

TACTICAL FOOTWEAR RANGE

WHY CHOOSE BLACKROCK?

Blackrock has over 20 years' experience in designing and manufacturing footwear and our products keep hundreds of thousands of people safe every year.

As a longstanding member of the British Safety Industry Federation, we pride ourselves in ensuring that our products perform to the standards people need to help them do their jobs, as well as the service we offer our customers. Rest assured: your safety is our business.

CERTIFICATION

Blackrock works with leading internationally accredited organisations to test and certify our products to the appropriate national and international safety standards during development, long before they go into production.

DUE DILIGENCE

A certificate doesn't mean the end of testing – it means the start of quality assurance, and through both our in-house QA team and internationally recognised third parties we continuously check our products to ensure the latest batch is as good as the first.

STOCK

With over 150,000 sq ft of UK warehousing, you can be sure you can get what you want, when you need it. We offer parcel and pallet shipping options to all corners of the UK and Ireland, with rapid order turnaround.

SUPPORT

We can offer various levels of support to help you sell to your customers, including joint visits, bespoke emails, product training and in-store solutions.

Developed in conjunction with the emergency services, transport, postal and security sectors, Blackrock Tactical Footwear has been engineered to blend **performance, comfort and style**. Lightweight, metal-free, anti-static and with a **penetration-resistant midsole** as standard, all products also feature our **unique HexaGrip sole**, designed to give **outstanding grip** and certified by the UK government's HSL laboratory.

PROTECTION & COMFORT LAYER BY LAYER

WATERPROOF BREATHABLE MEMBRANE

Keeps feet dry even in standing water (selected products).

WEATHERPROOF LEATHER/PU UPPER

Comfortable, breathable, durable and easy to keep clean.

ENERGY-ABSORBING EVA HEEL

Minimises heel stress by dissipating the impact of each step.

EAZISTEP COMFORT INSOLE

Breathable, cushioned PU/mesh padding that gives all day comfort.

SHOCK-ABSORBING PU MIDDLE LAYER

Lightweight and flexible to reduce foot fatigue.

PENETRATION-RESISTANT MIDSOLE

Lightweight, metal-free composite material.

HEXAGRIP ULTRA SLIP-RESISTANT RUBBER OUTSOLE

Outstanding grip, far beyond standard slip ratings, to keep you on your feet. Rated 4-star on the UK government HSL GRIP test.

STAND FIRM STAY SAFE

Engineered to give outstanding grip, HexaGrip is unique to Blackrock. With a hexagonal rubber tread pattern that maximises the surface area for grip and a network of drainage channels that disperse water, HexaGrip keeps you on your feet even in the toughest conditions.

ENHANCED COMFORT & PROTECTION

TRACTION CONTROL FOR FEET

HexaGrip is certified by the UK government's HSL laboratory with a 4-star GRIP rating, far beyond standard slip ratings. The ultimate slip resistance for footwear, the GRIP scheme uses rigorous, scientific testing to measure and grade the sole's performance.

MILITARY GRADE TESTING

To find out how HexaGrip stands up to extreme use, it was tested on the pedatron, a specialist stepping machine used to test the durability of military footwear. After one million continuous steps on the pedatron, HexaGrip still achieves a slip rating in excess of SRC, the highest slip rating found on safety footwear.

EAZISTEP

The EaziStep insole is made from a lightweight, ergonomically designed PU/mesh material that gives all day comfort and relieves tension in areas vulnerable to impact and stress such as the ball of the foot and heel area.

BLOOD BORNE PATHOGEN RESISTANT

All Blackrock tactical styles give independently certified protection against blood borne pathogens, keeping the wearer safe from infection.

STANDARDS

FOOTWEAR THAT KEEPS YOU ON YOUR FEET

Each wearer environment has its individual requirements and a minimum level of basic protection, but occupational and safety footwear can have a wide range of features over and above these that can be just as important in ensuring it is fit for purpose.

Features are denoted by letters shown in the table below and specific ratings, eg. O3 or S3, have a set of compulsory features denoted by ✓. A range of non-compulsory features can be added to further enhance a product's performance for increased protection, comfort, or both and these are detailed on each Blackrock product's feature page.

Occupational footwear

Occupational footwear does not feature a toe cap and is worn where there is no risk to the foot through either impact or compression. The industry standard is EN 20347:2012 and Blackrock occupational footwear offers enhanced protection on all styles in the form of a metal-free midsole, protecting feet against injury from objects penetrating from below.

Safety footwear

Safety footwear shares features with the Occupational styles plus the enhanced protection of a steel or metal-free toe cap that guards against the dangers of impact from falling objects and compression. The industry standard is EN20345:2011, to which all Blackrock products with a toe cap conform.

Rubber or polymeric

Leather or other material other than all rubber or polymeric

Rubber or polymeric

Slip Resistance

SRC (SRA + SRB)		Slip Resistance	
		Test Floor	Minimum Value
SRA	Ceramics	FLAT	≥ 0.32
	Lubricant Water + Detergent	HEEL Contact Angle	≥ 0.28
SRB	Test Floor Steel	FLAT	≥ 0.18
	Lubricant Glycerin	HEEL Contact Angle	≥ 0.13

FEATURES KEY

ANTI-STATIC

Protection against spark ignition when working with flammable materials and gases

FUEL OIL RESISTANT

Resistant to most mineral oils, leaving no staining or residue which can result in slips

BLOOD BORNE PATHOGEN RESISTANT

The upper materials are independently certified to give protection against blood borne pathogens, keeping the wearer safe from infection

ENERGY ABSORBING HEEL

Reduces foot, leg and lower back fatigue

METATARSAL PROTECTION

Metatarsal technology which absorbs impact from falling objects

HEAT-RESISTANT OUTSOLE

The sole unit has been tested to protect against temperatures up to 300°C, for use in extreme conditions

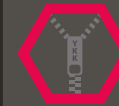

WATER RESISTANT

Uppers that repel water for a short period of time

SAFETY TOE CAP

Protection against impact force of up to 200 joules and compression of the toe area

YKK ZIP

YKK side zip for easy put-on and removal

PENETRATION-RESISTANT MIDSOLE

Protection from objects that may otherwise penetrate from below

SLIP-RESISTANT SOLE

SRC slip resistance, the highest level of slip resistance reducing the amount of slips and trips

ESD (ELECTROSTATIC DISSIPATIVE)

ESD provides low electrical resistance to help protect against uncontrolled electrostatic charge, specifically sensitive electrical devices

WATERPROOF

Uppers that incorporate a waterproof membrane that repels water for a significant period of time

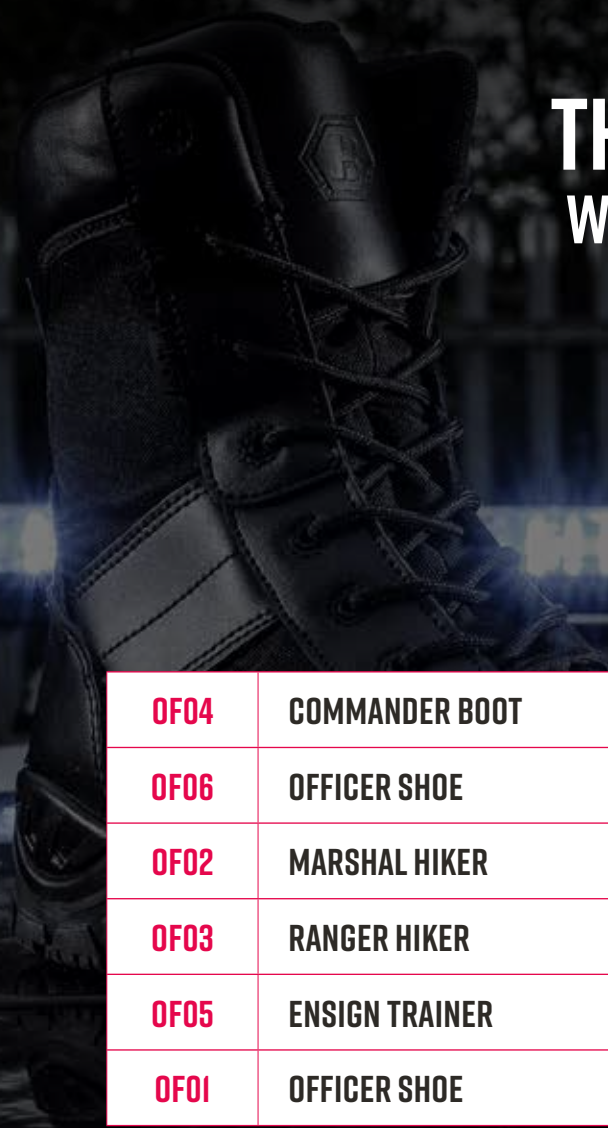

METAL-FREE (SCANNER SAFE)

All metal components such as midsoles and zips are substituted with lightweight composite materials

Additional Features

THE MOST COMFORTABLE BOOTS I'VE EVER WORN FOR MY JOB. I'M EX-MILITARY AND THESE ARE MORE COMFORTABLE THAN ANYTHING I WAS ISSUED WITH THEN.

POLICE OFFICE - STRATHCLYDE

I'VE FOUND THE FLEXIBILITY AND HOW LIGHTWEIGHT THEY ARE TO BE FANTASTIC - IDEAL ESPECIALLY FOR DRIVING AND AS COMFORTABLE NOW AS THE FIRST DAY I WORE THEM.

PARAMEDIC - MANCHESTER

THIS BOOT HAS BEEN EXTREMELY COMFORTABLE AND ROBUST. EASILY CAPABLE OF ANY POLICING DUTIES.

INSPECTOR - WEST YORKSHIRE POLICE

I COVER 10 MILES A DAY ON MY POSTAL ROUND IN ALL WEATHER CONDITIONS. I FOUND THESE GAVE BETTER STABILITY THAN MY PREVIOUS BRAND, KEPT MY FEET DRY AND NEEDED NO BREAKING IN.

POSTMAN - LANCASHIRE

THESE BOOTS ARE BRILLIANT FOR ALL WEATHER CONDITIONS AND HAVE PROVIDED EXCELLENT GRIP AND WATERPROOF PROPERTIES IN THE SNOW AND RAIN. THE BEST I'VE WORN WHILST BEING IN THE INDUSTRY.

FIRE SERVICE - OLDHAM
