

TRAXO

The world's only real-time visibility solution for corporate travel management.

Detect and eliminate the leaks in your travel program. Automatically see travel bookings made through any channel in one place.

Modern travel programs must have complete data on all bookings.
40% of bookings occur outside of approved channels. Protect your travelers in three steps.

1. DETECT

Automatically identify all travel program leakage.

2. CAPTURE

Capture all bookings before travel occurs.

3. CORRECT

Optimize your program for improved safety and savings.

Finally, full program visibility.

With Traxo, you will see all bookings in real-time—no matter where your business travelers book their trips. Traxo also makes your data highly portable, allowing you to fulfill your duty of care obligations, monitor rates, and share details on all trips with your travel management partners.

Your time is valuable. Don't waste it on reporting.

Traxo gathers and standardizes booking data so you can focus on more critical tasks. Employees can keep booking travel where they do today—no training needed.

Embrace modern travel management.

Deploy in one afternoon, streamline your workload, and future-proof your program. Traxo enables teams to address today's top priorities, including **NDC**, **ISO 31030** and more.

Eliminate Blindspots

Deploy Traxo to continually & automatically audit your travel program.

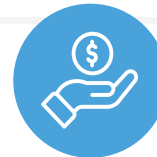

Drive Compliance

Uncover the original source of every non-compliant booking & take action.

Minimize Risk

Always know your travelers' location & plans, for improved traveler safety.

Generate Savings

Save money with data-backed price assurance, re-shopping & negotiations.

Trusted by industry leaders around the globe.
