- Industry leading technical skills in Microsoft Teams Contact Centres with a unique service wrap which includes a full Business Continuity Plan
- Proven UK and global Microsoft teams Phone System and Contact Centre delivery and support capability
- Trusted partner, employing a "can do" proactive approach and agile attitude, ensuring clients see true value in their investment in Microsoft technologies

Symity work closely with clients to uncover their current business requirements and future aspirations, identifying use cases and mapping customer journeys, utilising Microsoft native Contact Centre solutions to drive efficiencies and effectiveness across their organisation.

We also help customers rethink the Art of the Possible regarding their business communications across all modalities (e.g. voice, email, social media, webchat, chatbots), ensuring collaboration, flexible and remote working can be offered to traditional and back-office employees who use Contact Centre technologies.

For this purpose, we have developed a unique workshop: The Art of the Possible. It offers clients in-depth guidance, consultancy and tangible outcomes to power their Microsoft 365 journey through the utilisation of certified Microsoft Contact Centre platforms.

Our goal is to help our clients see significantly improved customer service and experience through more efficient handling of communications and interactions, with seamless integration to Microsoft Teams, whether through the Connect or Extend certification models.
