

# TITAN 32" BASKET STRETCHER

## Part of the stretcher range from Lyon Equipment

The TITAN 32" basket stretcher is designed specifically for technical rescues involving larger casualties. It is also appropriate where significant volumes of additional medical equipment and patient packaging preclude use of a conventional width basket stretcher.

The stainless steel back support slats give additional support and stiffness to the polyethylene netting.

[See overleaf for detailed product features](#)

CODE	DESCRIPTION	WEIGHT	CONFORMITY
11-0102	Titan 32" basket stretcher	19.2 kg	UKCA, CE, Class I Medical Device
