

NIMBUS

THE INVESTIGATION
PLATFORM

 **BLACKRAINBOW**

WHO WE ARE

//////

BlackRainbow was founded by a core group of time-served subject matter experts who had identified significant problems within the investigation industry and the technology built to serve it. We developed **NIMBUS** to address these issues, creating a versatile ecosystem, adaptable to various use cases.

//////

NIMBUS

What is NIMBUS?

The **BlackRainbow Ecosystem, NIMBUS**, provides complete control and visibility to the full investigation lifecycle, supported with defensible evidence tracking, task management and reporting, all underpinned by compliance to the latest quality standards and procedures. It consists of three key elements:

INTELLIGENCE

The Smarts: NIMBUS Intelligence delivers a best-practice approach to intelligence management.

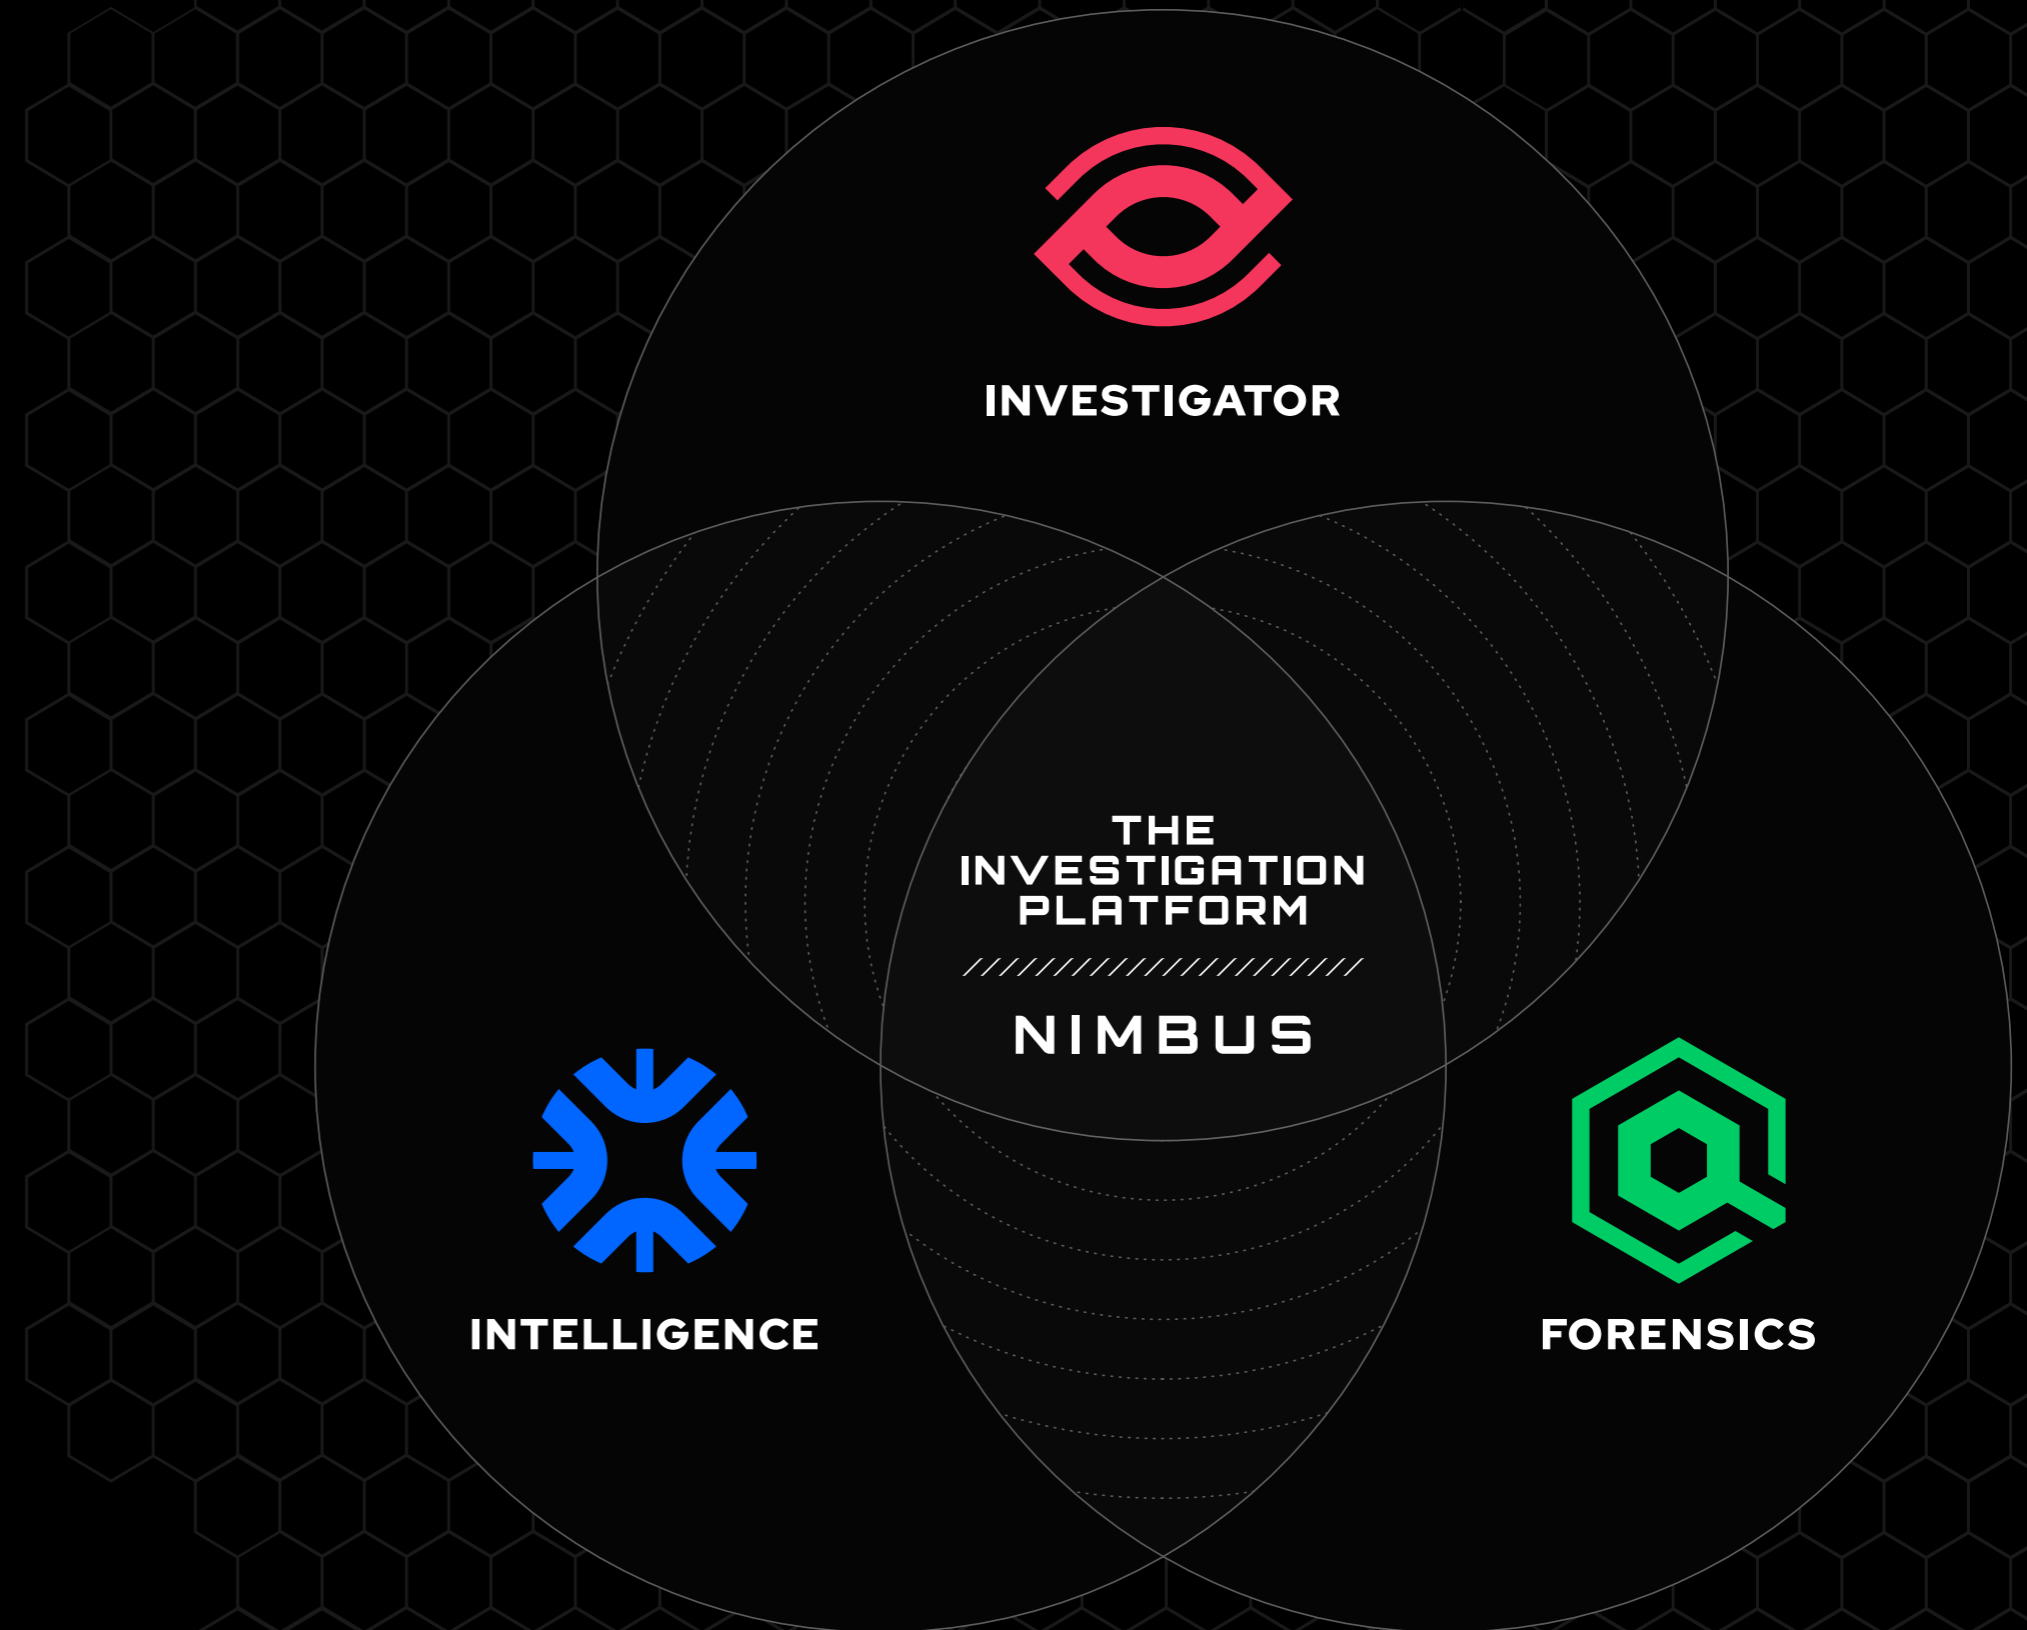

INVESTIGATOR

The Sleuth: NIMBUS Investigator is a comprehensive investigation lifecycle platform.

FORENSICS

The Facts: NIMBUS Forensics is a comprehensive platform for forensic case management.

Each can be tailored to meet the specific requirements of your organisation. Integrate these three elements to forge the ultimate investigation platform.

NIMBUS

What does NIMBUS do for the Organisation?

Complete Investigation Management:

Tailor your system for comprehensive oversight. Maintain a defensible record of evidence, minimising risks.

Efficient Case Management:

Seamlessly handle cases with our system, optimising efficiency. Gain oversight with customisable dashboards and streamlined communication.

Standard Operating Procedures:

NIMBUS ensures tasks are done according to standard procedures, simply, and audibly. Its integrated QMS and CMS guarantee trained, competent practitioners work on validated assets, following accepted, accredited, and risk-based processes.

Financial Savings:

Experience cost savings with our solutions. Optimise efficiency, reduce risks, and ensure accountability.

FEATURES INCLUDING:

<p>Intelligence Submission Management</p>	<p>Develop Intel & Analytics</p>
<p>Authorisation & Sanitisation Management</p>	<p>Dynamic Activation Management</p>
<p>Dissemination & Risk Assessment</p>	<p>Fast Paced Case & Decision Making</p>

//////
AND MORE...
 //////

*“When looking at the other options during our procurement process **NIMBUS** was the only tool that fully met our needs and was capable of managing investigations, evidence, forensics, and ISO accreditation.”*

Law Enforcement Customer

A Completely Seamless, Consistent Intelligence & Investigation Experience

NIMBUS Intelligence users can create and submit intelligence reports and record, store, develop and task activity as required. Intelligence can be submitted, sanitised, risk assessed, permissioned and disseminated within the cycle.

In addition, **NIMBUS Intelligence** has been designed to work in parallel with **NIMBUS Investigator** via a consistent, intuitive UI experience, so where cases develop from intelligence into full investigations, the transition is seamless between both product offerings.

UNLOCKING JUSTICE

What is NIMBUS Investigator?

NIMBUS Investigator is a cutting-edge platform tailored specifically for the dynamic needs of investigators, designed to empower efficient execution and management of every facet of an investigation.

FEATURES INCLUDING:

- Investigation Lifecycle Management
- Visual Sequence of Events
- Dynamic Decision Making
- Case Network Analytics
- Action Management
- Case Report Builder
- Disclosure Management
- Investigative AI

AND MORE...

*"I would absolutely recommend **NIMBUS** to other organisations for the complete management of their investigations. **NIMBUS** achieves the best results through standardisation and alignment to our existing processes and procedures."*

Corporate Fraud Investigation Customer

Tailored Functionality for the Global Investigations Community

NIMBUS Investigator is designed to provide a different approach and access to the **NIMBUS** ecosystem and will leverage the power of the platform in a simplified way. Investigator has been designed by

Investigators for Investigators and the information is presented to allow efficient execution and management of every aspect of an investigation.

UNLOCKING TRUTH

What is NIMBUS Forensics?

Streamline investigations with our comprehensive Forensic Case Management platform. Organise evidence, streamline workflows, and collaborate seamlessly to solve cases faster. Empower your team with powerful tools designed for efficiency and accuracy.

FEATURES INCLUDING:

Orchestration & Automation	Mobile Forensic Portal
Exhibit & Asset Management	Submission Case Management
Integrated QMS System	Forensic Case Reports

AND MORE...

*"We have a much improved overview on the current status of each ongoing investigation. The management of some several thousand data objects would not be possible without **NIMBUS**. Additionally, **NIMBUS** helps us standardise the required steps during an investigation to gain reproducible results and even automate certain tasks and therefore reduce our workload."*

Law Enforcement Customer

A Comprehensive Platform for Forensic Case Management

NIMBUS Forensics stands as a comprehensive Forensic Case Management platform, facilitating access to critical information across every facet of the Forensic Laboratory lifecycle. From Lab managers to submissions managers

and Lab users, including Crime Scene Investigators and Digital and Traditional Forensics Investigators, it offers a rich array of features and functions tailored to meet diverse needs including remote submission portal capability.

*"Prior to having **NIMBUS**, all aspects of our investigations were recorded and managed across multiple solutions such as email, spreadsheets and on employees' devices. Having **NIMBUS** allows up-to-date, accurate and auditable recording of casework which has been game changing."*

Global Financial Services Customer

Why NIMBUS?

NIMBUS has been adopted by organisations across a multitude of industries, all to solve the common problem of effectively managing, recording, and reporting on investigations.

Through **NIMBUS'** scalable and adaptive framework, **NIMBUS** can support

multi-discipline teams and their individual investigation use cases, be that HR investigations, Fraud, Theft of Intellectual Property, or Anti-Piracy. All while providing a centralised system to record and store all investigations, enabling increased visibility, continuity, and simpler generation of management information.
