services

Transforming the
public sector for the
better, together.

www.procurementservices.co.uk

Why choose KCS Procurement Services?

With our suppliers we have a shared goal – delivering innovative transformation through our solutions. Together we help customers use new technologies, services and systems to run their organisations smarter, not harder.

KCS Procurement Services is a trading function of Commercial Services Group (a wholly owned business of Kent County Council) and provides a range of national, Public Contract Regulations 2015 compliant frameworks. We also provide a purchasing, warehousing and distribution service to a wide-ranging customer base within local government and associated public bodies in Kent, neighbouring counties and across the UK.

Commercial Services Group is one of the largest trading organisations of its kind in Europe with a turnover in excess of £600 million and employing over 1800 people. Tracing its roots back to 1902, as an education stores department for Kent County Council, Commercial Services Group has subsequently grown organically to supply an ever-increasing range of best value goods and services to other publicly funded organisations, including local government, education establishments, the care sector and the emergency services.

Key benefits for you...

Easy to use

Convenient and simple frameworks to access and use.

Choice

Multiple frameworks working in partnership with global, national and local suppliers.

Direct award

A hassle-free procurement route to get the solution you need.

Further competition

A procurement route that tests the market to find the right solution at the best price.

Customer first

We give you the finest solutions to drive transformation.

Expertise & support

Benefit from trusted, expert framework advice.

Cost effective

Create savings and help drive organisational improvements.

Social value

Supporting local communities by supporting social value projects in partnership.

Agencies

Voluntary
& Charities

Other Public Sector
Organisations

How do I use a framework?

Our frameworks are free to access by all public sector organisations and are fully compliant with the Public Contracts Regulations 2015.

- User guides can be downloaded from the website and contain all the necessary information about the framework including the awarded suppliers.
- Complete the Customer Access Agreement form found within the user guide, and submit to us for approval to receive the relevant framework documents.
- Customers can choose to direct award for a quick, easy and compliant route to market, or run a further competition depending on your requirements.
- Whichever route you choose, the team are on hand to support throughout the whole process.

Q Where can I get trusted procurement advice?

We offer procurement advice you can rely on. With a team of framework experts on hand to support you through your procurement decisions, we will provide:

- Simple steps to explain direct award
- Clarification of the framework supplier award process
- Knowledge about PCR 2015 compliance
- Easy-to-use template documents for direct award or further competition
- Navigation through the terms & conditions
- Plus many other procurement, framework and contract queries as they come up!

Q How does direct award work?

Choosing to direct award is always down to you – the customer – to decide.

To help you know if it's the best approach for you, look to see if you can say yes to one of the criteria detailed in the user guide. For example:

- You have an existing contract with an awarded supplier
- Only one of the awarded suppliers can provide what you need
- You can identify one of the suppliers offers you best value
- Supplier can meet the customers timescales
- The supplier scored the highest score in the evaluation

Are any of those boxes ticked? If yes, you may be able to direct award without needing to do a further competition or get three quotes – **it's as simple as that!**

SEE PAGE 8 FOR FULL DETAILS >

Q How does further competition work?

- Complete the Customer Access Agreement form found within the user guide, ensuring the further competition option is selected. This form should be signed and submitted for approval.
- Once approved, the customer will be sent the relevant framework documents including the further competition template.
- The customer can use their own further competition documents, or the template can be utilised and adapted to include the customers specification and requirements.
- A realistic timescale should be set for each step of the further competition. Adequate time will need to be allowed for any clarification questions to be answered, for responses to be submitted, and for evaluation of the responses.
- All capable suppliers awarded to the framework must be invited to respond to the further competition, and each response should be evaluated in line with the scoring methodology set out in the further competition response section.
- The supplier who achieves the highest total score should be awarded the contract.
- The team can offer assistance and advice if required.

SEE PAGE 9 FOR FULL DETAILS >

Direct Award

Benefits of choosing to direct award

All our frameworks offer customers the opportunity to direct award, which ensures a quick and compliant route to market.

Why choose to direct award?

- ✓ Effective and simple procurement
- ✓ Reduce timely processes, allowing projects to commence on time
- ✓ Straight forward procurement method without the need for a competitive process
- ✓ Easy appointment of suppliers
- ✓ Total transparency
- ✓ Puts you – our customer – in complete control

The customer is strongly advised to carry out their own due diligence before selecting whether they conduct a further competition or direct award with any of the awarded suppliers.

The customer will determine the requirement, specification and award, based on the most advantageous tender. Placing an order with any capable supplier awarded on the framework, without re-opening competition, following the criteria set out below.

Regulation 33(8)(a) of the Public Contracts Regulations 2015 (PCR 2015) sets out the criteria for making a direct award where a framework is concluded with more than one supplier:

- All the terms governing the provision of the works, services and supplies concerned are set out in the framework.
- The objective conditions for determining which of the suppliers on the framework shall perform them are set out in the procurement documents.

In accordance with the above regulation, direct award orders may be placed under a framework provided the customer can meet any one of the following objective conditions:

- Customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- The supplier is able to supply the required goods/services within the customers timescales
- The supplier scored the highest mark for price/quality in the framework evaluation
- Goods/services required are unique/exclusive to one supplier
- Continuity of existing goods/services from an awarded supplier

For support with your direct award contact psframeworks@csltd.co.uk

Further Competition

Benefits of choosing further competition

Our frameworks offer customers the opportunity to run a further competition among the suppliers listed on the framework.

Why choose to run a further competition?

- ✓ Drives competition and value, particularly for high-value or complex goods and services
- ✓ Tests the market to find the right solution at the best price
- ✓ Helps you – the customer – understand the alternatives available
- ✓ Gives a thorough, fair and open route to find the best price
- ✓ Creates a compliant audit trail

Re-opening competition with all the capable suppliers awarded on the framework to determine the most appropriate supplier for a defined period of time or project. The customer may choose to implement, amend or provide alternative terms and conditions. Any such amendments or alternative terms and conditions will be contained within the further competition documents and/or the order/individual contract.

In order to adhere to 'The Public Contracts Regulations 2015' when re-opening competition under this framework the customer should follow the steps below:

- 1 The customer must invite all suppliers on the framework who are deemed capable of delivering the particular requirement.
- 2 The customer shall be responsible for formulating a specification/ product brief containing full details of the work/products required.
- 3 The customer will send the specification/product brief to all suppliers quoting the framework reference number. A reasonable and proportionate time limit should be set for the submission of fully completed tender responses.
- 4 Responses received must be kept in a secure place, unopened, until the designated closing date and time for final submissions has passed. Responses received after the specified date and time should be rejected unopened.
- 5 The submitted response shall be evaluated in accordance with the criteria stated in the original specification/product brief. The headline criteria used must be the same as the headline criteria used for the original framework or part thereof, but the customer may change the weightings and add their own sub-criteria to apply.
- 6 The tenderers must be advised of the result in writing including brief details on where they scored points and where they did not.
- 7 A required 'standstill period' does not apply to further competitions held under a framework. However, it is advisable to hold a standstill period in relation to a further competition as it is possible a supplier may challenge the decision and apply to court for a 'declaration of ineffectiveness' which could lead to the individual contract being terminated and possibly a fine or compensation claim.
- 8 There is no scope at the further competition stage to select on the basis of general financial and economic standing or technical ability, as these issues have been addressed as part of process to establish the framework. However, this does not mean financial due diligence should not be undertaken if considered appropriate (e.g. obtaining a report on a suppliers financial standing from an appropriate agency) as long as this does not form part of any selection process.

Banking and Finance

Our banking & finance frameworks are developed to offer security and support to establishments with financial decisions including:

<p>Vehicles</p> 	<p>Travel</p> 	<p>People</p> 	<p>Buildings</p> 
---	---	--	--

To keep up to date with our frameworks visit our website procurementservices.co.uk

FRAMEWORK PERIOD	4 years – 4 th May 2023 to 3 rd May 2027
FTS NOTICE	2023/S 000-000926
FTS AWARD	TBC

What does the framework cover?

This framework covers the provision and ability to provide a range of audit and assurance services.

The framework is split into 3 LOTS:

LOT 1 Internal Audit and Assurance

Covering all aspects of assurance and consultancy for the purpose of providing an assessment on risk management, governance and internal control processes.

- Internal audit
- Accounting and financial audit
- Computer audit
- Audit and governance services
- Consultancy and risk advisory services

LOT 2 Counter Fraud and Investigation

Covering the provision of services relating to counter fraud work and reactive investigations including forensics.

- Advice on and assessment of fraud, bribery and corruption awareness/prevention
- Financial irregularity investigations and non-financial irregularity investigations
- Forensic and integrity services
- Expert witness services

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required services within the customers timescales
- ✓ The supplier scored the highest mark for price/quality in the framework agreement evaluation
- ✓ Services required are unique/exclusive to one supplier
- ✓ Continuity of existing services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition, including templates, are available from the KCS Procurement Services framework team.

Fire Safety Products and Associated Services

CONTRACT REFERENCE	Y23025
FRAMEWORK PERIOD	4 years – 1 st January 2023 to 31 st December 2027
FTS NOTICE	2022/S 000-024693
FTS AWARD	2023/S 000-005052

What does the framework cover?

The framework is split into 5 LOTS:

- LOT 1** **The Supply of Fire Safety Products** This LOT is for the supply, installation, maintenance and testing of fire safety equipment.
- LOT 2** **Fire Risk Assessment and Fire Awareness Training** This LOT covers a fully comprehensive fire risk assessment which is to be documented and meet the requirements of the Regulatory Reform (Fire Safety Order 2005). The supplier will also need to provide fire awareness training to customer's nominated staff.
- LOT 3** **Fire Prevention and Detection Systems** This LOT is for the supply, installation, service and maintenance of fire protection and detection systems. The supplier may also need to provide maintenance, testing and inspection services to an existing fire detection and alarm system.
- LOT 4** **Emergency Lighting** This LOT is for the supply, installation, testing and maintenance of emergency lighting.
- LOT 5** **Wet and Dry Risers** This LOT is for the supply, installation, testing and maintenance of wet and dry risers.

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customers timescales
- ✓ The supplier scored the highest mark for price/quality in the framework agreement evaluation
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition, including templates, are available from the KCS Procurement Services framework team.

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customers timescales
- ✓ The supplier scored the highest mark for price/quality in the framework agreement evaluation
- ✓ Goods/services required are unique/exclusive to one supplier
- ✓ Continuity of existing goods/services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the KCS Procurement Services framework team.

Electrical Testing Services

CONTRACT REFERENCE	Y23003
FRAMEWORK PERIOD	4 years - 1 st April 2023 to 31 st March 2027
FTS NOTICE	2022/S 000-031081
FTS AWARD	TBC

What does the framework cover?

The framework will consist of 3 LOTS.

LOT 1 Portable Appliance Testing (PAT)

A portable appliance is an item of electrical equipment which is connected to the power supply with a flex and a plug. This includes computers and their components. Testing engineers will inspect, test and certify all your portable appliances as well as providing advice as to their condition and safety. A written report will be provided as evidence that they have been inspected and tested for electrical safety.

LOT 2 Fixed Installation Testing (FIT)

A fixed electrical installation includes all parts of a distribution system from the main incoming supply point through to wiring accessories such as sockets and light fittings. A thorough visual inspection will be carried out along with electronic tests. Any potentially dangerous defects will be identified. A written inspection report will be provided as evidence that electrical devices have been inspected and tested for electrical safety, the report will also contain information on any defects or deviations from the British Standard that were identified during testing.

LOT 3 Electrical Testing of Street Lighting and Street Furniture

Each street lighting asset, illuminated signs/bollards and similar street furniture that requires electrical testing will need to have as a minimum the following tests carried out and the results recorded in electronic format;

- Visual inspection to establish the condition of all electrical components, fixings, wiring and terminations, and integrity of the column door and surround;
- Verification of correct rating of protective device, continuity of protective conductors and earth bonding;
- Insulation resistance between live/earth and neutral/earth with assembly wiring disconnected;
- Earth fault loop impedance at District Network Operator supply cut-out;
- Capacitance Test shall be carried out and the results of measured values recorded against stated values.

How to use the framework

Direct Award

Direct award order may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ Ability to supply the required service
- ✓ Total value of order below £10,000
- ✓ Product or service required is unique/exclusive to one supplier
- ✓ Continuity of existing goods/services
- ✓ Current architecture

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the KCS Procurement Services framework team.

Frozen, Chilled and Ambient Food Supply

CONTRACT REFERENCE	Y22022
FRAMEWORK PERIOD	4 years - 1 st July 2022 to 30 th June 2026
FTS NOTICE	2022/S 000-003954
FTS AWARD	2022/S 000-033073

What does the framework cover?

KCS Procurement Services, acting for and on behalf of Kent County Council (KCC), a Public Buying Organisation (PBO), has created a national, user friendly, time and cost-effective framework for the supply of frozen, chilled and ambient food, including:

Frozen

- ✓ Fish
- ✓ Burgers and sausages
- ✓ Meats
- ✓ Vegetables
- ✓ Chips and other frozen potato products
- ✓ Pizza
- ✓ Desserts, puddings and ice cream
- ✓ Breads, cakes and patisserie

Chilled

- ✓ Dairy
- ✓ Cooked meats
- ✓ Bacon
- ✓ Eggs
- ✓ Juices

Ambient

- ✓ Canned fruit
- ✓ Canned fish and meat
- ✓ Canned vegetables
- ✓ Tea and coffee
- ✓ Biscuits and cakes
- ✓ Bread and cereals
- ✓ Cake mixes
- ✓ Pasta and rice
- ✓ Oils and fats
- ✓ Sauces and condiments

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ Ability to supply the required service
- ✓ Product or service required is unique/exclusive to one supplier
- ✓ Continuity of existing goods/services
- ✓ Customers own procurement policy value threshold

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Total Facilities Management

CONTRACT REFERENCE	Y22028
FRAMEWORK PERIOD	4 years – 1 st September 2022 to 31 st August 2026
FTS NOTICE	2022/S 000-011869
FTS AWARD	2022/S 000-033338

What does the framework cover?

Total facilities management (TFM) is the process of combining and integrating all facility management services into a single contract and under a sole supplier to unify all service provisions, thereby reducing operational time and costs. This will enable a range of services to be provided. Suppliers consist of experts who have full knowledge of organisational needs and requirements and will be sufficiently equipped with the expertise and technology required for the various service provisions that a customer needs.

This includes the following:

- Audio visual equipment maintenance
- Boiler installation/maintenance
- Building cleaning
- Mechanical electrical and building fabric maintenance services
- Catering services including vending
- Security services
- Waste management services
- Ground maintenance services
- Estate management
- CCTV
- IT equipment testing
- Portable applicable testing
- Lift maintenance and installation
- Mail room
- Maintenance of firefighting equipment and systems
- Cleaning of external building fabric lighting signage and fixture and fittings
- Painting and decorating
- Pest control
- Emergency response with out of hours call out and key holding

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ Ability to supply the required service
- ✓ Product or service required is unique/exclusive to one supplier
- ✓ Continuity of existing goods/services
- ✓ Authorised participants own procurement policy value threshold

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the KCS Procurement Services framework team.

<p>Lease, Purchase and Hire</p> 	<p>Electric Vehicle Projects</p> 	<p>Technology and Training</p> 	<p>Vehicle Managed Services</p> 
---	--	---	---

To keep up to date with our services visit our website

 procurementservices.co.uk

Have you got a question about our fleet services?

Carly Smithson  procurementservices@csltd.org.uk

Our Fleet Services

Our dedicated team supports public sector organisations with their fleet requirements and has vast experience in the vehicle industry. We access multiple frameworks to ensure compliant and easy routes to procurement.

We work with our customers to understand their requirements and provide vehicles fit for the job, whether it's a tipper truck or an electric minibus, we always deliver.

Our solutions include:

- VEHICLE CONTRACT HIRE >
- VEHICLE DAILY RENTAL >
- VEHICLE PURCHASE >
- A FULL VEHICLE MANAGED SERVICE >
- TELEMATICS >
- SALARY SACRIFICE >

Fleet Services

Vehicle Leasing

+ Vehicle leasing gives you the opportunity to have a brand new vehicle with annual or monthly payments, with a complete hassle-free maintenance package included.

- Ⓢ Dedicated team of fleet experts to help with your vehicle specifications
- Ⓢ Quotes provided from a selection of approved framework suppliers
- Ⓢ Demos of many vehicles offered*
- Ⓢ Diesel / petrol /electric / hybrid options available
- Ⓢ Contract can run from 24-60 months, with annual mileage allowance to suit your needs
- Ⓢ First class customer care team to resolve any issues
- Ⓢ Full 12 month road fund licence**
- Ⓢ All routine servicing (as defined by the manufacturer)**
- Ⓢ Annual MOT**
- Ⓢ UK breakdown cover**

You can also choose to have a lease vehicle without maintenance or in some cases add on additional options.

* Dependent on availability and vehicle requirements

** Standard lease package

have any problems!
”

Outright Purchase

- + Do you want to buy any type of vehicle, tractor, mower or piece of grounds maintenance equipment outright? We can quote from our nominated suppliers via a compliant framework.

Once the order has been placed we keep you informed with regular updates on its progress and then arrange the delivery. We are here to support every step of the way.

📞 0808 281 9439 ✉️ procurementservices@csLtd.org.uk

“
The staff are always cheerful and helpful, nothing is too much trouble!
A big thank you.
”

Vehicle Managed Service

- + Our full vehicle managed service provides organisations with the peace of mind that everything is taken care of; from arranging annual MOTs, to monitoring telematics, managing insurance claims, penalty charges, driver checks and beyond.

We appreciate that every organisation has different requirements, and we can offer a 100% tailored solution to meet those needs.

Some of the areas we can help with are:

- ⊕ Driving licence checks
- ⊕ Telematics provision and/or monitoring
- ⊕ Management reports
- ⊕ Daily driver checks
- ⊕ Fuel cards
- ⊕ Fleet utilisation
- ⊕ Vehicle acquisition
- ⊕ Routine servicing and MOTs
- ⊕ Arranging daily rental vehicles
- ⊕ Penalty charge management
- ⊕ Insurance management
- ⊕ Grey fleet

Read more >>

Benefits of Vehicle Managed Service

- + Complete control of costs, enabling informed decisions
- Clear and concise reporting with full visibility of fleet structure and spend
- Saves time and money for organisations as we cover multiple areas
- More training and attention to drivers
- Complete management of fleet operations and efficiencies
- Complications or questions dealt with seamlessly with direct point of contact

Are you thinking of optimising your current fleet?

CONTACT US NOW

vms@csLtd.org.uk
0808 281 9439

Salary Sacrifice Scheme

- + Are you looking to offer an additional company benefit to your staff?

We can partner with you and offer a salary sacrifice scheme. We have a dedicated team who are experts in fleet management and vehicle leasing, and have exceptional relationships with fleet dealerships across the country.

What is a Salary Sacrifice Scheme?

- + A salary sacrifice scheme is an employee benefit. The employee agrees to exchange part of their salary in return for a non-cash benefit to lease an electric or plug-in hybrid car. Once they accept a salary sacrifice, their overall pay is lower, so they pay less tax and National Insurance.

How does it work?

- + The team can work with you to design and implement your Salary Sacrifice Scheme, and operate it on your behalf. If you'd like more details please contact:

0808 281 9439 or email evscheme@csltd.org.uk

There are huge advantages to joining the electric and plug-in hybrid vehicle salary sacrifice scheme, not only the potential financial savings you can gain, but also:

- ✔ No initial upfront costs
- ✔ Flexible mileage and terms
- ✔ Discounts rarely found on the high street
- ✔ Annual road fund licence
- ✔ Breakdown cover (UK only)
- ✔ Servicing and MOT costs covered
- ✔ Protection against inflation for up to three years
- ✔ All-inclusive motoring – just charge up and drive
- ✔ Better for the environment
- ✔ Cost less money to maintain
- ✔ Fixed cost motoring without unexpected bills or service costs
- ✔ Reduce your own carbon emissions and help support the UK drive towards a greener future

- ✓ Design and planning
- ✓ Sustainable products i.e. green roof/sedum options
- ✓ Electricity connections and wi-fi
- ✓ Managed service solution
- ✓ Installation
- ✓ Integration – with in situ shelters/RTPI
- ✓ Maintenance, cleaning and upkeep
- ✓ Project management
- ✓ Refurbishment of existing infrastructure

LOT 2 Real Time Passenger Information Systems (RTPI) and Associated Services

Real Time Passenger Information (RTPI) is a means of providing electronic travel information to users of public transport in “real time” via a range of sources. Enabling better journey planning, minimising delay, and improving communities access to information on public transport.

Our awarded suppliers are to be able to offer a wide range of different displays suitable for:

- ✓ Bus stops
- ✓ Bays
- ✓ Terminals
- ✓ Onboard vehicles
- ✓ Stations
- ✓ Vehicles
- ✓ Control rooms
- ✓ Smartphone apps
- ✓ Web applications

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ Ability to supply the required service
- ✓ Product or service required is unique/exclusive to one supplier
- ✓ Continuity of existing goods/services
- ✓ Customers own procurement policy value threshold

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the KCS Procurement Services framework team.

Electric Vehicle Charging Points

CONTRACT REFERENCE	Y18019
FRAMEWORK PERIOD	4 years – 1 st May 2019 to 30 th April 2023
FTS NOTICE	2018/S 243-554690
FTS AWARD	2019/S 110-268115

What does the framework cover?

The framework covers the provision of electric vehicle charging points. Our suppliers provide turnkey services covering the following areas:

- **Feasibility Study** – including assessing viability of locations, obtaining any required permissions, licenses or planning consent, product selection, liaising with all relevant operators and authorities, providing a full report of financial options and costs to the customer.
- **Installation & Deployment** – providing and installing the correct equipment to requested location as per the purchase order, including, but not limited to, electrical vehicle chargers, signage, parking bay markings, cabling and back-office connections.
- **Service & Management** – including service, maintenance, monitoring and management of charging points (this will include any existing charge points that have been adopted), provision of management information, ensuring public awareness and collaboration with suitable media such as Zap Map and the National Charge Point Registry (NCR).

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ Ability to supply the required goods/service
- ✓ Product or service required is unique/exclusive to one supplier
- ✓ Continuity of existing goods/services

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the KCS Procurement Services framework team.

Multi-Functional Devices & Digital Solutions for Schools

Fulfil the potential of your MFD and create an integrated digital ecosystem within your school.

Why create a digital ecosystem?

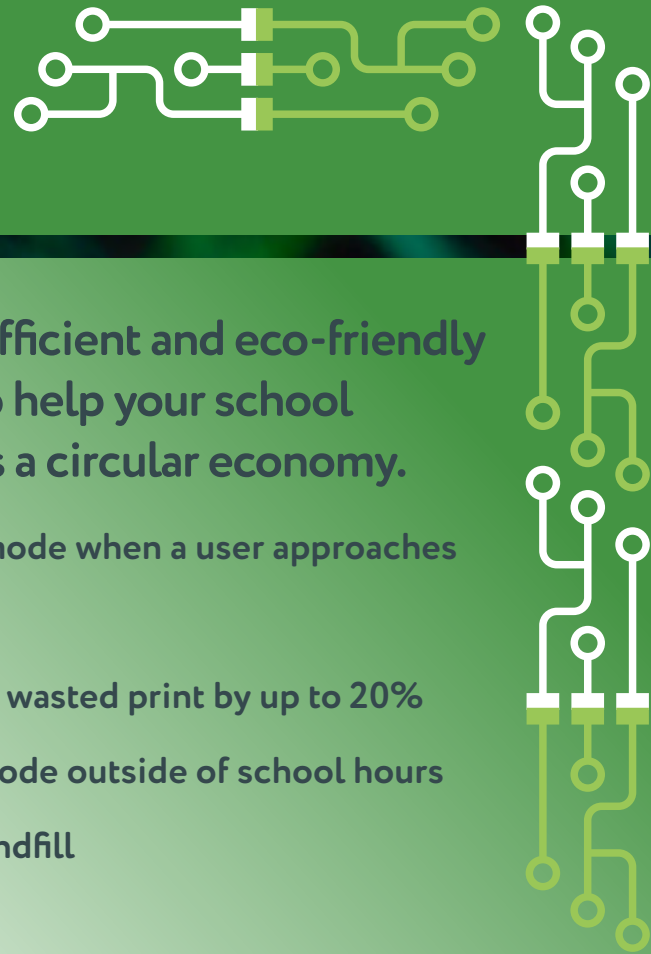

- ④ Cloud based software - eliminate the need for server host
- ④ Integrate multiple devices, software and services
- ④ Digital connectivity across multiple sites
- ④ Make life easier
- ④ Print from anywhere
- ④ Scan to the cloud

How can our MFD team help schools?

- ④ Account management support throughout the lifetime of your contract.
- ④ Our team provide multiple quotes to save you time.
- ④ We provide expert advice on procurement, contracts and suppliers.
- ④ Engineer response time on average 4 working hours.
- ④ 98% average device up-time is maintained across entire fleet.
- ④ Manufacturer certified replacement parts consumables.
- ④ All toner and consumables are provided as part of the contract.

GET IN TOUCH

Supporting schools towards a green future

Our market leading suppliers can offer efficient and eco-friendly print solutions which include features to help your school save money, energy and support towards a circular economy.

- Ⓢ Motion sensors to wake the device from sleep mode when a user approaches
- Ⓢ Lower melt toners to increase energy efficiency
- Ⓢ Management tools such as PaperCut can reduce wasted print by up to 20%
- Ⓢ Eco-timers to shut down or enable low power mode outside of school hours
- Ⓢ Use of recycled parts resulting in less to zero landfill

Our most sustainable MFDs yet

Introducing Sharp's most sustainable range of multifunctional devices. With market-leading specifications, these next generation devices are packed full of features that reduce energy consumption and enhance productivity in blended learning environments.

- Reduces waste – Edge to edge printing & rule based printing
- Cloud connector apps, including a native Microsoft® Teams connector
- Energy saving – Motion sensor power on & low melt toner

Our Managed Print Services (MPS) are tailored to your needs and environment. With the control gained through MPS, you can reduce print volumes by up to 18% without hindering productivity - helping you to improve your environmental impact and reduce costs.

Not all features are available on all models- please check model specifications for more details.

Interactive Touchscreen Tables for Early Years Education

Inspire learning and play with the Interactive Touchscreen Table - Early Years Edition, specifically designed for early years education providers.

A safe, educational and engaging introduction for children to the digital technologies they will encounter at school and beyond.

- Secure access to educational games and apps
- Perfect for mark-making to support handwriting, gross and fine motor skills
- Tiltable screen to support various activities
- 40-point touchscreen enables children to learn and play together
- Inbuilt speakers to allow for audio and music

Our Interactive Tables support Yellow Door Software. Yellow door apps cover key strands of the Early Years Curriculum. Each app gives structure to learn, feedback to encourage and rewards for success.

Managed Services for Business Solutions

CONTRACT REFERENCE	Y20023
FRAMEWORK PERIOD	4 years - 1 st February 2022 to 31 st January 2026
FTS NOTICE	2021/ S 000-017389
FTS AWARD	2021/S 000-032135

What does the framework cover?

As part of a digital transformation and a single provider to support your infrastructure the new Managed Services framework can support the following services:

- Artificial intelligence
- Audio visual solutions management
- Automated financial processing services
- Cloud storage management
- CMM systems and marketing services
- Mobile technologies
- IP networking services
- Server hosting
- IT server management
- Facilities
- Human resources and payroll
- ICT systems management
- Print management
- Reprographic and mail services
- Software – relevant to the service provided software
- Telecommunications supplies and services
- Purchase to pay automation

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ The customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required goods/services within the customers timescales
- ✓ The supplier scored the highest mark for price/quality in the framework evaluation
- ✓ Goods/services required are unique/exclusive to one vendor/supplier
- ✓ Continuity of existing goods/services from an awarded supplier.

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the KCS Procurement Services framework team.

Call off

Determined by the customer by means of selecting the most appropriate supplier based on their ability to meet the immediate need of the customer. This may include, but not be limited to, price, specification, lead time, quality, sustainability and environmental factors.

Improving blended learning with EdTech

We believe that technology plays a key role in schools, supporting teachers to deliver outstanding lessons both online and offline.

Sharp will provide a simple solution, unhindered by technological barriers, facilitating blended learning and full participation from all students. Whether in the classroom or remotely, Sharp can ensure all students have the opportunity to work with their peers without being disadvantaged by their equipment.

Not only can technology tackle inefficiencies, and streamline processes, it can open the possibilities for teaching and learning:

- Enhance engagement in the classroom
- Improve digital literacy ready for the world of work or further education.
- Promote inclusion by making learning materials more accessible

REACH OUT TO US!

Frameworks

Our team of procurement experts create and manage frameworks across twelve categories. Public sector end users benefit from:

- Options of procurement approach so buyers can choose the direction that works for them, whether that's direct award or further competition
- A wide choice of awarded suppliers across multiple frameworks
- Cost-effective procurement which creates savings and delivers improvements
- Access to free procurement advice and support from our dedicated team
- Solutions that drive social value across communities

Fleet Services

We work with our customers to understand their requirements and provide vehicles fit for the job, whether it's a tipper truck or an electric minibus, we always deliver. Our solutions include:

- Vehicle contract hire
- Vehicle daily rental
- Vehicle purchase
- A full vehicle managed service
- Telematics
- Salary sacrifice

MFD

Our specialist Account Managers support schools and public sector organisations with their multifunctional device (MFD) contracts, our customers benefit from;

- Access to multiple brands and suppliers, enabling bespoke configuration
- Terms and conditions which protect customers
- Cost-effective solutions – saving time and money
- Solutions that drive digital transformation in the workplace
- Expert advice on procurement, contracts and suppliers

Travel Management

CONTRACT REFERENCE	Y21005
FRAMEWORK PERIOD	4 years – 1 st July 2021 to 30 th June 2025
FTS NOTICE	2021/S 000-001810
FTS AWARD	2021/S 000-027641

What does the framework cover?

The main purpose of this framework is to provide a service-centred and easy to use online and offline travel booking service, where customers can research, book, and manage their travel requirements along with any additional supporting services that they may require.

Requirements include, but are not limited to, the following applications:

- Booking online and offline
- Rail travel and cross channel rail services
- Air travel domestic, European and international
- Accommodation
- Conference event management and planning
- Venue hire
- Travel visa services
- Other associated services

How to use the framework

Direct Award

Direct award order may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ Customer is satisfied that, following their own due diligence, they can identify the supplier that offers best value for their requirement
- ✓ The supplier is able to supply the required services within the customers timescales
- ✓ The supplier scored the highest mark for price/quality in the framework evaluation
- ✓ Services required are unique/exclusive to one supplier
- ✓ Continuity of existing services from an awarded supplier

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the KCS Procurement Services framework team.

ICT Managed Services and Consultancy

CONTRACT REFERENCE	Y23038
FRAMEWORK PERIOD	TBC
FTS NOTICE	2022/S 000-024692
FTS AWARD	TBC

What does the framework cover?

This framework covers the supply of managed ICT services and consultancy.

This framework is split into two LOTs:

LOT 1 ICT Managed Services

This LOT is for the supply and fit, support and maintenance, systems configuration and management, hybrid or fully managed ICT service, both cloud and on-premise options including:

- ICT support and maintenance
 - On-site support
 - Remotesupport
 - Annual health check
 - Pre ofsted check
 - Routine maintenance
- MIS support
 - Training
- Safeguarding and security
 - Strategy and planning
 - Data storage and back up
 - Networking solutions
 - ICT infrastructure
 - Consultancy
- ICT strategy and planning
 - Connectivity
 - Cloud solutions

LOT 2 ICT Consultancy Services

Technology and associated and related disciplines, including:

- Audit
- Assessment
- Design
- Consultancy and support
- Configuration support
- Cyber security
- Discovery and analysis
- Planning strategies
- Project scoping
- Project management
- Programme management
- Cost modelling
- Operational modelling
- Procurement and supply
- Risk management
- Opportunity management
- Policy reviews and advice
- Cloud solutions
- Server solutions
- Software
- Hardware
- Infrastructure
- Data protection
- Process mapping and optimisation
- Risk assessment/management
- Risk mitigation
- Security

- Cost analysis
- ICT digital strategy development
- Disaster Recovery
- Individual specialists and or team of consultants
- ICT architecture
- Quality and testing
- ICT operations and infrastructure
- Conception development
- Innovation
- Project implementation
- Systems
- Maintenance
- Servicing
- Testing
- Support
- Research, (data and analysis based objective recommendations)
- ICT systems, processes and policies.

How to use the framework

Direct Award

Direct award orders may be placed under this framework provided the customer can meet any one of the following objective conditions:

- ✓ Ability to supply the required service
- ✓ Product or service required is unique/exclusive to one supplier
- ✓ Continuity of existing goods/services
- ✓ Customers own procurement policy value threshold

Further Competition

Customers can re-open competition with all capable suppliers awarded to the framework by sending out a specification containing full details of requirements, and allowing them a reasonable time limit to submit a response.

Full details of how to conduct a further competition and templates are available from the KCS Procurement Services framework team.

Benefits of using LASER's Services

- Industry leading management – of flexible procurement contracts to minimise energy prices.
- Public Sector expertise – operating in this sector to reduce energy spends since 1989.
- Central Purchasing Body – no need to run an OJEU process to use the LASER frameworks.
- Invoice validation – incorrect Supplier invoices are held and queried for errors.
- Public Sector ethos – transparency of our services and fees.
- Continuous improvement – committed to service development and customer satisfaction.
- Flexible solutions – variety of service options available.

Electricity Flexible Procurement 2024 – 2028

FRAMEWORK REFERENCE	Y22009
FRAMEWORK PERIOD	TBC - 30 September 2028
FTS CONTRACT NOTICE	Electricity Flexible Procurement Y22009 OJEU Notice LASER Energy
FTS AWARD NOTICE	Electricity Flexible Procurement Y22009 OJEU Award LASER Energy

What Does the Framework Cover?

Our Flex Electricity framework has been developed through our clear understanding of your needs and challenges when it comes to procuring electricity. It provides a Framework Agreement under which Electricity for Half Hourly, Non-Half Hourly Metered and Unmetered supplies could be purchased flexibly.

The frameworks have been procured in accordance with the Public Contracts Regulations of 2015, as amended (PCR2015). Kent County Council remains the Contracting Authority for all LASER contracts. This permits a public body to access LASER’s frameworks and services without the need to run a separate procurement process to do so.

The framework permits Direct Award to any supplier based on either coming first overall, being your incumbent provider or by winning a particular evaluation section which is of most importance to your organisation. There is also an option to run a mini-tender under the framework should you have specific requirements outside of the specification of the framework and we can help you with this.

How to Access the framework

This new user guide will shortly be hosted on the LASER website. The file can be found here. For more information on the framework and how to access the service please use the link

Consult, Design and Install Dynamic Purchasing System (CDI/DPS)

FRAMEWORK REFERENCE	Y21009
FRAMEWORK PERIOD	18 May 2021 - 02 July 2028
OJEU CONTRACT NOTICE	Y21009 CDI DPS Contract Notice LASER Energy

What Does the Framework Cover?

If your organisation is looking for compliant suppliers to support your journey to net zero, our CDI DPS framework will help you find them.

The DPS focuses on the Consult, Design and Install elements to help you achieve your aspirations covering a range of zero carbon solutions from surveys, planning and management, to solar PV, heat pump systems, battery storage and more. Our Dynamic Purchasing System (DPS) enables you to procure compliantly with a route to market that is continuously evolving by allowing suppliers to join the DPS throughout its lifespan.

The CDI DPS was created to provide you with a procurement route for a very wide range of technical consultancy support to plan and specify activities along with access to expert suppliers and installers of the technology. The framework is arranged into four lots as outlined below:

LOT 1 – SITE SURVEY AND MODELLING

This Lot is designed to help you understand your buildings performance and practical opportunities through surveys and modelling. You will have access to consultants to provide energy and/or carbon related site surveys, audits and assessments.

LOT 2 – ENERGY/SUSTAINABILITY MANAGEMENT CONSULTANCY

If you're looking for high level feasibility and planning of carbon saving programmes, for example the focus is on large projects such as solar farms or complete fleet vehicle programmes. This Lot will enable you to have access to net zero specialist consultants to support the planning and management of this for your organisation.

LOT 3 – TECHNOLOGICAL SOLUTIONS CONSULTANCY

This Lot specialises in providing consultants for specific technical solution design, specification and capability feasibility.

LOT 4 – TECHNOLOGICAL SOLUTIONS DELIVERY

Designed to allow access to suppliers who are capable of supplying and installing low and zero carbon technological solutions.

How to Access the framework

Water

FRAMEWORK REFERENCE	Y22013
FRAMEWORK PERIOD	01 March 2022 - 28 February 2026
OJEU CONTRACT NOTICE	Supply Of Water And Sewerage Services Contract Notice Y22013
OJEU AWARD NOTICE	Supply Of Water And Sewerage Services Award Notice Y22013

What Does the Framework Cover?

We introduced our Water Framework in 2017 to help our non-domestic customers to change their water and wastewater supplier following the opening of the water market to full competition. Our focus is helping our customers to benefit both financially and logistically from this new market.

Our framework focuses on the retailer supply of water and sewerage services and with three different routes to market and a selection of suppliers providing national coverage, it provides everything you need to procure a new water supplier.

Direct Award is possible too, as is procurement through mini-competition or competitive dialogue.

Plus, access to the additional services of AMR provision and Fix and Find water leakage services are also available.

Liquid Fuels

FRAMEWORK REFERENCE	Y22012
FRAMEWORK PERIOD	01 April 2022 - 31 March 2024
FTS AWARD NOTICE	Liquid Fuels FTS Award Notice LASER Energy

What Does the Framework Cover?

If your organisation is looking for compliant suppliers to support your procurement of liquid fuels, our framework will help. We procure all major fuel types for heating and transport purposes, as well as delivering a range of new products and services such as; carbon offsetting schemes, tank monitoring and maintenance, and priority contracts in the event of a fuel shortage.

Our large Public Sector customer profile results in suppliers providing low competitive prices and high levels of customer service with delivery available in all areas of Great Britain.

Please note this Framework is available to all public sector organisations nationally.

Electricity Fixed Term Fixed Price

FRAMEWORK REFERENCE	Y19022
FRAMEWORK PERIOD	19 December 2019 - 18 December 2023
OJEU AWARD NOTICE	Electricity Fixed Term Fixed Price Framework Y19022 OJEU Award LASER Energy

What Does the Framework Cover?

This framework allows the Fixed Term Fixed Price procurement for the Supply of electricity for Non Half Hourly Metered, Half Hourly Metered and Unmetered Supplies. Fixed procurement is the method of going out to the energy supply market and requesting a contract for 100% of your requirement for a set duration at a single point in time. The contract price would be influenced by suppliers’ risk and business appetite as well as, more significantly, the wholesale market price at that point in time. Fixed procurement is ideal if you require long-term price certainty as it offers straight forward pricing.

How to Access the framework

LED Lighting

FRAMEWORK REFERENCE	Y19018
FRAMEWORK PERIOD	17 May 2020 - 31 May 2024
OJEU CONTRACT NOTICE	LED Lighting Y19018 OJEU Notice LASER Energy
OJEU AWARD NOTICE	LED Lighting Y19018 OJEU Award LASER Energy

What Does the Framework Cover?

If you're wanting to upgrade your lighting system and want to use trustworthy and compliant suppliers to help you not only source your new light fittings but potentially install it too, then our LED Framework is here to provide the pathway to help you achieve this.

This framework covers all major product manufacturers and significant volume discounts with installers capable of delivering a nationwide service.

We have two options available on this framework depending on your requirements, and can help you select the most appropriate route for your requirements.

Managed Access – This is where we can do all the hard work for you by managing the entire process tailored according to your organisation's needs. From offering free site surveys, production of a project specification with energy saving calculations, to assisting with the business case, procurement of fittings and installers, project managing the installation including health & safety requirements, and acting as Principal Designer on the project on your behalf.

Direct Access – For those customers who wish to develop and manage their own projects directly there is the option to access the framework directly. By taking this option you will have responsibility for managing all the steps such as specifying the products you require, agreeing the pricing and ensuring that your organization is achieving value for money.

Lot 2 Additional Services

FRAMEWORK REFERENCE	Y18003
FRAMEWORK PERIOD	13 February 2019 - 30 September 2024
OJEU CONTRACT NOTICE	Electricity Flexible Procurement Y18003 OJEU Notice LASER Energy
OJEU AWARD NOTICE	Electricity Flexible Procurement Y18003 OJEU Award LASER Energy

What Does the Framework Cover?

LASER’s Flexible Gas and Electricity Procurement Frameworks for 2020-2024 provide an OJEU compliant route to arranging procurement and supply of Gas and Electricity. In addition, through the LOT 2 option there are opportunities to take advantage of a number of additional services relating to energy usage, storage, savings and other innovative industry solutions to help manage your energy category and reduce costs.

Participating Authorities wishing to access additional services independent of their supply arrangement may source them through the Additional Services LOT. A mini competition can be run under the framework in order to select a supplier most suited to the customer’s need. LASER can assist in writing and/or running the mini tender process.

For further details on how to do this, please view our LOT 2 Procurement Process Guide found at the bottom of this page.
