

Corporate Account Membership

The IFE is the global professional membership body for those in the fire sector that seek to increase their knowledge, professional recognition and understanding of fire. We offer international recognised membership grades and fire-related qualifications.

Becoming a member unlocks knowledge resources and access to a global community of fire professionals along with many more benefits. Our membership offering provides something for everyone no matter where they are in their career.

What is Corporate Account Membership?

Corporate Account Membership is offered to organisations who require 50 or more of their employees to be members. This tailor-made service ensures a rewarding professional membership for all. Your business will have the opportunity to pick from the IFE's suite of services in order to create a unique membership that provides benefits at a total business and individual employee level.

The process

We will work with you to understand what your organisation needs from IFE membership and from this a proposal will be developed to meet your requirements. This is a collaborative approach with the IFE working closely with you and your team to ensure the right membership is developed for you.

Once membership is obtained, the close working partnership continues, and you will be assigned a single point of contact at the IFE to assist your business throughout the life of its membership.

Membership benefits

Your employees will have access to benefits including:

- ♦ **Exclusive CPD**
Hear about our CPD events and gain access to the member only online CPD Hub to support professional development
- ♦ **Enhanced professional status**
Use IFE letters (post-nominals) after their name (graded members only – once membership is active your employees will be able to upgrade their membership depending on their knowledge and experience)
- ♦ **Career development**
International recognition of competence and commitment and improved employability and earning potential
- ♦ **Networking opportunities**
Chance to join a local branch and meet like-minded professionals at IFE events
- ♦ **Knowledge development**
A free subscription to the International Fire Professional journal, e-newsletter and e-communications
- ♦ **Shape a fire safe world**
Support a local branch, take part in Special Interest Groups and career spotlights, or get involved with consultation responses.

- ◆ Multiple training course recognition awards
- ◆ Multiple CPD certificate awards for organisation delivered training
- ◆ Multiple access to IFE events
- ◆ IFE supported CPD programmes at local IFE branches

Member case studies:

Surrey Fire and Rescue Service

The senior leadership team at Surrey Fire and Rescue Service approached the IFE after it implemented professional approaches to specific areas of its business. They found that professional status could be found in roles within legal, HR, IT and procurement but that it was less prevalent in operational and fire specific roles. The team wanted to change this and worked closely with the IFE to create their membership, resulting in the majority of staff becoming IFE members and in turn ensuring all their employees had a place within an appropriate professional body, no matter what their role. The result has impacted the overall service, with employees gaining professional recognition which has raised standards of professionalism and practice across Surrey Fire and Rescue Services, directly benefitting the community it protects.

London Building Control

London Building Control (LBC) wanted to enrol their staff via Corporate Account Membership to provide individuals with personal professional recognition whilst enhancing the company's professionalism overall. There was a desire for staff to become more aware of fire safety and upgrade their knowledge and qualifications, as well as have the opportunity to mix with other professionals within the sector, which is provided through IFE events. Working with the IFE, a membership package has been created to meet all of LBC's requirements and resulted in 50 employees being enrolled.
