Bolt Business

Get clarity, visibility, & control of your team's rides with Bolt's centralized online platform

Add your employees to one business account and manage their usage:

- Set restrictions on employees spend
- Get full visibility of employee and team use
- Have the option to centrally book rides now or schedule for the future
- Get transparent monthly reports
- All riders on one centralized payment method
- Save time with all ride receipts in one place

Should you need any help, you can always reach out to your dedicated account manager or use our **24/7** customer support.

Keep your team safe

At Bolt, we take the safety of our passengers very seriously. We have robust safety controls in place.

- Each driver is checked and vetted before driving with Bolt
- Driver and car details are shared with each rider in advance (including driver photo)
- All cars are insured without exception
- Real-time GPS tracking of all rides
- All drivers get ride ratings which are monitored and followed up on
- The same quality globally, no matter where your employees ride

Your next step to becoming greener

Reduce your ecological footprint — all Bolt rides in Europe are **carbon neutral**

In some countries, business users can pick an **electric vehicle**

In 50+ cities, business users can select e-bikes and scooters for rides

Work with an international company

Our business clients range from world-renowned brands to SMEs all around the globe

*Bolt Business helped us to significantly **reduce the time** spent on expense reporting. Especially we like the "Comment before the ride" feature, which **gives us better control** over employee transportation usage and helps us to link the costs with the customer projects in accounting.*
