

Luxembourg, 30 August 2023

## April 2024, from Luxembourg to Manchester with Luxair

*Summer 2023 might not be over yet, but that does not stop Luxair from already thinking about strengthening its offer for the next summer season. The airline is announcing its brand new destination starting from April 2024: Manchester, a youthful, dynamic, and cultural city in the north of Great Britain.*

As of 1 April 2024, and with three flights per week on Mondays, Wednesdays, and Fridays, Luxair will invite its passengers to discover the cosmopolitan and iconic city of Manchester, in the United Kingdom. This new route reflects Luxair's commitment to providing travellers with convenient and high-quality connections to popular destinations across Europe and beyond its borders. Alongside London, already served by Luxair, Manchester will further enhance the connectivity between Luxembourg and the United Kingdom.

The flight frequencies and days of operation are well-suited for travellers on business purposes. However, Manchester, which is renowned for its rich industrial heritage, cultural diversity, and thriving artistic scene, will also easily satisfy the desires of passengers seeking short getaways, less than two hours of flight from Luxembourg.

Sales are open since Wednesday, 30 August. Special launch offers are available until mid-September, to allow customers eager to (re)discover the beautiful city of Manchester to do so. For passengers who prefer to travel light, *Light* tickets start from 99€ the roundtrip. Those who wish to enjoy Luxair's full range of premium services can book the *Smart* fare, for which roundtrip flights start from 129€. Lastly, for even more advantages, flexibility, and comfort, the *Flex* fare is available from 199€.

Bookings can be made on [www.luxair.lu](http://www.luxair.lu), in the Luxair Travel Stores and in travel agencies.
