in accordance with the criteria stated in the original specification/product brief. The headline criteria used must be the same as the headline criteria used for the original framework or part thereof, but the customer may change the weightings and add their own sub-criteria to apply
- 6 The tenderers must be advised of the result in writing including brief details on where they scored points and where they did not
- 7 A required 'standstill period' does not apply to further competitions held under a framework. However, it is advisable to hold a standstill period in relation to a further competition as it is possible a supplier may challenge the decision and apply to court for a 'declaration of ineffectiveness' which could lead to the individual contract being terminated and possibly a fine or compensation claim
- 8 There is no scope at the further competition stage to select on the basis of general financial and economic standing or technical ability, as these issues have been addressed as part of process to establish the framework. However, this does not mean financial due diligence should not be undertaken if considered appropriate (e.g. obtaining a report on a suppliers financial standing from an appropriate agency) as long as this does not form part of any selection process

Procurement Services Lifecycle

Lifecycle Management Group are leaders in the provision of contract and procurement management solutions to the NHS and wider public sector.

Our services help our customers achieve better value from their external spend, enabling them to reinvest the savings into frontline services.

Lifecycle has been providing value adding services in the NHS for 25 years and we have delivered hundreds of millions in cash releasing savings.

Our focus has always been on delivering what is right for our customers and we have evolved a bespoke set of services to support this.

Data-led planning and opportunity assessment:

We take a holistic view of supplier spend, contract coverage, service requirements and market knowledge to identify areas of opportunity for procurement and end users.

Category expertise:

We are the leaders in asset finance, asset maintenance, estates, facilities and IT software and hardware maintenance spend in the NHS. Our skilled teams develop category-led procurement plans to deliver optimal value out of these areas of spend.

Full-managed procurement:

We work alongside in-house procurement teams and end-user stakeholders to manage all elements of procurement; from specification development, exploring routes to market, tendering, evaluation, and contract award.

Ongoing contract management:

We don't walk away once the contract is awarded, we continue to manage the contract from both the supplier and customer perspective to ensure performance and on-going value for money is achieved.

Resources

Processes

Systems

Experience

Accordingly, we have developed a set of enablers to deliver the service at scale. We have the relevant resources, processes, systems, and experience required to deliver across 40+ customers, thousands of contracts, and millions of spend under management.

Now part of the Commercial Services Group, we can offer our services across the whole of the public sector and can support all procurement activity as part of a full managed service.

The logo for Procurement Services Leasing features a stylized 'P' icon on the left, composed of a white top loop and a blue bottom loop. To the right of the icon, the words 'Procurement Services' are stacked in a white, sans-serif font, and the word 'Leasing' is positioned below them in a larger, blue, sans-serif font.

Procurement Services Leasing

Why choose Procurement Services Leasing?

-  We provide advice and support to help ensure the best decisions are made about how different assets should be funded.
Using the most appropriate available sources of funding for each acquisition is essential to achieving best overall value. We'll use up-to-date market data including residual values, funding rates, maintainable lives, and redelivery costs to inform your business case and provide the ability to make informed whole-life costs decisions.
-  We manage a fully compliant mini competition for every lease to ensure best value is achieved.
We utilise our strong partnerships for compliant frameworks. Unlike other leasing frameworks, this allows us to formally evaluate lessor bids, taking account of all potential whole-life costs and risks.
-  We use lease terms designed to protect your interests
We use unique protective clauses as standard. An example of this would be the Cap on the lease, which places a limit on what you can be charged even if you extend the lease for long periods. Additional clauses include part-termination/return, which protect you if you wish to return or extend only some of the leased assets.

Enhanced leasing solutions

We have been leaders in the lease advisory service for 30 years meeting the requirements of our NHS clients. Our service enables your organisation to finance capital purchases in innovative ways. We do this by advising finance leaders on how to structure and procure their financing at the most competitive rates and under the best possible terms. We are well known in the market place and have access to leading finance providers to help your organisation secure equipment and items that you need under manageable payment terms.

Our DfE approved frameworks

Six of our technology frameworks for schools approved by the Department for Education Schools Commercial Team.

But what does this mean for schools? This approved status shows schools that Procurement Services frameworks are compliant with procurement regulations, easy to use, and are value for money. As well as this, feedback from schools is also considered, so you can rest assured knowing schools using our frameworks recommend them for making procurement easier.

The following frameworks have been awarded a **DfE approved** status:

✔ Audio Visual Solutions

This framework covers the provision of a full range of audio visual (AV) and interactive solutions, associated services, support and maintenance.

✔ Communications Solutions & Associated Telephony Services

This framework covers the provision and installation of a full range of communication solutions, associated services, equipment, support and maintenance.

✔ Education Management Systems

This framework covers the provision and installation of a full range of education management systems. Education management systems provide establishments with the tools for the collection and management of data, providing efficient reporting and a means to communicate effectively to all stakeholders with access anytime, anywhere. To manage data and resources efficiently, streamlining processes and providing workflows to improve the learning environment.

✓ IT Hardware

The framework covers the provision of a full range of IT hardware including new, refurbished and re-manufactured as well as repair, disposal and associated services including support and maintenance.

✓ Multi-functional Devices & Digital Solutions

This framework covers the provision of multi-functional devices and digital solutions, including both A4 and A4/A3 networked and standalone multi-functional devices, printers, high volume print room devices and wide format printers, all with the option of CPC maintenance.

✓ Software Products & Associated Services

This framework covers the provision of a full range of software (including open source), essential hardware and associated services and support and maintenance for cloud based, on premise and hybrid software solutions.

- ✓ Progress tracking
- ✓ Purchasing
- ✓ Registration and admissions
- ✓ Reporting data
- ✓ Safeguarding
- ✓ Salary projections
- ✓ Special educational needs (SEN)
- ✓ Student assessment management
- ✓ Student options
- ✓ Timetable management

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer’s timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

Personal Protective Equipment (PPE) & Safety Workwear

CONTRACT REFERENCE	Y23033
FRAMEWORK PERIOD	4 years -01 February 2023 - 31 January 2027
FTS NOTICE	2022/S 000-025406
FTS AWARD	2023/S 000-014940

What does the framework cover?

Our Personal Protective Equipment (PPE) & Safety Workwear framework ensures that organisations can protect their employees by facilitating appropriate PPE and safety workwear.

The framework is split into 3 LOTS:

- LOT 1** PPE - Covers the provision of relevant PPE such as gloves, face masks and respirators.
- LOT 2** Safety workwear - Covers the provision of relevant safety workwear such as hi-vis clothing and boots.
- LOT 3** One stop shop - This LOT is covered by suppliers who can provide all PPE and safety workwear such as those mentioned above and more.

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer's timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer's timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

Electrical Testing Services

CONTRACT REFERENCE	Y23003
FRAMEWORK PERIOD	4 years - 1 st April 2023 to 31 st March 2027
FTS NOTICE	2022/S 000-031081
FTS AWARD	2022/S 000-031081

What does the framework cover?

The framework will consist of 3 LOTS.

LOT 1 Portable Appliance Testing (PAT)

A portable appliance is an item of electrical equipment which is connected to the power supply with a flex and a plug. This includes computers and their components. Testing engineers will inspect, test and certify all your portable appliances as well as providing advice as to their condition and safety. A written report will be provided as evidence that they have been inspected and tested for electrical safety.

LOT 2 Fixed Installation Testing (FIT)

A fixed electrical installation includes all parts of a distribution system from the main incoming supply point through to wiring accessories such as sockets and light fittings. A thorough visual inspection will be carried out along with electronic tests. Any potentially dangerous defects will be identified. A written inspection report will be provided as evidence that electrical devices have been inspected and tested for electrical safety, the report will also contain information on any defects or deviations from the British Standard that were identified during testing.

LOT 3 Electrical Testing of Street Lighting and Street Furniture

Each street lighting asset, illuminated signs/bollards and similar street furniture that requires electrical testing will need to have as a minimum the following tests carried out and the results recorded in electronic format;

- Visual inspection to establish the condition of all electrical components, fixings, wiring and terminations, and integrity of the column door and surround;
- Verification of correct rating of protective device, continuity of protective conductors and earth bonding;
- Insulation resistance between live/earth and neutral/earth with assembly wiring disconnected;
- Earth fault loop impedance at District Network Operator supply cut-out;
- Capacitance test shall be carried out and the results of measured values recorded against stated values.

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer’s timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

Total Facilities Management

CONTRACT REFERENCE	Y22028
FRAMEWORK PERIOD	4 years – 1 st September 2022 to 31 st August 2026
FTS NOTICE	2022/S 000-011869
FTS AWARD	2022/S 000-033338

What does the framework cover?

Total facilities management (TFM) is the process of combining and integrating all facility management services into a single contract and under a sole supplier to unify all service provisions, thereby reducing operational time and costs. This will enable a range of services to be provided. Suppliers consist of experts who have full knowledge of organisational needs and requirements and will be sufficiently equipped with the expertise and technology required for the various service provisions that a customer needs.

This includes the following:

- Audio visual equipment maintenance
- Boiler installation/maintenance
- Building cleaning
- Mechanical electrical and building fabric maintenance services
- Catering services including vending
- Security services
- Waste management services
- Ground maintenance services
- Estate management
- CCTV
- IT equipment testing
- Portable applicable testing
- Lift maintenance and installation
- Mail room
- Maintenance of firefighting equipment and systems
- Cleaning of external building fabric lighting signage and fixture and fittings
- Painting and decorating
- Pest control
- Emergency response with out of hours call out and key holding

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer's timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

Waste Management Services

CONTRACT REFERENCE	Y21003
FRAMEWORK PERIOD	4 years – 1 st December 2020 to 30 th November 2024
OJEU NOTICE	2020/S 123-302 668
OJEU AWARD	2021/S 061-156087

What does the framework cover?

The framework covers the provision of comprehensive and innovative waste solutions. Our suppliers proactively assist in attempts to reduce the quantities of waste sent to landfill and achieve recycling targets.

This framework is split into 6 LOTS:

LOT 1 Integrated Waste Management

LOT 4 Confidential Waste

LOT 2 General Waste and Recycling

LOT 5 Supply of Wheelie Bins including Compactors/Balers

LOT 3 Clinical, Chemical, Hazardous and Radioactive Waste

LOT 6 Waste Disposal Authority (WDA) Household Waste Processing

How to use the framework

Direct Award

Direct award order may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The supplier is able to supply the required goods/services within the customers timescales.
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one vendor/supplier.
- ✓ Continuity of existing goods/services from an awarded supplier.

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

We work with our customers to understand their requirements and provide vehicles fit for the job, whether it's a tipper truck or an electric minibus, we always deliver.

Our solutions include:

VEHICLE CONTRACT HIRE

VEHICLE DAILY RENTAL

VEHICLE PURCHASE

A FULL VEHICLE MANAGED SERVICE

TELEMATICS

SALARY SACRIFICE

Vehicle Leasing

+ Vehicle leasing gives you the opportunity to have a brand new vehicle with annual or monthly payments, with a complete hassle-free maintenance package included.

- Ⓞ Dedicated team of fleet experts to help with your vehicle specifications
- Ⓞ Quotes provided from a selection of approved framework suppliers
- Ⓞ Demos of many vehicles offered*
- Ⓞ Diesel / petrol /electric / hybrid options available
- Ⓞ Contract can run from 24-60 months, with annual mileage allowance to suit your needs
- Ⓞ First class customer care team to resolve any issues
- Ⓞ Full 12 month road fund licence**
- Ⓞ All routine servicing (as defined by the manufacturer)**
- Ⓞ Annual MOT**
- Ⓞ UK breakdown cover**

You can also choose to have a lease vehicle without maintenance or in some cases add on additional options.

* Dependent on availability and vehicle requirements
** Standard lease package

Vehicle Managed Service

- + Our full vehicle managed service provides organisations with the peace of mind that everything is taken care of; from arranging annual MOTs, to monitoring telematics, managing insurance claims, penalty charges, driver checks and beyond.

We appreciate that every organisation has different requirements, and we can offer a 100% tailored solution to meet those needs.

Some of the areas we can help with are:

- Ⓢ Driving licence checks
- Ⓢ Telematics provision and/or monitoring
- Ⓢ Management reports
- Ⓢ Daily driver checks
- Ⓢ Fuel cards
- Ⓢ Fleet utilisation
- Ⓢ Vehicle acquisition
- Ⓢ Routine servicing and MOTs
- Ⓢ Arranging daily rental vehicles
- Ⓢ Penalty charge management
- Ⓢ Insurance management
- Ⓢ Grey fleet

Salary Sacrifice Scheme

- + Are you looking to offer an additional company benefit to your staff?

We can partner with you and offer a salary sacrifice scheme. We have a dedicated team who are experts in fleet management and vehicle leasing, and have exceptional relationships with fleet dealerships across the country.

What is a Salary Sacrifice Scheme?

- + A salary sacrifice scheme is an employee benefit. The employee agrees to exchange part of their salary in return for a non-cash benefit to lease an electric or plug-in hybrid car. Once they accept a salary sacrifice, their overall pay is lower, so they pay less tax and National Insurance.

How does it work?

- + The team can work with you to design and implement your Salary Sacrifice Scheme, and operate it on your behalf. If you'd like more details please contact:

0808 281 9439 or email evscheme@csltd.org.uk

There are huge advantages to joining the electric and plug-in hybrid vehicle salary sacrifice scheme, not only the potential financial savings you can gain, but also:

- ✓ No initial upfront costs
- ✓ Flexible mileage and terms
- ✓ Discounts rarely found on the high street
- ✓ Annual road fund licence
- ✓ Breakdown cover (UK only)
- ✓ Servicing and MOT costs covered
- ✓ Protection against inflation for up to three years
- ✓ All-inclusive motoring – just charge up and drive
- ✓ Better for the environment
- ✓ Cost less money to maintain
- ✓ Fixed cost motoring without unexpected bills or service costs
- ✓ Reduce your own carbon emissions and help support the UK drive towards a greener future

FRAMEWORK PERIOD	4 years – 1 st February 2023 to 31 st April 2027
FTS NOTICE	2022/S 000-031083
FTS AWARD	2023/S 000-014033

What does the framework cover?

This framework is split into 2 LOTS:

LOT 1 Bus Shelters and Associated Services

This LOT is for the supply of bus shelters, canopies, and walkways:

- ✓ Bus shelters
- ✓ Canopies and walkways
- ✓ Bus stations
- ✓ Trolley and cycle shelters

Associated services including;

- ✓ Branding
- ✓ Installation
- ✓ Bus stop infrastructure
- ✓ Integration – with in situ shelters/RTPI
- ✓ Design and planning
- ✓ Maintenance, cleaning and upkeep
- ✓ Sustainable products i.e. green roof/sedum options
- ✓ Project management
- ✓ Electricity connections and wi-fi
- ✓ Refurbishment of existing infrastructure

LOT 2 Real Time Passenger Information Systems (RTPI) and Associated Services

Real Time Passenger Information (RTPI) is a means of providing electronic travel information to users of public transport in “real time” via a range of sources. Enabling better journey planning, minimising delay, and improving communities access to information on public transport. Our awarded suppliers are to be able to offer a wide range of different displays suitable for:

- ✓ Bus stops
- ✓ Vehicles
- ✓ Bays
- ✓ Control rooms
- ✓ Terminals
- ✓ Smartphone apps
- ✓ Onboard vehicles
- ✓ Web applications
- ✓ Stations

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer’s timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

Vehicle Telematics and Associated Services

CONTRACT REFERENCE	Y23051
FRAMEWORK PERIOD	4 years – 1st August 2023 - 31st July 2027
FTS NOTICE	2023/S 000-006145
FTS AWARD	2023/S 000-023763

What does the framework cover?

Telematics combines navigation, safety, security and communication into one piece of technology. A fleet tracking system makes use of location technology being tracked across individual and multiple vehicles and software programs that gather the data from these automatic vehicle location devices, in real time with active tracking systems. Telematic systems help support and improve driving behaviour, duty of care to drivers, vehicle optimisation and fleet safety.

Hardware and Software

A variety of hardware and software is to be available for either fleet or equipment management, including but not limited to the following;

- GPS trackers
- Smart dashcams
- Fobs
- Keypad vehicle immobiliser
- Workflow apps
- Smart dashcam
- Fleet maintenance
- Digital inspections
- Driver communications
- Fleet viability
- Safety analytics
- Theft of vehicles
- Video evidence
- Speeding alerts

Fleet Tracking / Management

Telematics platform to deliver fleet tracking and management to improve fleet efficiency and driver safety, including but not limited to the following elements;

- Route planning software
- Real-time data 24/7
- Driver behaviour
- Asset tracking
- Service history tracking
- Tachograph analysis

Geofencing

Using either GPS or Radio Frequency Identification (RFID) technology to create a virtual boundary, enabling software to trigger a response when a mobile device enters or leaves a particular area, including but not limited to the following elements;

- Customised working areas
- Clock in/out for employees
- Real time visibility for field attendance
- Timesheets for employees

Data Analytics

Manage all of your assets in one place, ensuring safety for your workforce and overall analysis of drivers, vehicles on one platform. Including but not limited to the following elements;

- Asset management
- Driver analysis
- Vehicle status/tracking
- Fuel usage
- Speed
- Per trip data

Detecting Emissions and Carbon footprint

Tracking and monitoring of carbon emissions, collating data on driver behaviour can directly affect fuel consumption and carbon footprint. Including but not limited to the following elements;

- Idling vehicles
- Traffic jams – alternative routing
- Saving fuel
- Tracking carbon dioxide emissions
- Mileage/per gallon
- Speed
- Driver behaviour

Associated Solutions

Including but not limited to the following:

- Maintenance
- Customer service
- Fully managed service
- Reporting
- Health checks
- Installation

Integrated Community Care Equipment

CONTRACT REFERENCE	Y21006
FRAMEWORK PERIOD	4 years – 1 st November 2020 to 31 st October 2024
OJEU NOTICE	2020/S 124-305192
OJEU AWARD	Supplies – 305192 2020

What does the framework cover?

The framework covers the provision of a full range of daily living health and social care equipment to supply, deliver, fit, adjust, install, service, collect, refurbish, recycle or dispose of items of equipment requisitioned by customers on behalf of service users.

The framework is an investment in preventative treatment and promoting independence at home and in the community for customers.

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer's timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

Get in touch pscustomerenquiries@csLtd.org.uk

Fulfil the potential of your MFD and create an integrated digital ecosystem within your school.

Why create a digital ecosystem?

- Ⓜ Cloud based software - eliminate the need for server hosting
- Ⓜ Integrate multiple devices, software and services
- Ⓜ Digital connectivity across multiple sites
- Ⓜ Make life easier
- Ⓜ Print from anywhere
- Ⓜ Scan to the cloud

How can our MFD team help schools?

- Ⓜ Account management support throughout the lifetime of your contract.
- Ⓜ Our team provide multiple quotes to save you time.
- Ⓜ We provide expert advice on procurement, contracts and suppliers.
- Ⓜ Engineer response time on average 4 working hours.
- Ⓜ 98% average device up-time is maintained across entire fleet.
- Ⓜ Manufacturer certified replacement parts consumables.
- Ⓜ All toner and consumables are provided as part of the contract.

GET IN TOUCH

Supporting schools towards a green future

Our market leading suppliers can offer efficient and eco-friendly print solutions which include features to help your school save money, energy and support towards a circular economy.

- ⊞ Motion sensors to wake the device from sleep mode when a user approaches
- ⊞ Lower melt toners to increase energy efficiency
- ⊞ Management tools such as PaperCut can reduce wasted print by up to 20%
- ⊞ Eco-timers to shut down or enable low power mode outside of school hours
- ⊞ Use of recycled parts resulting in less to zero landfill

Hybrid learning solutions

Hybrid learning is changing the way educational organisations operate. Robust, simple to use video conferencing solutions have become a priority within education.

Our Video Conferencing solutions are completely scalable from small classroom sized learning spaces right up to large open areas with multiple cameras.

- Simple to use: Control the meeting via an interactive touch panel, providing consistent user experience across all rooms.

Scan to visit our
Virtual Showroom
to learn more

- Content sharing: Share content instantly within a meeting by connecting a device via the plug-in options available or cast wirelessly.
- Dual screen support: For larger learning spaces, dual screen configurations can be deployed whereby content is displayed on one screen and the participants are displayed on the other.
- Consistent user experience: No matter the size of the room or equipment within the room, the touch-screen interface will be uniform across the organisation.

Cyber Security Solutions for Education

Sharp's MFD's utilise advanced security features to protect your teachers and students from Cyber Security threats while helping you comply with data protection regulations.

Cyber criminals are increasingly targeting endpoint devices – including printers – to plant malware, steal intellectual property, and launch espionage campaigns.

Sharp's team of education specialists take the time to get to know your school, providing valuable advice on Cyber Security. Including:

- Our Cyber Security Audit highlights weaknesses

SYNCED FOR SUCCESS

Transform outdated and manual processes with document management technology

As hybrid working and remote access of company systems and information becomes commonplace, you may be looking for digital solutions to facilitate your processes. A professional document management solution can help with efficiency and business continuity.

We can help you to capture any information coming into your business, process it and produce content from it in one easy platform. This information can then be securely at your fingertips regardless of where you are, via a PC, tablet or smartphone.

Office Supplies

CONTRACT REFERENCE	Y22027
FRAMEWORK PERIOD	4 years - 1 st July 2022 to 30 th June 2026
FTS NOTICE	2022/S 000-005681
FTS AWARD	2022/S 000-029544

What does the framework cover?

This a national, user friendly, time and cost-effective framework covers the supply of office supplies.

This framework is split across 2 LOTS.

LOT 1 Office supplies for Kent County Council only

LOT 2 The supply of office supplies including janitorial, catering, cleaning, post and packaging supplies and personal electronic devices, for delivery to multiple locations

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer's timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

Records Information Management

CONTRACT REFERENCE	Y23002
FRAMEWORK PERIOD	4 years – 1st March 2023 – 28th Feb 2027
FTS NOTICE	2022/S 000-024695
FTS AWARD	2023/S 000-012839

What does the framework cover?

This framework covers the supply of Records Information Management (RIM), an organisational function responsible for the creation and maintenance of a system to deal with records throughout a company's lifecycle. RIM includes everything from the creation of a record to its disposal. Essentially, it comprises of anything that is part of a business transaction.

The framework is split into 6 LOTS:

LOT 1 Asset and records storage, retrieval and destruction

Covering the provision and installation of asset and records storage including retrieval and destruction.

LOT 2 Document scanning and digital storage

Covering the provision and installation of document scanning and digital storage.

LOT 3 Information governance and advisory services

Covering the provision of information governance and advisory services.

LOT 4 Content services platforms

Covering the provision and installation of content services platforms.

LOT 5 Cloud solutions

Covering the provision and installation of cloud solutions.

LOT 6 Secure IT asset recycling and disposition

Covering the provision and installation of secure IT asset recycling and disposition.

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer’s timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition, including templates, are available from the Procurement Services framework team.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

Get in touch pscustomerenquiries@csLtd.org.uk

Length of an Individual Contract

In accordance with the 'Public Contracts Regulations 2015' individual contracts based on a framework are to be awarded before the end of the term of the framework itself. The duration of the individual contract does not need to coincide with the duration of the framework, but might, as appropriate, be shorter or longer. In particular, the customer is allowed to set the length of individual contracts based on a framework taking account of factors such as the time needed for their performance, where maintenance of equipment with an expected useful life of more than four (4) years is included or where extensive training of staff to perform the individual contract is needed.

The individual contract terms and conditions will apply and will remain in force after the expiry of the framework until such time all individual contracts expire or are terminated.

Awarded chambers

ICT Managed Services and Consultancy

CONTRACT REFERENCE	Y23038
FRAMEWORK PERIOD	4 years - 1st May 2023 to 30th April 2027
FTS NOTICE	2022/S 000-024692
FTS AWARD	2023/S 000-013012

What does the framework cover?

This framework covers the supply of managed ICT services and consultancy.

This framework is split into 2 LOTS:

LOT 1 ICT Managed Services

This LOT is for the supply and fit, support and maintenance, systems configuration and management, hybrid or fully managed ICT service, both cloud and on-premise options including:

- ICT support and maintenance
- On-site support
- Remote support
- Annual health check
- Pre Ofsted check
- Routine maintenance
- MIS support
- Training
- ICT strategy and planning
- Connectivity
- Cloud solutions
- Safeguarding and security
- Strategy and planning
- Data storage and back up
- Networking solutions
- ICT infrastructure
- Consultancy

LOT 2 ICT Consultancy Services

Technology and associated and related disciplines, including:

- Audit
- Assessment
- Design
- Consultancy and support
- Configuration support
- Cyber security
- Discovery and analysis
- Planning strategies
- Project scoping
- Project management
- Programme management
- Cost modelling
- Operational modelling
- Procurement and supply
- Risk management
- Opportunity management
- Policy reviews and advice
- Cloud solutions
- Server solutions
- Software
- Hardware
- Infrastructure
- Data protection
- Process mapping and optimisation
- Risk assessment/management
- Risk mitigation
- Security

- Cost analysis
- ICT digital strategy development
- Disaster recovery
- Individual specialists and or team of consultants
- ICT architecture
- Quality and testing
- ICT operations and infrastructure
- Conception development
- Innovation
- Project implementation
- Systems
- Maintenance
- Servicing
- Testing
- Support
- Research, (data and analysis based objective recommendations)
- ICT systems, processes and policies

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer’s timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

IT Hardware including New, Remanufactured and Refurbished, Disposal and Associated Services

DfE approved framework for schools

CONTRACT REFERENCE	Y21028
FRAMEWORK PERIOD	4 years to 1 st September 2021 to 31 st August 2025
FTS NOTICE	2021/S 000-001138
FTS AWARD	2022/S 000-000440

What does the framework cover?

The framework covers the provision of a full range of IT hardware including new, refurbished and re-manufactured as well as repair, disposal and associated services including support and maintenance.

The framework is split into four LOTS, these include:

LOT 1 IT Hardware

LOT 3 Refurbished IT Hardware

LOT 2 Re-manufactured IT Hardware

LOT 4 IT Hardware Repair, Disposal and Recycling

The framework includes, but is not limited to, the following product groups:

- Desktop PCs
- Laptops
- Tablets
- Thin clients
- Servers
- Storage devices
- E-Readers
- Desktop printers
- Spare parts and components
- Networking and storage hardware

Associated services may extend beyond the scope of the goods/ services purchased and may include, but not be limited to:

- Service desk
- Integration
- Installation
- Project management
- Training
- Asset management
- Sanitisation
- Approved destruction of products
- Secure data erasure and destruction
- Secure computer recycling and disposal
- Auditable trail
- End User Support
- Software

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customer's timescales
- ✓ The supplier achieved the highest total score during the evaluation process
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the Procurement Services framework team.

DfE approved framework for schools

CONTRACT REFERENCE	Y23065
FRAMEWORK PERIOD	4 years – 1st April 2024 to 31st March 2028
FTS NOTICE	2023/S 000-024156
FTS AWARD	2024/S 000-007870

What does the framework cover?

The framework agreement covers the provision of a full range of software (including open source software), essential hardware and associated services and support and maintenance for cloud based, on premise and hybrid software solutions.

Indicative software requirements

Include the following application and system software categories:

- Accounting systems
- Bespoke software solutions
- Commercial off the shelf (COTS) software
- Enterprise software and business applications
- HR and payroll systems
- Microsoft products
- Operating systems
- Recovery and data backup software
- School information management systems
- Security software (such as adware and malware, antivirus, encryption, firewall)
- Virtualisation
- Workflow management systems and software

Associated Services

May extend beyond the scope of the goods/services purchased and may include:

- Asset management
- Consultation services
- End user support
- Integration
- Installation
- Project management
- Service desk
- Training

How to use the framework

Benefits of using LASER's Services

- Industry leading management – of flexible procurement contracts to minimise energy prices.
- Public sector expertise – operating in this sector to reduce energy spends since 1989.
- Central Purchasing Body – no need to run an OJEU process to use the LASER frameworks.
- Invoice validation – incorrect supplier invoices are held and queried for errors.
- Public sector ethos – transparency of our services and fees.
- Continuous improvement – committed to service development and customer satisfaction.
- Flexible solutions – variety of service options available.

Electricity Flexible Procurement 2024 – 2028

FRAMEWORK REFERENCE	Y22009
FRAMEWORK PERIOD	18 December 2024
FTS CONTRACT NOTICE	Electricity Flexible Procurement Y22009 OJEU Notice LASER Energy
FTS AWARD NOTICE	Electricity Flexible Procurement Y22009 OJEU Award LASER Energy

What does the framework cover?

Our Flex Electricity framework has been developed through our clear understanding of your needs and challenges when it comes to procuring electricity. It provides a framework agreement under which electricity for half hourly, non-half hourly metered and unmetered supplies could be purchased flexibly.

The frameworks have been procured in accordance with the Public Contracts Regulations of 2015, as amended (PCR2015). Kent County Council remains the Contracting Authority for all LASER contracts. This permits a public body to access LASER’s frameworks and services without the need to run a separate procurement process to do so.

The framework permits direct award to any supplier based on either coming first overall, being your incumbent provider or by winning a particular evaluation section which is of most importance to your organisation. There is also an option to run a mini-tender under the framework should you have specific requirements outside of the specification of the framework and we can help you with this.

How to access the framework

The user guide is hosted on the LASER website and can be found here. The file can be found here. For more information on the framework and how to access the service please use the link.

Gas Flexible Procurement 2024 – 2028

FRAMEWORK REFERENCE	Y22008
FRAMEWORK PERIOD	18 December 2024
FTS CONTRACT NOTICE	Gas Flexible Procurement Y22008 Notice LASER Energy
FTS AWARD NOTICE	Gas Flexible Procurement Y22008 Award LASER Energy

What does the framework cover?

Our Flex Gas framework has been developed through our clear understanding of your needs and challenges when it comes to procuring electricity. It provides a framework agreement under which gas for daily metered and non-daily metered supplies could be purchased flexibly.

The frameworks have been procured in accordance with the Public Contracts Regulations of 2015, as amended (PCR2015). Kent County Council remains the Contracting Authority for all LASER contracts. This permits a public body to access LASER’s frameworks and services without the need to run a separate procurement process to do so.

The framework permits direct award to any supplier based on either coming first overall, being your incumbent provider or by winning a particular evaluation section which is of most importance to your organisation. There is also an option to run a mini-tender under the framework should you have specific requirements outside of the specification of the framework and we can help you with this.

Zero Carbon Framework (DPS)

FRAMEWORK REFERENCE	Y21009
FRAMEWORK PERIOD	18 May 2021 - 02 July 2028
OJEU CONTRACT NOTICE	Y21009 Zero Carbon Framework (DPS) Contract Notice LASER Energy

What does the framework cover?

If your organisation is looking for compliant suppliers to support your journey to net zero, our Zero Carbon framework (DPS) will help you find them.

The (DPS) focuses on the consult, design and install elements to help you achieve your aspirations covering a range of zero carbon solutions from surveys, planning and management, to solar PV, heat pump systems, battery storage and more. Our Dynamic Purchasing System (DPS) enables you to procure compliantly with a route to market that is continuously evolving by allowing suppliers to join the (DPS) throughout its lifespan.

The Zero Carbon Framework (DPS) was created to provide you with a procurement route for a very wide range of technical consultancy support to plan and specify activities along with access to expert suppliers and installers of the technology. The framework is arranged into four lots as outlined below:

LOT 1 – SITE SURVEY AND MODELLING

This LOT is designed to help you understand your buildings performance and practical opportunities through surveys and modelling. You will have access to consultants to provide energy and/or carbon related site surveys, audits and assessments.

LOT 2 – ENERGY/SUSTAINABILITY MANAGEMENT CONSULTANCY

If you're looking for high level feasibility and planning of carbon saving programmes, for example the focus is on large projects such as solar farms or complete fleet vehicle programmes. This LOT will enable you to have access to net zero specialist consultants to support the planning and management of this for your organisation.

LOT 3 – TECHNOLOGICAL SOLUTIONS CONSULTANCY

This LOT specialises in providing consultants for specific technical solution design, specification and capability feasibility.

LOT 4 – TECHNOLOGICAL SOLUTIONS DELIVERY

Designed to allow access to suppliers who are capable of supplying and installing low and zero carbon technological solutions.

How to access the framework

The user guide is hosted on the LASER website and can be found here. The file can be found here. For more information on the framework and how to access the service please use the link.

Water

FRAMEWORK REFERENCE	Y22013
FRAMEWORK PERIOD	01 March 2022 - 28 February 2026
OJEU CONTRACT NOTICE	Supply Of Water And Sewerage Services Contract Notice Y22013
OJEU AWARD NOTICE	Supply Of Water And Sewerage Services Award Notice Y22013

What does the framework cover?

We introduced our Water Framework in 2017 to help our non-domestic customers to change their water and wastewater supplier following the opening of the water market to full competition. Our focus is helping our customers to benefit both financially and logistically from this new market.

Our framework focuses on the retailer supply of water and sewerage services and with three different routes to market and a selection of suppliers providing national coverage, it provides everything you need to procure a new water supplier.

Direct award is possible too, as is procurement through mini-competition or competitive dialogue.

Plus, access to the additional services of AMR provision and Fix and Find water leakage services are also available.

How to access the framework

The user guide is hosted on the LASER website and can be found here. The file can be found here. For more information on the framework and how to access the service please use the link.

Liquid Fuels

FRAMEWORK REFERENCE	Y22012
FRAMEWORK PERIOD	01 April 2022 - 31 March 2024
FTS AWARD NOTICE	Liquid Fuels FTS Award Notice LASER Energy

What does the framework cover?

If your organisation is looking for compliant suppliers to support your procurement of liquid fuels, our framework will help. We procure all major fuel types for heating and transport purposes, as well as delivering a range of new products and services such as; carbon offsetting schemes, tank monitoring and maintenance, and priority contracts in the event of a fuel shortage.

Our large public sector customer profile results in suppliers providing low competitive prices and high levels of customer service with delivery available in all areas of Great Britain.

Please note this Framework is available to all public sector organisations nationally.

How to access the framework

The user guide is hosted on the LASER website and can be found [here](#). The file can be found [here](#). For more information on the framework and how to access the service please use the link.

Electricity Fixed Term Fixed Price

FRAMEWORK REFERENCE	Y19022
FRAMEWORK PERIOD	19 December 2019 - 18 December 2023
OJEU AWARD NOTICE	Electricity Fixed Term Fixed Price Framework Y19022 OJEU Award LASER Energy

What does the framework cover?

This framework allows the Fixed Term Fixed Price procurement for the supply of electricity for non-half hourly metered, half hourly metered and unmetered supplies. Fixed procurement is the method of going out to the energy supply market and requesting a contract for 100% of your requirement for a set duration at a single point in time. The contract price would be influenced by suppliers’ risk and business appetite as well as, more significantly, the wholesale market price at that point in time. Fixed procurement is ideal if you require long-term price certainty as it offers straight forward pricing.

How to access the framework

The user guide is hosted on the LASER website and can be found here. The file can be found here. For more information on the framework and how to access the service please use the link.

Gas Fixed Term Fixed Price

FRAMEWORK REFERENCE	Y19022
FRAMEWORK PERIOD	19 December 2019 - 18 December 2023
OJEU AWARD NOTICE	Gas Fixed Term Fixed Price Framework Y19022 OJEU Award LASER Energy

What does the framework cover?

This framework allows the Fixed Term Fixed Price procurement for natural gas. Fixed procurement is the method of going out to the energy supply market and requesting a contract for 100% of your requirement for a set duration at a single point in time. The contract price would be influenced by suppliers’ risk and business appetite as well as, more significantly, the wholesale market price at that point in time. Fixed procurement is ideal if you require long-term price certainty as it offers straight forward pricing.

How to access the framework

The user guide is hosted on the LASER website and can be found here. The file can be found here. For more information on the framework and how to access the service please use the link.

LED Lighting

FRAMEWORK REFERENCE	Y19018
FRAMEWORK PERIOD	17 May 2020 - 31 May 2024
OJEU CONTRACT NOTICE	LED Lighting Y19018 OJEU Notice LASER Energy
OJEU AWARD NOTICE	LED Lighting Y19018 OJEU Award LASER Energy

What does the framework cover?

If you're wanting to upgrade your lighting system and want to use trustworthy and compliant suppliers to help you not only source your new light fittings but potentially install it too, then our LED Framework is here to provide the pathway to help you achieve this.

This framework covers all major product manufacturers and significant volume discounts with installers capable of delivering a nationwide service.

We have two options available on this framework depending on your requirements, and can help you select the most appropriate route for your requirements.

Managed Access – This is where we can do all the hard work for you by managing the entire process tailored according to your organisation's needs. From offering free site surveys, production of a project specification with energy saving calculations, to assisting with the business case, procurement of fittings and installers, project managing the installation including health & safety requirements, and acting as Principal Designer on the project on your behalf.

Direct Access – For those customers who wish to develop and manage their own projects directly there is the option to access the framework directly. By taking this option you will have responsibility for managing all the steps such as specifying the products you require, agreeing the pricing and ensuring that your organisation is achieving value for money.

How to access the framework

The user guide is hosted on the LASER website and can be found here. The file can be found here. For more information on the framework and how to access the service please use the link.

Lot 2 Additional Services

FRAMEWORK REFERENCE	Y18003
FRAMEWORK PERIOD	13 February 2019 - 30 September 2024
OJEU CONTRACT NOTICE	Electricity Flexible Procurement Y18003 OJEU Notice LASER Energy
OJEU AWARD NOTICE	Electricity Flexible Procurement Y18003 OJEU Award LASER Energy

What does the framework cover?

LASER’s Flexible as and Electricity Procurement Frameworks for 2020-2024 provide an OJEU compliant route to arranging procurement and supply of gas and electricity. In addition, through the LOT 2 option there are opportunities to take advantage of a number of additional services relating to energy usage, storage, savings and other innovative industry solutions to help manage your energy category and reduce costs.

Participating authorities wishing to access additional services independent of their supply arrangement may source them through the additional services LOT. A mini competition can be run under the framework in order to select a supplier most suited to the customer’s need. LASER can assist in writing and/or running the mini tender process.

For further details on how to do this, please view our LOT 2 Procurement Process Guide found at the bottom of this page.

How to access the framework

The user guide is hosted on the LASER website and can be found here. The file can be found here. For more information on the framework and how to access the service please use the link.
