

## BASKET STRETCHER HEAD GUARD

**Part of the stretcher range from Lyon Equipment**

The Lyon BASKET STRETCHER HEAD GUARD is designed to fit Basket Stretchers from the current Traverse Rescue Titan range.

Lyon has chosen a low profile design that balances weight, impact resistance, volume, windage, and portability.

The BASKET STRETCHER HEAD GUARD is suitable for technical rescue teams facing a broad spectrum of rope based extractions, and is sized to protect the critical head area of a prone casualty.

LBSKT-HG	Lyon Basket Stretcher Head Guard	UKCA, Class I Medical Device
LBSKT-HGAB	Lyon Head Guard Adaptor Bracket	UKCA, Class I Medical Device

At Lyon Equipment, we design, manufacture and supply high quality and innovative, adventure, work at height and specialist rescue equipment - delivering expert advice on all our products and their applications

The LYON BASKET STRETCHER HEAD GUARD has an innovative left or right side opening feature for swift casualty access. Side opening reduces interference with hauling and lowering systems.

Robust clamp/hinge blocks provide security in use and maintain a positive hold on the head guard when it is opened sideways. This reduces the risk of unexpected flailing movements or even total release when working in high winds or in helicopter downdraft.

The LYON BASKET STRETCHER HEAD GUARD has been performance benchmarked against mountaineering helmet standards providing a quantifiable level of impact resistance.

### Product features:

- Robust TIG welded tubular construction
- Performance tested design
- Glove friendly rubber attachment clamps
- Stainless steel and polycarbonate construction
- High visibility, heavy duty PVC, weather resistant, replaceable cover
- Positive location on the stretcher frame
- Side opening reduces interference with hauling and lowering systems
- Mesh venting for enhanced airflow, reducing the risk of a build-up of exhaled medical gasses
- UKCA certified as a Class I Medical Device
