

## Experience the Power Of JTB Preferred Services

Our visionary approach to managed business travel develops Traveler buy-in, provides complete unbiased content, ensures the latest technology and effectively reduces travel spend.

*We apply common sense thinking in every phase of business travel—from planning and booking to in-trip experiences and post-trip expense reporting support—creating new experiences to empower Travelers.*

### Global Risk Monitoring

By applying our end-to-end robust solution, we help companies fulfill their duty of care obligations, and give travelers the risk intelligence they need from pre to post-trip, complete with mobile and messaging capabilities.

### Trip Disruption Assistance

Most travel management companies only book travel. We continually monitor during the trip, should a disruption occur, we proactively contact the Traveler with alternate solutions to maintain their schedule.

### 3D Expertise

Successful travel programs require a dedicated army of experts, focused on looking at every aspect of Business Travel, freeing you to focus on your business. With our outside the box mindset, we have every angle covered.

### Advanced Cost Avoidance

Manage more of your travel spend categories. Our data-driven approach, best price monitoring and re-shopping technology help you eliminate unnecessary costs before they happen.

### Business Intelligence

We deliver powerful and actionable data analytics, enabling you to optimize your company's travel spend as well as spotlight opportunities and threats.
