

Simpson Associates Fabric Accelerator

Get started with Microsoft Fabric quickly and easily, and accelerate your data journey to the next phase.

What is the Simpson Associates Fabric Accelerator?

The Simpson Associates Fabric Accelerator is a comprehensive package of essential activities and tasks that will help you get started with Fabric efficiently. It includes best practice setup and configuration, as well as implementation of a data workload from source to reporting.

The package is flexible enough to incorporate OneSecurity, governance, additional workloads, and AI Proof of Concepts. So, no matter where you are in your data journey, the Simpson Associates Fabric Accelerator can help you move to the next phase faster and more efficiently.

Benefits of using the Simpson Associates Fabric Accelerator:

- ✓ **Get started with fabric quickly and easily**
Our team of experts will take care of the technical details, so you can focus on getting the most out of your data.
- ✓ **Implement best practices for setup and configuration**
You can be confident that your Fabric environment is secure and scalable, and that you're getting the most out of the platform.
- ✓ **Get up and running with a data workload in no time**
You'll be able to start getting insights from your data faster than ever before.
- ✓ **Flex the package to meet your specific needs**
You only pay for what you need, and we can adjust the package as your data needs evolve.

Who should use the Fabric Accelerator?

It is ideal for organisations that:

- ✓ Are new to Fabric and need help getting started.
- ✓ Have limited resources or expertise to implement Fabric.
- ✓ Are struggling to develop a Target Operating Model for Fabric.
- ✓ For organisations looking to start small and then scale.

Fabric Accelerator deliverables

We will conduct a discovery workshop to assess your current data platform and develop a roadmap for enabling Fabric in your organisation, focusing on:

- Setup:** Tenant, Admin, Capacity and Admin & User Roles
- Governance:** Workspace Management, Domains, OneSecurity and Purview Integration
- Workload:** Data Sources, Data Modelling, Usage Monitoring and Adoption

Outcomes

The Fabric Accelerator will deliver a commissioned service with a bespoke design and governance framework. We will also create an end-to-end template for a given use case, from ingestion to transformation to reporting.

Why Simpson Associates can help customers on their Fabric journey as a Microsoft Partner

Simpson Associates is a Microsoft Partner with over 30 years of data experience. We have the expertise to help organisations get the most out of Microsoft technologies. We have a deep understanding of Microsoft Fabric and how it can be used to help organisations achieve their data goals.
