

AirPlus Corporate Card with Apple Pay

Tap | Pay | On your way!

AirPlus now offers a new payment channel for your employees' purchases on the go: Apple Pay! Business travellers can use the AirPlus Corporate Card on Apple Pay with no additional costs or administrative efforts. It's secure, neither storing nor sharing personal card data, and has no influence on your statements or travel policies. Alongside chip, PIN, and contactless payment, Apple Pay extends your AirPlus Corporate Card acceptance coverage.

AirPlus Corporate Card users benefit from:

- > Fast purchases
- > Easy use
- > Secure payments
- > State of the art purchase solution

The safer, more private way to pay

Every time your business travellers pay during a trip, Apple Pay uses a device-specific number and a unique transaction code. The full card number is never stored on devices or on Apple servers, and it can't be shared with merchants. Apple Pay doesn't keep transaction information that can be tied back to the company, ensuring all purchases are private.

How employees can add the AirPlus Corporate Card to Apple Pay

Your employees can begin using Apple Pay as soon as they add the AirPlus Corporate Card to the Apple Wallet. This can be done directly in the Wallet App or in the AirPlus Mobile App from the [App Store](#).

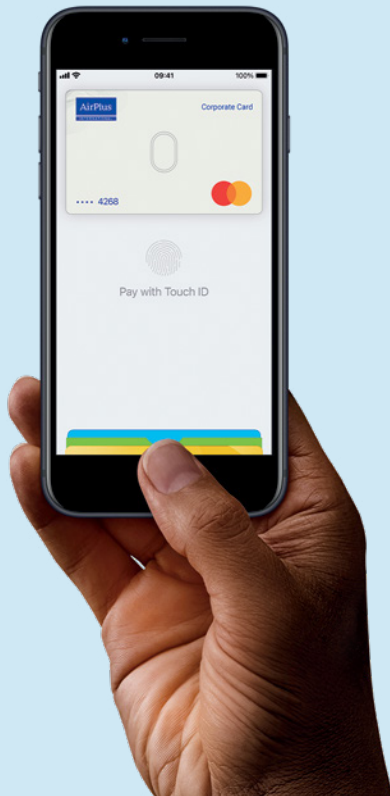

The quick and easy setup:

- > On iPhone, open the Wallet app and tap the "+" sign in the top right and follow the simple instructions.
- > For Apple Watch, open the Apple Watch app on your iPhone and select "Wallet & Apple Pay," then tap "Add Credit or Debit Card."

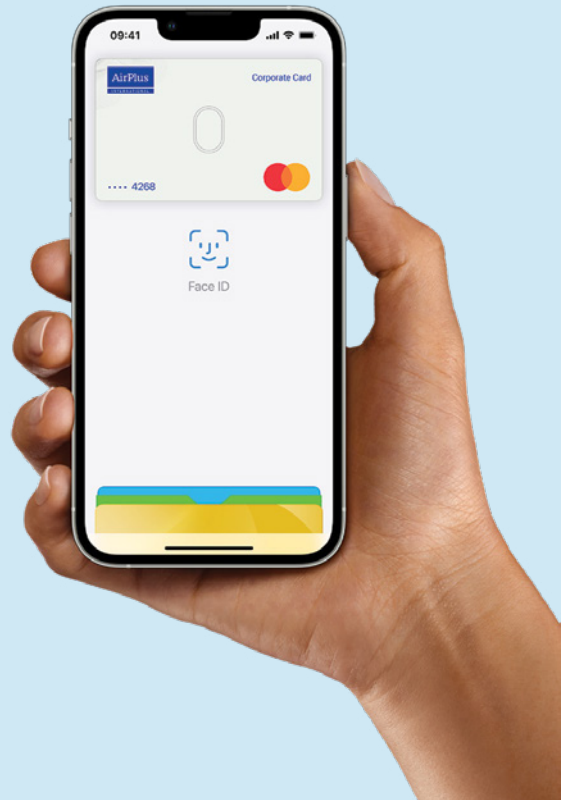

For a list of compatible Apple Pay devices, see [support](#).

Paying with Face ID or Touch ID

For Touch ID, hold your iPhone near the reader with your finger on Touch ID.

To pay with Face ID, double-click the side button, glance at your screen, then hold your iPhone near the reader.
