

CADSEAL: REPATRIATION SOLUTION FROM FLEXMORT

TRUSTED REPATRIATION FOIL OF FUNERAL DIRECTORS,
HOSPITALS, MILITARY AND DISASTER TEAMS WORLDWIDE

**AIRTIGHT
SEAL**
for hygiene &
repatriation

Flexmort's CadSeal system, used globally by funeral directors, has transformed body transportation, especially for handling infected or decomposing deceased individuals.

It offers a lightweight, practical solution for sealing and repatriation, quickly creating an airtight seal to minimize risks and prevent leakage.

Easy to set up and deploy, CadSeal ensures secure containment, keeping everything sealed within the bag.

Flexible Design

Available in various sized rolls to suit requirements.

Cost Effective

Easily cut to exact required length. Alternative to zinc lined coffins.

Quality Materials

IATA repatriation compliant and proven solution in emergency situations.
