

Travel Policy Management Simplified

Travel policy compliance is trending down; 41% of travel managers reported less than 75% policy compliance among employees in 2023.

Policy Management Simplified

Improve Compliance With Less Work

- Out-of-policy bookings increase travel expense and risk
- Meeting regulatory and audit requirements is expensive and arduous
- Lack of real-time notifications increases non-preferred supplier bookings
- Duty of care is compromised when travelers aren't notified of high-risk travel requirements
- Driving changes after the booking and before ticketing can increase compliance and savings

Travel policy compliance is trending down; 41% of travel managers reported less than 75% policy compliance among employees in 2023.

The Solution

- Automates workflow, messaging and reporting from booking to departure
- Immediate feedback when out of policy or needs approval
- Automatically routes for approval
- Notifies key stakeholders like travel risk providers and travel managers
- Near real-time alerts with insights into non-compliant trip parts
- Configurable business rules, workflow and messaging

Features

Tailored Workflow, Custom Communication

Seamless and Automated

- Automated policy checks
- Immediate traveler notification of out of policy bookings
- Approver notification with exceptions clearly identified
- Policy exceptions and desired behavior clearly communicated
