## NOMADIC

Nomadic is a short-term immigration document procurement and management company, with an emphasis on technology and client service.

Nomadic was formed by experienced employees from Fragomen to bring technological solutions to the immigration compliance side of short-term travel. Nomadic sits within Fragomen Technologies Inc., creating a Business Visa practice in a separate, non-law firm entity and establishing a wing-to-wing immigration solution. As part of this ongoing relationship, we integrate Fragomen's expert knowledge of immigration compliance into our assessment tool.
