INTRODUCTION

THE WORLD KEEPS TURNING.
BUSINESS KEEPS MOVING.

are you keeping up?

At CTM, we know the only way to get ahead is to look ahead. That's why we're building travel solutions that solve tomorrow's travel challenges today.

You need smart tools that won't just get you there but will **get you ahead of the pack**; solutions that support you to perform, achieve, innovate and generate wherever your business takes you.

More than ever before businesses are looking to **reconnect, rebuild, rediscover and reimagine** a future unhindered by restrictions. Smart, intuitive and future-focused travel technology is key to breaking down barriers, connecting people, powering recovery, driving growth and paving the way for a limitless future.

It's time to move forward, to get ahead, to power up and perform.

OVERVIEW

FOR BUSINESS TRAVEL THAT'S

simple, fast, safe, sustainable

Travel can be complex. The travel management experience shouldn't be.

At CTM, we've developed an ecosystem of integrated, intuitive travel tools that take the complexity out of travel for every user at every step of the journey.

Whether you're a Travel Programme Manager, a Travel Arranger or business traveller, you can rely on CTM to deliver the most enjoyable, user-friendly, future-focused travel tools that make business travel better; simpler, faster, safer and more sustainable than ever before.

Enterprise-grade innovation at start-up speed

Global vision, local delivery

Maximum choice, compliance and customisation

OVERVIEW

FOR BUSINESS TRAVEL THAT'S

simple, fast, safe, sustainable

Travel can be complex. The travel management experience shouldn't be.

At CTM, we've developed an ecosystem of integrated, intuitive travel tools that take the complexity out of travel for every user at every step of the journey.

Whether you're a Travel Program Manager, a Travel Arranger or business traveller, you can rely on CTM to deliver the most enjoyable, user-friendly, future-focused travel tools that make business travel better; simpler, faster, safer and more sustainable than ever before.

Enterprise-grade innovation at start-up speed

Our customers need fast and effective solutions that meet the needs of a rapidly changing travel landscape.

That's why we invest in developing our own proprietary travel tools built on the most modern technology architecture and using agile development methodologies to ensure you've got access to the tools you need, fast.

As a CTM customer, your technology choices are not restricted to legacy third-party tools or slow-moving roadmaps. We build our tools hand-in-hand with our customers. Your feedback drives our development roadmap and continuous feature iteration, ensuring the fastest path to success and delighting every user along the way.

Global vision, local delivery

Maximum choice, compliance and customisation

Enterprise-grade innovation at start-up speed

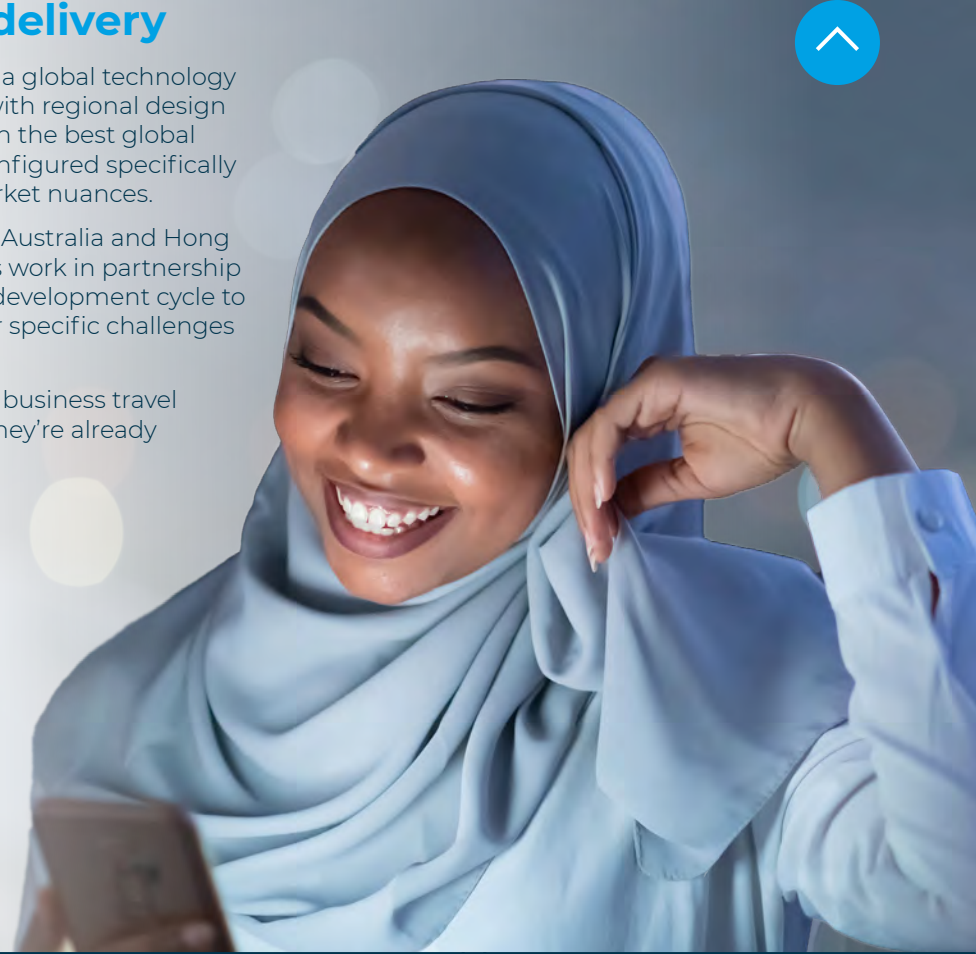

Global vision, local delivery

Maximum choice, compliance and customisation

Every feature and innovation built by CTM is designed as its own micro-product with the ability to be plugged in to our proprietary tech stack, integrated with and work alongside a range of third-party tools to give you incomparable choice, speed, usability and data aggregation based on your unique business objectives and preferences.

ECOSYSTEM

global travel ecosystem

BUILT FOR THE FUTURE

In a complex travel environment, it's critical that your employees are surrounded by the technology and human expertise to make their trip as seamless, safe and effective as possible.

When you travel with CTM, you can rest assured knowing that you're supported by an always-on travel ecosystem working hard behind the scenes to support your every move.

From pre-trip planning and booking to in-trip travel experiences, post-trip reporting and reconciliation, CTM's technology suite provides a frictionless and seamlessly integrated ecosystem for all your travel management needs today, tomorrow and into the future.

ECOSYSTEM

PRE-TRIP

profile management

Store and manage your travellers' profiles and travel preferences in a centralised profile management tool, integrated with your online and offline booking processes to deliver speed, accuracy and an enhanced traveller experience every time.

ECOSYSTEM

PRE-TRIP

restrictions and requirements

Arm your team with the most up-to-date and accurate travel advice regarding national and regional border restrictions, vaccination and testing requirements, quarantine measures and health data with the CTM COVID Hub - your critical tool for pre-trip planning.

ECOSYSTEM

PRE-TRIP

fare forecasting

Flexible travel plans can deliver significant cost savings. Take the complexity out of multiple searches with CTM's Fare Forecaster. Quickly and easily view the best time to travel across multiple days in a single search, incorporating your corporate travel policy requirements and negotiated travel deals.

ECOSYSTEM

PRE-TRIP

risk assessment

Maximise travel confidence, minimise risk and avoid cost wastage by identifying potential risks prior to booking. The CTM Portal provides a central source of real-time risk intelligence via an interactive colour-coded global map, highlighting risks by country, risk rating or by your proposed travel itinerary. Download and share country-level risk reports with your travellers for greater peace of mind.

ECOSYSTEM

PRE-TRIP

approval

Bring your travel approvals into the 21st century with our sophisticated, customisable multi-level pre-trip approval tools. CTM Approve gives your travel team greater control of their travel budget while reducing risk for your travellers. Design a customised approval workflow specific to your business's needs and objectives, send and approve requests via any device for speed and efficiency, and jump seamlessly into the online booking environment to complete your transaction. We take pre-trip approval to new levels of maturity.

ECOSYSTEM

PRE-TRIP

book safely and sustainably

Book your business travel with ease and efficiency knowing you've got access to the biggest range of travel content at the best available prices, all in one place. Our online booking tools deliver the most intuitive and efficient booking experiences and access to supplier health, safety and sustainability metrics and carbon offset capability at the point of sale to support greater safety and sustainability for your travel programme.

ECOSYSTEM

IN-TRIP

risk alerts

When you're on the road you need timely, reliable and relevant travel advice delivered straight to your fingertips to drive safe and informed travel decisions. CTM Risk Alerts identify and communicate emerging travel risks and disruptions relating to your travel plans as they happen, via SMS or email. You can even verify your safety status in a single click.

ECOSYSTEM

IN-TRIP

itinerary updates

In today's fast-changing travel environment, make sure you're armed with the latest updates to your travel itinerary to keep you one step ahead. From online check-in to gate changes, cancellations to schedule changes, you'll be kept in the know at every step of your journey.

ECOSYSTEM

IN-TRIP

book on-the-go

Travel isn't always predictable. Sometimes you'll need the flexibility to control your travel experience and make bookings on-the-go. With CTM Mobile you can book flights, hotels and car hire on your phone, anytime - all within your corporate policy and preferred supplier deals. CTM Mobile puts maximum control and convenience at your fingertips.

ECOSYSTEM

IN-TRIP

destinaton insights

No matter where your business takes you, travel like a pro with the CTM Mobile app. Your ultimate travel companion, CTM Mobile puts local insights, weather reports, maps and currency conversion tools in the palm of your hand.

ECOSYSTEM

POST-TRIP

expense

Seamlessly integrate enhanced travel data with your chosen expense management system to provide ease of reconciliation and a complete picture of your total travel expenditure.

ECOSYSTEM

POST-TRIP
report

Access all your travel programme's data in one place. Enjoy intuitive dashboards or dissect granular reports to identify savings opportunities, explore policy recommendations, understand sustainability and your employees' wellbeing insights. The CTM Data Hub provides all your travel programme's performance insights all in one place in an intuitive, engaging and easy-to-use format.

ECOSYSTEM

POST-TRIP

carbon offset

Understand and offset the carbon impact of your travel program with CTM's Climate+ programme. Access detailed sustainability insights across your flights, hotel and car hire activity, by trip and traveller, and offset the carbon emissions of your travel activity through a range of global sustainability projects.

ECOSYSTEM

BEHIND THE SCENES

data aggregation

CTM's proprietary technology architecture underpins every customer touchpoint, online and offline, to enable a seamless flow of travel data across every aspect of your travel programme. Your travel data is managed with the highest levels of security and integrity, and used responsibly to deliver powerful, actionable travel programme insights while driving highly personalised travel experiences at every step of the travel management experience.

ECOSYSTEM

BEHIND THE SCENES

itinerary monitoring

From the minute you book your travel arrangements to the moment you get home, your travel itinerary is constantly monitored for updates, reschedules, delays and cancellations, and communicated to you and your travel team to reduce any impact on your productivity, safety and performance.

ECOSYSTEM

BEHIND THE SCENES

risk monitoring

Supporting your every step, a team of travel risk management experts are working around the clock to keep your travels on track. With 24/7 monitoring of breaking developments from local, national and global sources around the world, including government travel advisories, law enforcement, emergency services, security forces and social media sources, you can travel safe in the knowledge that your risk exposure is being monitored at every moment.

ECOSYSTEM

BEHIND THE SCENES
re-shopping

Even after your booking is confirmed, our team and technology continues working hard behind the scenes to price-check your services to identify further savings. Our global network, partnerships and negotiations strive to find ongoing savings on your itinerary so you know you've got the best deal no matter when you book.

ECOSYSTEM

BEHIND THE SCENES

content aggregation

The CTM Content Hub aggregates global and regional travel content from the widest range of sources including GDS, NDC, supplier direct APIs and third-party OTAs, and serves up the most relevant and policy compliant products and offers seamlessly within your chosen booking channel.

THE NEXT GENERATION OF TRAVEL BOOKING

Lightning

Lightning is CTM's proprietary online booking tool, designed to balance everything your travellers want with everything your business needs.

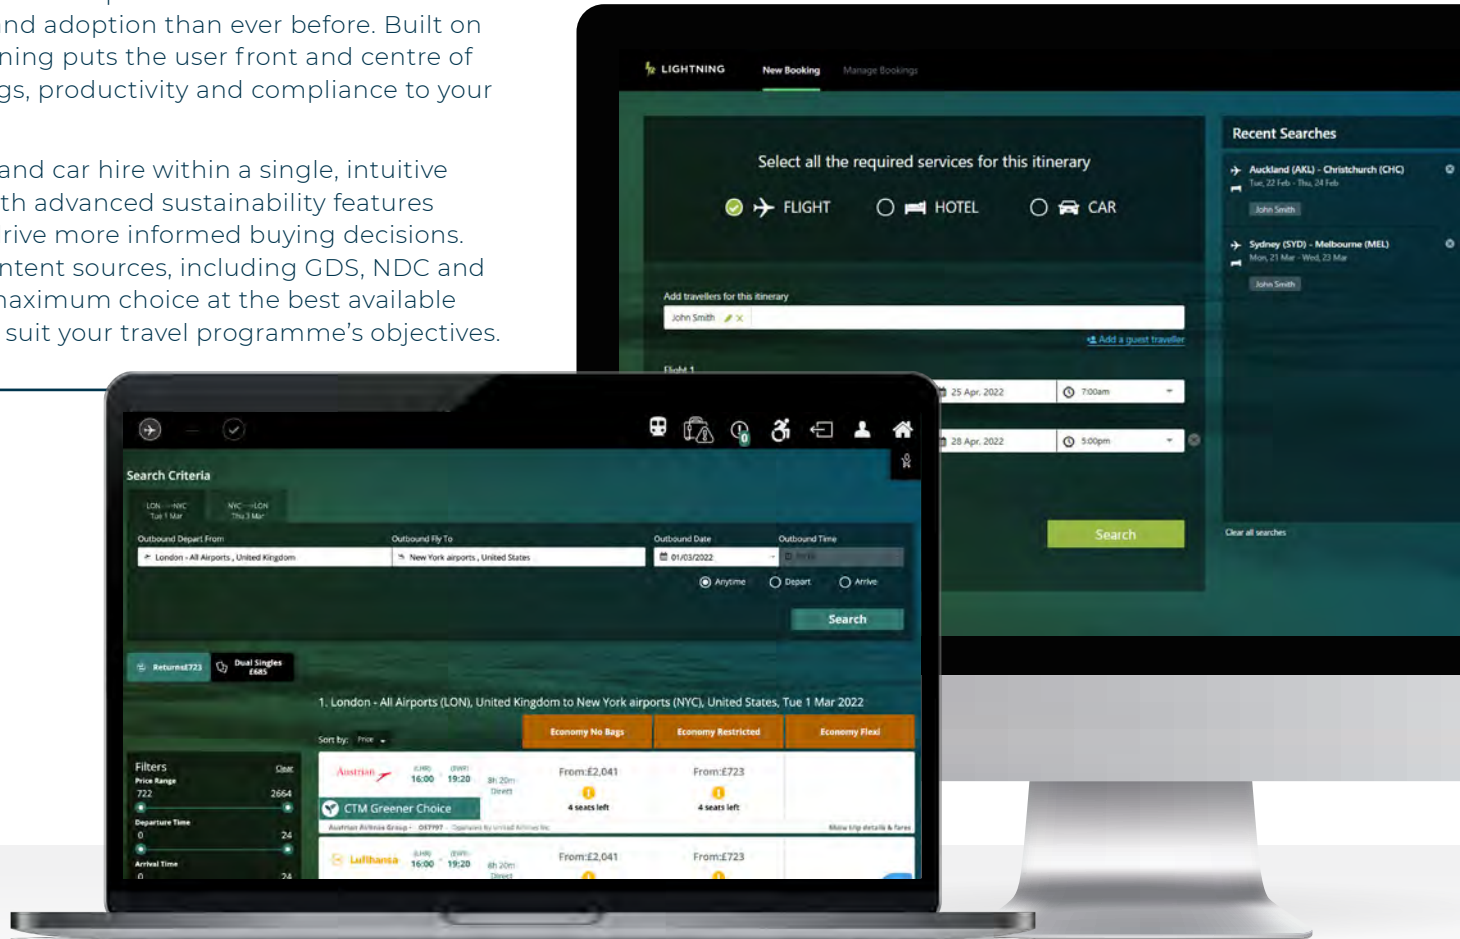

Lightning is the first corporate online booking tool to replicate the consumer travel booking experience, driving greater efficiency and adoption than ever before. Built on CTM's proprietary technology framework, Lightning puts the user front and centre of the booking experience to deliver greater savings, productivity and compliance to your travel programme.

Book the best corporate deals on flights, hotels and car hire within a single, intuitive and easy to use booking platform, integrated with advanced sustainability features and airline and hotel health and safety data to drive more informed buying decisions. Lightning aggregates content from multiple content sources, including GDS, NDC and third-party sources, to provide your team with maximum choice at the best available rates, and enables heightened customisation to suit your travel programme's objectives.

Features:

- Book air, hotel and car in less than 90 seconds
- Integrated approvals
- COVID-19 health and safety features
- Sustainability insights and offsetting
- Seat maps
- Interactive street maps
- Customisable interface

TRAVEL DOESN'T HAVE TO COST THE EARTH CTM Climate+

We believe that business travel must be sustainable to protect our environment while supporting prosperous communities and economic growth. That's why the CTM Climate+ program provides your business with a suite of 'green travel' solutions to deliver on your business's unique sustainability objectives.

Got a Net Zero goal?

Our Climate+ program enables you to offset your travel program's carbon footprint by supporting a global sustainability project of your choice.

Need to report on your travel program's carbon footprint?

Your CTM Data Hub's dedicated sustainability reports provide carbon emission insights across every aspect of your travel spend, dissectible by traveller, supplier, fare type and trip.

Looking for more sustainable travel experiences?

We've integrated sustainability data for air and hotel suppliers within our online and offline booking channels and on individual travel services, to enable you to choose the most sustainable travel services at the time of booking.

EMPOWER YOUR PEOPLE WITH CTM Wellbeing

Optimise travel behaviours and identify potential triggers of traveller stress within your travel program for enhanced employee wellness and duty of care. We've built a dedicated Traveller Wellbeing dashboard within your CTM Data Hub, enabling you to identify behaviours and trends which could impact the performance of your team.

Identify travellers 'at risk' by:

- Total nights away
- Frequency of travel and days between trips
- Red-eye flights
- Same day return trips
- Fare class usage
- Jetlag triggers
