

hello,
we are
citizenM

citizenM says: **luxury for the wise,** **not the wealthy**

citizenM hotels are built for today's modern travellers. For professionals, shoppers, explorers and party people. For those who cross continents as easily as others cross streets. These travellers are savvy; they don't want to pay for what they don't need. Instead, they want to stay in easily accessible locations in the world's most buzzing cities, sleep in huge beds, and connect to the world via superfast free Wi-Fi. They want affordable luxury. It's a good thing we've got it in spades.
