# Experience The New Comfort

The world's most relaxing cabin space

Our flagship Boeing 777-300ER was reborn inside to deliver the world's most relaxing cabin space for long international flights.

Now every passenger in First Class and Business Class can enjoy their own private-room style seat - a first for any Japanese airline. Extra space and innovative features make flights extremely comfortable. You can close the door for total privacy or connect the adjacent seat to share the pleasure of traveling.

Designed by British design company Acumen under the supervision of world-renowned Japanese architect Kengo Kuma, each space delivers the latest advances in Japanese style for ultimate satisfaction 10,000 feet in the sky.

It's a new approach to flying that meets every passenger's needs.

FIRST  
CLASS

THE  
Suite

## Five-star hotel luxury

From the moment you close the door, this relaxing space feels like a private suite at a five-star hotel. Its exclusive feature-rich comfort is reserved for a maximum of eight special guests. Experience ultimate relaxation beyond compare.

### LAYOUT

#### Ultimate relaxation for eight

The best area in the front of the cabin is reserved for eight special guests. Partitions between the center seats can be lowered to create private twin rooms for sharing travel pleasure with a companion.

The experience is so relaxing you'll forget you're in the sky.

### CONSOLE

#### A roomy and innovative private space

Dine, relax and sleep in comfort. The seat is ANA's largest, with a refined texture. Every detail is thoughtfully designed, from fabrics and colors to convenient console and lighting.

### MONITOR

#### 43-inch 4K monitor

We're the first airline in the world to provide passengers with a personal 43-inch 4K monitor. Enjoy super high-definition 4K content, as well as a USB power port and universal power supply for PCs. Note: 4K broadcasts will gradually become available.

### LIGHTING

#### Practical premium lighting

Panasonic's Premium Seat Lighting makes the space cozy for dining, reading and more. It also provides refreshing morning wakeups.

## BUSINESS CLASS

# THE Room

## Feel right at home

Once you close the door, 'THE Room' is all yours. Enjoy the comfort of home without anyone disturbing you until just before landing. Each private space provides convenient aisle access, a comfortable seat of world-class width and a door for relaxing privacy.

### NEW LAYOUT

#### New layout with direct aisle access

All Business Class seats are wide with a door that provides direct aisle access. By alternating between forward- and rear-facing rows, the new layout provides the largest, most comfortable Business Class private space of any airline.

### WIDE SEAT

#### The world's widest Business Class seat

ANA took advantage of the Boeing 777-300ER's wide body to provide a seat nearly twice the width of its previous Business Class seats. Each private space provides a door, and the partition between center seats can be lowered for space sharing by families and couples.

### MONITOR

#### 24-inch 4K monitor

We're the first airline in the world to provide passengers with a personal 24-inch 4K monitor. Enjoy super high-definition 4K content, as well as a USB power port and universal power supply for PCs. Note: 4K broadcasts will gradually become available.

### LIGHTING

#### Soft lighting in a relaxing space

You can finely adjust the color and position of the light for dining, reading or sleeping to recreate the comfort of home. A setting is also provided for a refreshing morning wakeup.

## PREMIUM ECONOMY

### Greater comfort and relaxation

The reborn cabin is more relaxing than ever with a generous 38-inch (approx. 97cm) seat pitch for your comfort. Colors are minimal, but fabrics richly vary and exude Japanese character in every detail. Enjoy movies and music at your convenience on the world's largest touch-panel personal monitor (15.6 inches) in Premium Economy Class. A leg rest, footrest, universal power supply and USB port are also provided.

- ◎Class leading 15.6-inch touch panel personal monitor
- ◎Large table that swivels 90 degrees
- ◎Leg and foot rests, 6-way adjustable headrest
- ◎Stowage space for cell phones and other small items
- ◎PC power supply and USB port

## ECONOMY CLASS

### Slimmer, lighter, more comfortable seats

The seats are spacious and comfortable with a larger 34-inch (approx. 86 cm) seat pitch. Colors are minimal, but fabrics richly vary and exude Japanese character in every detail. The world's largest Economy Class touch-panel personal monitor (13.3 inches) lets you enjoy movies, music and tablet-like operation. Other conveniences include a 6-way adjustable headrest, universal power supply and USB port.

- ◎34-inch(approx. 86cm) seat pitch
- ◎13.3-inch touch-panel personal monitor (world's largest in Economy Class) (11.6 inches in front row)
- ◎6-way adjustable headrest
- ◎Universal power supply and USB port

# EXPERIENCE Japan

## The finest Japanese hospitality

Through ANA ingenuity we upgraded everything to give passengers the comfort they seek.

From takeoff to landing, enjoy the best of Japanese hospitality.

### SEAT CUSHION

Nishikawa-ANA luxury

#### Greater sleeping comfort

The seat incorporates special urethane cushioning co-developed with Nishikawa Co., Ltd. to raise sitting and sleeping comfort while evenly dispersing body weight for ideal sleeping posture.

### ENTRANCE

#### Warm greetings

Your enjoyment begins the moment you step aboard. Warm greetings and a specially designed entrance lift your spirits at the start of your journey.

### BAR COUNTER

#### Monitor-equipped bar counter for your pleasure

A monitor-equipped bar counter in Business Class features a refrigerator with wines and other drinks you can freely enjoy whenever you're in the mood.

### IN-FLIGHT ENTERTAINMENT

#### Optimized for your entertainment

Recline your seat and adjust the lighting via monitor touch screen to fully enjoy 4K resolution video entertainment in First Class and Business Class. As in all classes, takeoffs and landings are displayed live from outboard cameras and the inflight service schedule can be checked any time after takeoff.

### OTHER

#### Universal power supply and USB port

All passengers in all classes can power their portable devices (laptops, tablets, etc.) and not worry about their batteries running out.

As a member of ANA Mileage Club, you can earn miles by flying with ANA, Star Alliance and other partner airlines. Then redeem your miles for great benefits like award tickets.
