As a B Corp certified organisation, sustainability is front and centre of everything we do. From our people and supply chain, through to our business ethics and approach to travel, we care about the planet.

**FOR MOST, SUSTAINABILITY IS JUST A TICK-BOX.
FOR US, IT'S WHO WE ARE.**

THERE IS NO PLANET B

CO₂ AND YOU

Carbon dioxide (CO₂) is a greenhouse gas emitted in almost all aspects of travel. When we fly, stay at hotels, drive cars or take a train. These emissions contribute to climate change.

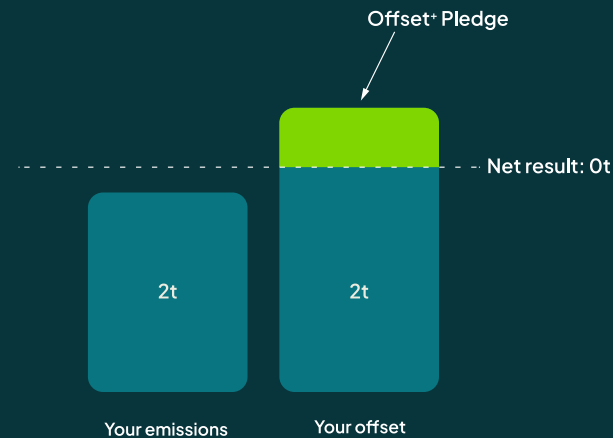

WHAT IS CARBON OFFSETTING?

In simple terms, offsetting one tonne of carbon means there will be one less tonne of carbon dioxide in the atmosphere than there would otherwise have been.

OFFSET+ PLEDGE

We don't settle for carbon neutral in our offsets. We will always pledge to offset that little bit more and offset a minimum of 101% of the emissions generated.

This means that every time you fill up, you will be generating a climate positive outcome for the planet.

CLIMATE IMPACT PARTNERS

WHEN WE OFFSET+ ON YOUR BEHALF,
WE ONLY USE **THE BEST**

That's why we've partnered with the multi-award winning Climate Impact Partners, whose projects are all Gold Standard or Verifies Carbon Standard (VCS) and align with the UN's Sustainable Development Goals Charter.
