

## Global travel the Wings Way.

Our purpose is to enable organisations to mobilise their people efficiently, reliably, safely, and practically, anywhere on earth.

We do things differently. We call it the Wings Way. The Wings Way means asking 'let's see what's possible'. It means we'll always be there when you need us, exceeding your expectations.

We embrace the technology crucial to our industry and remain wholly dedicated to high-quality personal services, relentless attention to detail, and responsiveness to our clients' needs. Partnering with our clients to shape their travel programmes around key objectives, we drive visibility, policy compliance and duty of care.

### The Power of One

As a Wings client, you are dealing with one wholly owned network of global offices, one single technology platform and one data source.

#### One team

With 450 employees across the globe and round-the-clock service teams, we are always available to support. Our consultants have 18 years' experience on average and stay with you every step of the way, fully dedicated to providing a personalised service. Wherever you are in the world, you'll be looked after by a member of the Wings team.

#### One technology platform

Everything we do is backed by our unified global service platform, WingsOne. WingsOne sources the best fares and hotel rates, provides real-time alerts that keep travellers safe and informed, and delivers powerful analytics. WingsOne integrates with third-party online booking tools, data sources, payment platforms, and expense management tools.

#### One data source

Our database provides you with a single source of management information across your global travel programme. It also provides our consultants with access to consistent data globally, enabling accurate traveller tracking and efficient support.
